

Educational Department.

D. M. HUNTER, Editor.

This is one of the most important months of the school year. As many of the schools of our country commence on the first Monday of September, teachers for those schools will be engaged this month. It is necessary that the school board of each district take into consideration the needs of the school under their care and to employ a teacher suited to do their work for their particular district. Some districts need teachers who have had considerable experience in teaching, and who have excellent qualifications in respect to the scholarship.

One who has never taught and desires to teach will be obliged to commence somewhere. It is necessary that those who have not taught will find schools suited to their ability.

If we would have a sufficient number of experienced teachers and those well qualified to teach to supply the schools of our county, some of the districts will be obliged to pay better salaries.

We have some districts that pay their teachers well, and we have some that begrudge even a small salary to one employed to teach their children.

If no district in the county would pay less than thirty dollars a month to any one for teaching, and if all districts were willing to pay more than that amount a month to teachers worth more than that, there would be an inducement to experienced teachers to come to our county from other counties and help along in the educational work of the county.

We have some experienced teachers, living in our own county, who do excellent work and are willing to improve professionally.

A forty dollar teacher should be paid forty dollars a month. A thirty dollar teacher should be paid thirty dollars a month. A person who is not worth thirty dollars a month in a schoolroom should not be employed at any price.

It is much better to have three months school taught in any district by a teacher worth fifty dollars a month than to have nine months school taught by a teacher worth twenty-five dollars a month.

We have set the standing required for persons to obtain certificates in this county at a reasonable grade. It is our purpose to hold to that standard and to grant no certificates to any one who will not attain to that standard, unless it becomes necessary to do so in order that schools may be supplied of inferior qualifications on account of low salaries.

Every director that inquires for a teacher asks for one who can govern well, one who can teach well, and one who has a good certificate; but we are sorry to say that many are not willing to pay what a teacher of the kind desired is worth, and are unwilling to employ one of inferior ability or do so reluctantly.

It is high time that teachers be employed in all our schools who can teach the common branches thoroughly.

It would put an end to the necessity of parents being obliged to send their children to a boarding school for the purpose of obtaining such instructions as should be given them in the district school. On account of low salaries, irregular attendance, and other evils the people do not get the benefit from the public schools that they ought to get.

A few more subscriptions to the North Western Journal of Education are necessary in order that a few more books may be added to the county teachers' library. Every school board should subscribe for the North Western Journal of Education.

He who Wants Health Wants Everything!

There are millions of persons in this country who suffer from chronic diseases or an affliction which incapacitates them from business, and frequently makes life a burden, many of whom would place themselves under different treatment if they were acquainted with the fact that a new treatment was in reach of them. Remedial agents for many of those ills we have endeavored to secure. Of such we offer to the afflicted one, on a business like basis, the management of which we trust will be tempered by a moral and philanthropic principle.

We practice the Brinkerhoff treatment of all forms of RECTAL DISEASES. We personally owe a debt of gratitude to the father and founder of this system and not to publish to the world such knowledge, would be to do mankind an injustice. This is the remedy that thousands bless, and one that I have secured at great expense, tried and tested before offering it to you for your consideration and investigation. Descriptive pamphlets sent free on application. Office consultation free. Names of parties who have been cured cheerfully given on application.
