To-day the democratic party, or what is left of it in Webster county, will hold a convention at Blue Hill and proceeded to put up a ticket this fall. Cola. Benard McNeny and T. J. Ward, and a number of our other leading democrats will be present from Red Cloud and we presume the boys will see to it that a first-class ticket is put into the field.
The little cold snap of the last few days reminds a fellow that winter is close at hand, and that the all absorbing theme will be "Johnny heap some more coal on the fire," and as it vanishes into thin air you can imagine the smile on the coal dealers' phiz, as his mind wanders back to his money drawer while he ponders noisily over the harvest that is coming. He seems to scent it afar.

Railroad Rumbings.

Trainmaster Kenyon was in the city this week.
Jim Swearingen has moved into the Sterner property at the foot of the hill.
Sam Fox is again home and every one wants to know "where he got that hat."
H. N. Starkey has moved into the property lately vacated by John Mahoney.
Tim Foley is now running a passenger train out of McCook and Frank Quigley has taken his place, running one week to Hastings and the next to Oxford. Conductors Cromwell and Green ran the Oberlin passengers.
About ten families have moved back to Red Cloud during the last few weeks. This has been occasioned by the B. & M. folks making a change in running their trains recently, by which crews lay over here. Soon there will be more as the boys say that the color of the card looks like a stayer.
Frank Martin has resigned his position as yard master in the B. & M. yards to take a position with the U. P. railway at Grand Island, with a raise of salary. H. N. Starkey takes Mr. Martin's place. The new yard man will be Starkey, Rank and Sterner. The C. M. is sorry to lose Frank from Red Cloud but congratulates him on his better job. Mr. Martin has worked for the B. & M. eight years and has never been laid off a day in that time.
A NOCTURNAL VISIT—A few fun loving young people chartered the band wagon Monday night, and under the lucid glare of the silvery moon, drove to Dan Norris' south of the river, for a nocturnal ramble in tranquil rusticity, and assist in the consumption of some delicious watermelons which "Jack frost" had failed to destroy. Having arrived at Mr. Norris' they aroused that worthy family from their peaceful repose, by their obstreperous hilarity and proceeded to investigate the welcome patch. After a pleasant social visit, and the rendition of some choice musical selections, the young people flushed the few hours of innocent amusement, returned to their respective homes in Red Cloud, unanimously voting the occasion a pleasant one, and the family they visited royal entertainers.
Too LONG—Thos. Long seems to have had too long fingers to suit Uncle Sam. It seems that Long had been working for Uncle Tommy Leigh for the last few days, and without warrant of authority, came to the city and called for Mr. Leigh's mail, opened the same and sifted the contents, for what purpose we do not know, except he expected to get money. He was discovered this week in the act, and Sheriff Tomlinson was detailed to lay for him. He did so, and catching him in the act, arrested him. He was taken before Judge Duffy and bound over in the sum of \$2,000, and on failure to give bond, was remanded to jail to await the arrival of a U. S. officer, who will take him to Omaha for trial.
SUCCESSFUL EFFORTS—A. F. Hartwell, manager and proprietor of the Inavale cheese factory, is still enjoying the confidence of the people, and the liberal patronage, that has always characterized that institution since Mr. Hartwell's assumption of its management. In a private letter from S. C. Bassett, secretary and treasurer, of the Nebraska Dairymen's Association, he said: Your exhibit took grand sweepstakes for the best cheese. Please enclose your score card. An extract from another letter from Omaha to Mr. Hartwell says: Your cheese at the Omaha fair and races, took first premium and received the first compliments of the fair and visitors. This means simply that in spite of competing with New York and other states, Mr. Hartwell secured the first premium, and shows Webster county to lead Nebraska and other states in the manufacture of first class cheese.
DECAMPED—John Clark ran a restaurant in Red Cloud, and when the financial trouble developed in the country, John's troubles came to the surface. He was in debt and could not pay, so Constable Winfrey politely asked him to let him drive his horse and buggy over to the livery stable, where in due course of time, it would go to satisfy a debt that Clark owed Charley Calmes. The buggy and horse was taken into custody, but sometime during the night, Clark got into the stable and took the animal and buggy out without permission and immediately had important business in our sister state of Kansas where he is now hiding from a warrant for his arrest for horse-stealing. The property was in the hands of the court, and if Clark is apprehended, he will have to explain his conduct in mitigation of the crime of stealing his own horse and buggy.

A HEAD-END COLLISION:—On last Friday night the street car and cab came near having a collision that might have been more serious. It seems that the cab tried to cross the track ahead of the car, but before it could get across the car had got so close upon it that the driver could not stop it and it ran into the cab. The car was thrown from the track and the cab twisted around pretty swiftly. It was no ones fault as the cab man thought he had time enough to cross. It was only an error of judgment.

HORSETHIEF TAKEN IN:—S. Harding, who is charged with so forgetting himself as to walk away with another man's halter, with a gray gelding attached to it, has been apprehended and now languishes behind the bars in the county jail. It seems that Harding belonged to an organized band of thieves, and a few nights ago, he stole John E. Jones' horse of Guide Rock, and run it off to Adams county, where he turned it into a man's field, taking a better one, and then came back to Guide Rock where he stayed for a few days, but finally got to piffing and was arrested at Superior, and will now pay the forfeit of learning a trade besides stealing horses.

After-to-day the political war will have commenced in reality. There will then be three tickets in the field, viz: Republican, Democratic and Independents, but we have much to be thankful for that it will be of short duration; there being but a little over four weeks in which to make or break great political parties.

All the late novelties in hats and caps for men, boys and children are now on sale at the Golden Eagle Clothing Store.

MRS. BAILEY DEAD:—Mrs. Sada J. Bailey, of Red Cloud, and well known here or the sister of R. B., J. D. and M. C. Fulton died on Saturday morning at Riverton, after an illness of about two weeks. The body was buried in the Red Cloud cemetery on Monday. Mrs. Bailey came to Red Cloud some several years ago and has resided here ever since. During the years she lived in Red Cloud she made many friends who will be sorry to hear of her death. She had been ill for several weeks preceding her demise, but was thought to be improving until about two weeks ago, when she was taken worse and never recovered.

Pleasant Prairie.
We notice that THE CHIEF's correspondents wrote him quite largely last week.

Our Sunday-school has had a good attendance up to last Sunday. They must have forgotten it was Sunday.
We learn the north-west section 2-2-12 has been sold to a gentleman from the east.

John Copley and men, who have been improving roads in this section, have now finished their work.

Some farmers think corn will soon be ready to husk. We prefer to let it dry a little longer.
Harvey Bros. are making up cane. They are the only two firms that make it up.

We understand that Prof. Cramer is to be around the last of the week with a new exhibition.

We are having a beautiful rain. Nebraska is not forgotten.

Mr. Rife is threshing his flax this week. There is lots of winter wheat going in now.

The rain has cheered people up.
Orin Tabor is putting up a windmill. Other improvements are likely to follow.
The writer has come to the conclusion that Nebraska is the best country to live in, for everybody has more that he can do.
