THE Browns seem to be in it when you reach a good place—but they don't count under governor. There are three governors—the chief magistrates of Kentucky, Maryland and Rhode Island—who bear the name of Brown. Gov. Toole, of Montana, is the only one of the forty-four who has no staff.

"BOBBIE" BURNS' cottage at Ayr is to be reproduced at the world's fair. The Scottish Home Industries' association has applied for the concession, which will undoubtedly be granted. A FOREIGN letter says: "Verdi, the composer, has set his heart on having the great French barytone, Maurel, for the leading role in his new opera, 'Falstaff.' But it is reported in Rome that Signor Ilceordi, the publisher, who was delegated to conduct the necessary negotiations, finds that the Frenchman will charge a fabulous price for his services and it does not seem practicable to agree to the terms demanded."

REV. THOMAS DIXON, who paid \$155 for the sport he found in killing robins on Staten Island, expresses surprise that the people of the north regard the red-breasted bird as a songster. He imbibed his education in natural history in the pine woods of North Carolina, where, he says, that bird is regarded as a disreputable glutton. He might have said the same thing of the king of American song birds, the bobolink; but he should remember that Staten Island is not in the tar heel belt.

ACCORDING to Dr. Weldon, who is headmaster of Harrow, the only people in English society who do not object to having their boys flogged in school is the upper class. "Seeing that flogging is abolished in the board schools and forbidden in the middle class schools," says he, "we shall soon be able to flog only the son of a duke." Indeed, the times have changed since the times of Dr. Busby, who, eying a scholar severely, said, "I see wits in that ugly little boy; my cane shall bring them out."

MR. EVARTS' trouble is a hereditary one. It is a disposition to blindness that is in the blood of the descendants of Roger Sherman, one of the giants of the revolution, who was his grandfather. His cousin, Senator Hoar, is similarly afflicted and was obliged to go to Europe last summer for treatment. Another cousin, Simeon Baldwin, was once afflicted in the same way and was compelled to remain in darkness for a year, and, by the help of a tutor, maintained his standing in his class.

PROFESSIONAL men seem to have an idea that it is well to make out the bill for a sufficient amount. Then they can meet the court reductions which almost always follow. Dr. C. L. Eilingwood, of San Francisco, charged the estate of Walter S. Hobart \$30,000 for his medical attendance for twelve months on Mr. and Mrs. Hobart, and, although the heirs, three minors, petitioned the court to allow the claim, Judge Levy cut it down to \$10,000, remarking that the heirs will in a few years obtain free control of the estate and can then pay the remainder if they see fit to do so.

MORE ALARMING.

The Strike at New Orleans Enters an Acute Phase.

NEW ORLEANS, Nov. 7.—The strike of the labor unions composing the Workmen's Amalgamated council assumed more alarming proportions yesterday and the prospect now is that all of the city industries, with possibly one or two exceptions, in which union labor is employed, will be at a standstill today.

The conference between the merchants and laborers' committees was resumed at the city hall, Mayor Fitzpatrick presiding, and after an executive session, which covered two hours, was finally dissolved without result. The merchants persisted in their demand that the men should return to work before any attempt was made to arbitrate the existing difference and the men were equally firm in their demand that the differences should be arbitrated at once before the men were ordered back to work; or at least as an evidence of good faith that an arbitrator should be chosen at once. To this proposition the merchants replied that no charge of bad faith could lie against them. The men, they claimed, had failed to carry out the agreement made with them and if guarantees were to be given, they should come from the men.

Up to midnight the men had made no fresh overtures to their employers. The electric light workers union has decided to join the strike but the decision requires the sanction of the International Electric Workers union of which it is a member before it becomes effective. When they strike, if they do, the city will be in darkness, as the gas men went out yesterday. The longshoremen have refused to strike and have resigned from the American Federation of Labor.

The Typographical union met yesterday afternoon and decided to go out. This will probably suspend the publication of every morning paper in the city except the German Gazette.

The guards at the armories of all local military commands have been doubled and arrangements made to call the troops out at a moment's notice. There has so far been no demand upon their services. Street car travel has been entirely suspended, and the only means of transit to distant parts of the city is by hacks or wagons, which are run periodically.

ANARCHIST ANNIVERSARY.

Fifteen Hundred Men and Women Proceed to Waldheim Cemetery.

CHICAGO, Nov. 7.—Sunday was the anniversary of anarchy in Chicago. Thirty-five hundred people stood in a cold, drizzling rain at Waldheim cemetery and paid tribute with speech and song to the memory of "the martyrs" and strewed with wreaths and flowers the graves of the men who were condemned by the law for their part in the Haymarket riot—August Spies, George Engel, Albert Parsons, Adolph Fischer and Louis Lingg.

Quiet earnestness and enthusiasm and general good order characterized the celebration of the men and women who dedicated to the world a monument that is to mark the graves of those who five years ago paid the penalty of crime with their lives. A parade in the city and the ceremonies at the cemetery were the features of the day.

The labor organizations that were to participate gathered at the Haymarket square at 11:30 in the morning, but it was noon before the procession moved. Fifteen hundred men and women and children were in line and marched to the grand Central depot, accompanied by bands playing the Marseillaise and the dead march. They were watched with interest by many who had stationed themselves on the sidewalks on the route. At the station two special trains awaited to convey the crowd to the cemetery where the graves were lavishly decorated.

The monument which marks the burying place of the men was hung with ropes of smilax and five crimson roses. "Murdered, but not dead," was the inscription, set in cariations. On the pedestal were Spies' dying words as the noose was tightened about his neck: "Our silence will be more powerful than words can be." All of the floral emblems bore red streamers and the color prevailed everywhere in badges and bouquets.

CRUSHED IN THE ICE.

Many Mariners Drowned By the Wreck of the Helen Mac.

SAN FRANCISCO, Nov. 7.—The steam whaler, Beluga, which has arrived from the Arctic regions brings the news of the destruction of the whaling bark Helen Mac, Capt. Thaxter, and the loss of sixty of her crew. Only five of the vessel's men were saved.

On October 6, while the Helen Mac was engaged in cutting in a whale, in latitude 71:30 N., longitude 169:30 W., she was crushed in the ice. The ocean came with a rush and without warning. The vessels and boats were crushed to splinters and the officers and men had no time to lower the boats and get away.

The fifth mate, Ward, a boat steerer, Cook Oeey Kershaw and two sailors were the only ones saved. They clung to the mainmast as it went over on the ice. The rest of the crew, including Capt. Thaxter, were either crushed to death or drowned. For forty-eight hours the five men clung to the mast and were finally taken off by the steam whaler Ocea. The Beluga brought down with her the cook and Japanese sailor of the Ocea, the two others remained on the Ocea and one went on the whaler Helander.

About seven years ago I had Bronchitis, which finally drifted into Consumption, so the doctors said, and they had about given me up. I was confined to my bed. One day my husband went for the doctor, but he was not in his office. The druggist sent me a bottle of Piso's Cure for Consumption. I took two doses of it, and was greatly relieved before the doctor came. He told me to continue its use as long as it helped me. I did so, and the result is, I am now sound and well—entirely cured of Consumption.—Mrs. P. E. BAKER, Harrisburg, Illinois, February 20, 1891.
