Obituary.

On Saturday, August 26th, Miss Fanny E. Slaby, whose home is in Kansas, about seven miles south of town. died at the home of her sister, Mrs. Anthony Clark, in this city. She had been ill for several months, and came to Red Cloud several weeks ago in order to receive medical treatment. All efforts, messenger was despatched for Rev. E. L. Ely, who came to her bedside at once She became a Christian about four years ago in some special meetings conducted by Revs. Hummel and Horton and united with the Methodist church and had tried to maintain a Christian charhad, however, arisen in her mind which was entirely removed in this interview. and she expressed herself as perfectly at rest and willing to pass over the river. Much of the forenoon on Saturday, she spent in singing and conversation with members of the family. She was much interested also during her last hours in the class of children in the Sundayschool of which she was the teacher.

The remains were carried to her home on Sunday morning on account of the serious illness of her mother, and at 3 o'clock the funeral services were held at the Pleasant Grove school-house, conducted by Rev. E. L. Ely, assisted by Rev. Mr. Horton, at which time the high Rev. Mr. Horton, at which time the high bama, Cockrell, Coffen, Conn., Cooper of esteem in which she was held was Texas, Cox, Crawford, Culberson, Curtis be 15% to 1 instead of 16 to 1. The shown by the very large number who of Kansas, Davis, De Armond, flat theory was fully indersed. The gold shown by the very large number who followed her remains to the grave.

Thus, in the very bloom of young womanhood, she was called away, but womanhood, she was called away, but Fyan, Geary, Goodnight, Grady, Hall, the testimony she leaves behind is an Harris, Hartman, Hatch, Hard, Hender-

that those who depended upon Dr. King's New Discovery, not only had a speedy recovery, but escaped all of the troublesome after effects of the maindy. This remedy seems to have a peculiar power in effecting rapid cures not only in cases of La Grippe, but in all diseases of throat, chest and lungs, and has cured cases of asthma and hay fever of long standing. Try it and be convinced. It won't disappoint. Free trial bottles at C. L. Cotting's drug store.

REPEALERS TRIUMPH.

THEY WIN BY MORE THAN A TWO-THIRDS MAJORITY.

A Throng in the House, Both on the Floor and in the Gallery-Only Four Members of the Whole Roll Not Present-Detailed Vote on the 16 to 1 Amendment.

WASHINGTON, Aug. 29.-The house has acted on the Sherman law and the result is the repeal of the perchasing clause thereof by a vote of 240 ayes against 110 pays. There never was a larger audience in the chamber than the one which listened to the members as they said "aye" or "no" as the names were called on each proposition. Nor was there very often a fuller house. All the members on the roll except four answered to the roll call. The only business done other than voting was the reading of the journal, and as soon as that was done the order of business as provided in the order adopted at the commencement of the debate was read by the clerk. The Wilson bill was also read.

Text of the Wilson Bill. It is as follows: "So much of the act approved July 14, 1890, as directs the secretary of the treasury to purchase from time to time silver bullion to the aggregate amount of 4,500,000 ounces, or so much thereof as may be offered in each month at the market price thereon, not exceeding \$1 for 371% grains of pure silver, and to issue in payment for such purchase treasury notes of the United States, be and the same is hereby repealed. But this repeal shall not impair nor in any manner affect the legal tender quality of the standard silver dollars heretofore coined, and the faith and credit of the United States are hereby pledged to maintain the parity of however, were unavailing, and on Friday the gold and silver coin of the United she felt that she was near the end and a States at the present legal ratio or such other ratio as may be established by law."

The six Calls on Amendments. In accordance with the order referred to above the voting began on the first amendment allowed the free coiners and went on to each of the others, the results being as follows: On the first-16 to 1 ratio-124 yeas to 226 nays; second-17 to 1 ratio-105 yeas to 237 nays; fifth-20 to 1 ratio-119 yeas to 222 nays; sixth-to reenact the Bland-Allison law-136 year to 2:3 nays. Every Illinois vote save one was recorded on the 16 to 1 proposition, and the six who voted yea were Post, Fith-ian, Williams, Lane, Marsh and Hunter.

La Grippe.

During the prevalence of the Grippe the past seasons it was a noticeable fact that made a thing a commodity. Free coinage made money. He had a big audience. Stewart spoke next to a score of senators. Some uninteresting legislation was passed and the senate adjourned to Monday.

Nothing sensational transpired in the house. Aside from the speeches delivered by Burrows and Springer there were none that commanded the attention of the members and that made a thing a commodity. The decisive vote on the 18 to 1 ratio second to dishearten the silver men junctions were served, but too late to save the trestles entirrly, which are in a shaky condition as a result of several piles being

and in place of the attention which was paid to the first was substituted a listless-ness which spread throughout the hall. Such a majority against the e. sence of the free sliver idea was but a foreshadowing of all the other votes which are given as to totals in the foregoing.

The vote on the Bland-Allison act amendment was another crucial test, but it went against the silver men very emphatically, although that amendment received the strongest support.

Then came the final vote, which Bailey of Texas tried to stave off for a short time by offering an analysis of the stave of the stav

time by offering an amendment to repeal the parity clause of the Sherman act, in the hope that by so doing he could rally some of the gold men to his support and thus weaken the friends of unconditional repeal of the purchasing clause, but the speaker ruled that this was not in order pending the demand for the engrossment and third reading of the bill, and the bill was accordingly ordered to a third read-

Then Mr. Bailey raised the point that there should be a division of the question. One part of it repealed the purchasing clause and the other retained the parity clause. There should be a separate vote on each. But again the speaker pointed to the decisive order of the resolution under which the house was acting and held that such separation could not be had. The vote was then taken upon the final passage of the Wilson bill, and it was passed,) eas 240, nays 110.

THE WEEK IN CONGRESS. Doings in the Senate and House of Repre-

sentatives. WASHINGTON, Aug. 24.-The principal event at the senate's session was the rejection of Lee Mantle as a senator from Wyoming. The vote was non-partisan, and stood 35 to 30. Peffer's resolution for an inquiry whether the banks of the east are cashing depositors' checks or refusing to do so was sent to the calendar, where it is likely to stay.

In the house the whole session was occupied with the debate on silver, but the only two speeches that roused any interest were those of Cummings of New York and Cannon of Illinois. The house held an evening session. The feature of Can-non's speech was a defense of the Sherman act and opposition to its repeal.

WASHINGTON, Aug. 25 .- In the senate the vice president appointed the committee on acter ever since. Some uncertainty ratio-100 years to 334 mays; third-18 to 1 commemoration of the 100th anniversary ratio-102 yeas to 239 nays; fourth-19 to 1 of the laying of the corner-stene of the Capitol. Voorhees is chairman. The motion to reconsider the vote declaring Lee Mantle not entitled to a seat in the senate was taken up, but postponed for the day. Peffer and Allen made free silver speeches.

The house devoted the whole day to five minute speeches—the time being extend-ed in individual cases—on the Wilson bill. The free silver men rallied those on the The detailed vote on the amendment providing for free coinage at the ratio of their views, notably McCreary, Cooper and Bynum, and there was a good deal of fun in the house.

WASHINGTON, Aug. 26 .- The speech made by Hill of New York in the senate was re markable in many respects. One of these was the hostility to President Cleveland shown all through it; another was that the senator came out flatly as a free coinof Kansas, Davis, De Armond, flat theory was fully indorsed. WASHINGTON, Aug. 28 .- The senate was not in session Saturday. In the house the party leaders had a field day. Reed made a speech in which he said that at the bot tom of the present situation was the threatened change in the tariff policy. He did not argue in favor of one system of tariff or another, but claimed that in the nature of things his claim must be correct He would vote for repeal as a partial remedy of the troubles existing. Bourke Cockran made the best speech of the session on the anti-silver side. Both he and Reed were loudly applauded. Bland replied to Cockran, and Wilson closed the day debate with a defense of the bill. At night there was a session which enabled a large number of members to say how they large number of members to say how they would vote.

WASHINGTON, Aug. 19.-In the senate Stewart offered a resolution asking the treasury whether there will be a deficiency for the year and its probable amount. The amendment to the Voorhees bank bill for the redemption of 3 per cent. bonds was defeated—29 to 23. The motion to reconsider the vote refusing Lee Mantle a sent was laid on the table—31 to 25—so Mantle cannot get into the senate. The Voorhees' bank bill was again taken up on an amend-ment by Cockrell allowing citizens to deposit bonds with the treasury and obtain greenbacks for them, with the privilege of regaining the bonds by paying back the greenbacks, interest on the bonds to cease meanwhile. No action, and the senate ad
