The Mill Property. The Red Cloud Power Co., successors to the Red Cloud Milling Co., are the pos-sessors of the valuable mill and electric properties located in this city. The prin-

properties located in this city. The principal owners of the Property are the proprietors of the Westinghouse Electric Light Company associated with a number of our Red Cloud capitalists. Through the instrumentality of Mr. Garber, cashier of the Farmers & Merchants Banking House of this city, this important deal, which means so much to Red Cloud was consumated. The new company have purchased, we understand betant deal, which means so much to Red Cloud was consumated. The new company have purchased, we understand beside the mill property, 600 acres of land adjacent to the mill, which together with their other purchases amounts to a big round sum of money. The new company have under construction now as a starter in the way of improvements that will be substantial, a new dam that is to cost in the neighborhood of \$10,000. When this is finished the valuable property will be again started up, which will be in about 60 days. The new structure will be built after the latest and most improved designs, and well furnish many hundred horse power. The race has been enlarged and deepened, and every device used to gain all of the power, and reep as little from going to waste as possible. The enterprise is one that our citizens should feel proud of, due credit of which should be placed to the gentleman who has engineered the prospect through. When the power has been completed, there will be power enough for dozens of mills and manufacturing establishments, and The Chuer hopes that it will be utilized in that direction. In tablishments, and THE CHIEF hopes that it will be utilized in that direction. In the near future we shall describe the en-terprise more fully. It will be a grand thing for Red Cloud we believe.

A sugar Forestory in Sight.

A Sugar Factory in Sight.

The people of Red Cloud and Webster county can have a sugar factory if they will make an effort for it. Rayor Spanegie has a proposition from resposible parties in black and white, and if our enterprising farmers will take hold of the matter we can have a home manufactory, for the raw material. All it requires is a guarantee that our people will raise 500 acres of beets for three years and the factory is ours. The company do not exact any money consideration, but on the other hand propose to pay good figures for every ton of beets raised. Now is our chance. 500 acres of beets, means something like \$30,000 to our farmers each fall. Is it not worth an effort, and should not Red Cloud have it? Let our people get to work at once. A hundred other towns would and are waiting to snap up such chances. but Red Cloud alone has the opportunity. Now for the factory. A Sugar Factory in Sight. On Saturday, 17th, an event occurred here which shocked every one. Lutu Mallick 12 years old started for Eim Creek to gather grapes, stopped a moment for an older girl, who was to accompany her, when a little boy 6 years old, picked up a shot gun, supposing there was no load in it, and pointing it at Lulu's head, fired, killing her instantly. The distress of Mrs. Mallick and her children cannot be imagined much less described.

The funeral services were held in the Congregational church, on Sunday at 3 p. m., the pastor Rev. H. D. Platt officiating.

The attendance was the largest ever known at a funeral. The whole com-
