Dyspepsia:

om dyspepsia than Mr. E. A. McMahon, a ell known grocer of Staunton, Va. He says: Before 1878 I was in excellent health, weigh-

"Before 1878 I was in excellent health, weighing over 200 pounds. In that year an allinent developed into acute dyspepsia, and soon I was reduced to 162 pounds, suffering burning sensations in the stomach, palpitation of the heart, nausea, and indigestion. I could not sleep, lost all heart in my work, had fits of melanchofia, and for days at a time I would have welcomed death. I became morose, sullen and irritable.

for days at a time I would have welcomed death. I became morose, sullen and irritable, and for eight years life was a burgen. I tried many physicians and many remedies. One day a workman employed by me suggested that I take Suffering rills, as it had Suffering rills, as it had wife of suffering dyspepsia. I did so, and before taking the whole of a bottle I began to feel like a new man. The terrible pains to which I had been subjected, ceased, the palpitation of the heart subsided, my stomach became easier, nausea disappeared, and my entire system began to tone up: With resurning strength came activity of mind and body. Before the fifth bottle was taken I had regained my former weight and natural

I had regained my former weight and natural condition. I am today well and I ascribe it to taking Hood's Sarsaparilla."

N. B. If you decide to take Hood's Sarsaparilla do not be induced to biy any other.

CONDITIONS IN GREAT BRITAIN WITH THOSE OF THE UNITED STATES.

Higher Taxes, Lower Wages, More Pau pers, Smaller Savings Deposits and Greater National Debts in England Than in the United States.

(Special Correspondence.)
WASHINGTON, Oct. 17.—Do the people who are clamoring for free trade ever compare the conditions of the past and

public debt in Great Britain is \$3.25 per capita; the annual interest charge upon the public debt in the United States is \$5 cents per capita.

Great Britain, under her free trade system, has decreased her public debt in the last thirty-five years \$520,000,000; the United States, under protection, has decreased her public debt in twenty-five years \$1,551,000,000.

In free trade Great Britain there is 1 pauper for every 80 individuals, and 1 person in every 19 receives more or less parish support; in protective United States there is 1 pauper for every 643 inhabitants.

The "balance of trade" is hundreds of

The "balance of trade" is hundreds of millions of dollars against Great Britain every year. Under her vaunted free trade she imports vastly more than she sells. Her exports last year amounted to \$1,800,000,000 in round numbers, and her imports amounted to \$2,100,000,000, making a balance on the "wrong side of the ledger" of \$800,000,000. Our exports last year ware \$1,080,835,626, and our OFFICE OVER SPOKESFIELDS last year were \$1,089,835,626, and our store.

Red Cloud, Nebrana. imports were \$827,891,284, thus giving us a balance of \$202,944,843 on the right

ide of the ledger."

The balance of trade was \$500,000,000 against free trade Great Britain last year, while it was \$200,000,000 in favor of protected United States.

In the last ten years our exports have

exceeded our imports by \$706,883,314. In that time the exports of Great Britain have fallen \$8,515,000,000 below her imports. In other words, in the decade just ended protective United States has just ended protective United States has a balance of over \$700,000,000 on the right side of the ledger, while free trade Great Britain, whose "commerce rules the world," shows \$8,515,000,000 on the wrong side of the ledger.

In free trade Great Britain bricklayers get \$1.17 per day; in protected United States, \$3 per day; carpenters in Great Britain get \$1.38 per day; in the United States, \$2.85 per day; in free trade Great Britain engineers get \$1.60 per day; in

Britain engineers get \$1.46 per day; in the United States, \$8.23 per day; in Great Britain machinists get \$1.20 per day; in the United States, \$2.50 per day; in Great Britain compositors get 15 cents per thousand ems; in the United States, 40 cents per thousand; in Great Britain shipbuilders get \$8 per week; in the United States, \$16.

Thus it will be seen that in every particular our condition is better than thus are trade not shippured to the state of our condition in the seen that in every particular our condition is better than thus are trade not shippured to the same trade not shippured.

of our free trade neighbor. Our com-merce is in infinitely better condition because we receive hundreds of millions of dollars more for our products than we pay out for the things we buy, while the reverse is true with Great Britain. Our public debt is less than one-sixth per capita that of Great Britain, while our annual interest charge is only about one-tenth per capita that in Great Brit-ain. We have decreased our debt in

25 years 236 times as much as Great Britain has been able to decrease her debt in 85 years. Great Britain has 1 pauper for every 39 persons, while we have 1 for every 643.

Our government collects from her people less than \$6 per capita of taxes; that of Great Britain collects from her people over \$13 per capita of taxes. The deposits in savings banks in Great Britain average \$5 per capita of the population; those in the United States average \$25 per capita of population. The money in circulation in Great Britain is \$17.90 per capita, while that of the United States is \$25.62 per capita. Wages in the United States are from 75 to 100 per sent, higher than those paid in Great Brit. 1.

What good reason is there for desiring to exchange English free trade for the protection which gives us these condi-tions, which in every case are so much better than those of our British neighbor? What business man is there who har seen his business grow up and prosper under the system which has been in operation in this country for the past thirty years who wants to endanger it steady progress by the adoption of system which compares so unfavoral with our own in its results? O. P. AUSTIN

Republicans should not forget that the are eight states in which the plantit four years ago was less than 2,500 and some cases less than 1,000. The res sibility for success or defeat rests on your adjustment setting. Vote, and see "-

GERMANS SPEAK.

THEY TELL WHY THEY SUPECT HARRISON FOR PRESIDENT

Some Important Suggestions Which ! German Voter Will Read - Vien-Many Prominent German-American

The following letter addressed to "a" roters of German descent" has been to sued by a large number of leading the man-American citizens of New Yorks

Recognizing the great commercial main dustrial importance of the approaching jest dential election to our adopted fatherians, and being fully convinced that the Republication of the approaching jest dential election to our adopted fatherians, and being fully convinced that the Republication of the nation, but is ever most actively engaged to further them, the undersigned citizens of German descent have constituted themselves a committee to work for the election of the standard bearers of that party. We have active connection with politics, but as citizens and business men who realise that the prosperity of this country is due to the wise commercial policy of the Republican party, we consider it our duty to give energetic expression to our convictions, and to oppose the vague theories of the free traders, which have no substantial basis in fact.

Tiff Republican party has, true to its traditions, declared itself for the protection of our industries and for honest money. The Democratic party has declared itself for unlimited free trade and for a return to that dangeron system of state banks which in times past at fected our commerces so disastrously. It was the small business man and the workman where were chiefly injured by this system, and it is these men who will be injured if it is reintreduced.

Both free trade and protegion have been

were chiefly injured by that artisem, and it is these men who will be injured if it is reintreduced.

Both free trade and protection have been sufficiently tested. The direct consequence of the free trade legislation of 185 was the marked decline in our national prosperity, which culminated in the treat commercial crisis of 1857. Protection took the place of the tariff for revenue only, the country recovered, commerce and industry thrived, till in 1866 the tariff was again reduced and the terrible paint of 1857 was the result. Again the people of the United States declared for protection. The consequence was a development of all our national Resources beyond the wildest expertation and a general prosperity such as the world had never seen before.

When Grover Cleveland, true to the renetionary principles of the Democratio party, declared himself for free trade in his message of Dec. 6, 1867, the people, mindful of the bad experiences which it had made in the past with free trade, rejected the Democratic party and again intrusted the government of the nation to the Republican party.

Nover was the balance of trade se favorable to us as now; never was the presperity of the whole country so general; never were the wage carners so well off.

The legislative activity of the Fifty-first orderes and the shameful inactivity and incertainty of the Fifty-second congress sufficiently fillustrated the difference between the parties. Both the presidential candidates have been tried by the people; both have served a full presidential term; their administrations belong to history.

Every reason given in the year 1866 for the

tried by the people; both have served a full presidential term; their administrations belong to history.

Every reason given in the year 1888 for the election of Harrison is valid today, only in a higher degree. Tarough his firm stand on the silver question he saved the country from a great financial crisis.

Disdaining grandiloquent promises and preferring to gain the respect of his fallow citizens by a blameless administration, President Harrison has fearlessly defended the honor, and dignity of the nation, and has ence more forced from foreign nations that respect for the stars and stripes which had been almost entirely lost under Cleveland. Under President Harrison civil service reform has been a reality, while his appointments to the most prominent offices are admitted even by his most bitter political enemies to be unassentable.

If we compare with this the administration of Grover Cleveland, we find that in spite of bombastic promises of reform in the civil service, the spoilsmen never since the days of Jackson raised their heads so boldly as when Grover Cleveland, through Adlai E. Stevenson, deposed 44,000 postmasters who had honestly and faithfully administered their offices to make room for the Democratic place hunters who were to help him to a associate. offices to make room for the Demogratic place hunters who were to help him to a second term of the presidency. Not only has Mr. Cleveland been untrue to all his pledges of reform, but as a matter of fact he has ever yielded to the worst elements of his party whenever his personal interests were at stake, and in this very campaign we find him allied in the closest possible way with Tammany Hall.

The letter is signed by Dr. William Balser, C. F. Balzer, Julius Bien, Julius Bien, Jr., S. Bachman, Emil Berelshei-mer, Blumenthal Bros. & Co., Dr. P. A. E. Boetzkes, Julius Brunn, Gustav Blum & Bros., Henry Brennich, Herman Cantor, George Dennerlein, Leopold Deutchberger, Alfred Dolge, Frederick Flacus, P. Goepel, William F. Grell, F. W. The Australian ballot which now prevails in nearly every state except those of the south is not popular with farmer and workingmen, and has thus kept they sands of Republicans away from the poly The Republican leaders should at our establish Australian ballot schools, so thus every Republican voter may be at the polls and vote intelligently.

Business men should remember that a rote for Cleveland means a vote to changthe general business system of the country. and will certainly result in great business uncertainties and irregularities for the next four years. Democratic success mean Democratic control of senate, house and presidency, and full reign of the free trade sentiment.

If your business has been built up during the past thirty years a change in the tariff system under which it has prospered would at least result in great uncertain ties and irregularities in the next four years. Your vote and that of your ar quaintances may decide the condition of your business in th near future.

Republicans should remember that in five states having seventy-five electoral age of 1 per cent. of the votes will reverse the result of 1805 to these
