Every two weeks THE CHIEF will publish Dr. Talmage's sermon, just as it is preached in Brooklyn the previous Sunday. He is the acknowledged pulpit orator of the world, and his sermons are the most popular furnished by the press. As the passenger train, No. 64, came down the road Monday morning, they crashed into a team which was crossing the track west of Naponee, smashing the wagon and killing the man, its sole occupant. The team was also killed. F. B. Leonard, who formerly resided in this community, but who is now engaged in successful business in Courtland, Kansas, was here this week shaking hands with old friends. While here Frank played the violin at the Firemen's ball, and had a good time generally. Mrs. Sapp, who keeps the 4th avenue boarding house, is now doing an excellent business, having a great many regular boarders, and is enjoying a lucrative transient patronage. Besides setting a first-class table, she is a very obliging hostess, and is rapidly building up an excellent trade. Election is now over and THE CHIEF drops into line and proposes to turn its undivided attention to making the Great Family Weekly the best local paper in the state of Nebraska. We shall keep making it better and better each week. It gives more and will continue to give more news than any other county paper for \$1.00 a year. All who subscribe now will receive the paper for 14 months for \$1.00

Jake Kindscher, came in this week and renewed for the Great Family Weekly. Jake just recently returned from the world's party where as he remarked he saw a "heep". The road at the narrows west of Red Cloud should be cut down so that people could have a clear view of the track there before some one is killed by the car. It is a bad place. During the last seven days three old people have driven on the B & M right of way and have been run down by approaching trains. It seems that old people as well as others need to exercise more care in driving on to railroads when trains are approaching. Depute Sheriff Tomlinson reports an attempted jail delivery this week, where by some parties tried to free John Clark who was in for horsestealing. The attempt was frustrated. However whoever they were would have received a warm reception, for Mrs. Tomlinson, had heard and had a revolver in waiting for their coming, but just then Mr. T. arrived and the would be jail breakers fled. **Our Shoe Stock** Is more complete than ever. McCall and Henry Diederich were managers and proprietors, and presided in their usual pleasant and gentlemanly manner. Don't forget that Chas. A CONTRAST.—There is a remarkable contrast in the primitive and modern style of religious worship. Not so very many years ago, we are told that in city and country the worshiper and spectator wended their way to the sanctuary, and upon entering, the male portion would casually toss their hats into a corner, and with an air of death-like solemnity, watch the minister from the beginning to the close of his discourse. After the minister, in whom they had implicit confidence, had dispensed with the sacred rites, a general hand-shaking was indulged in, and the preacher was strolled with profuse compliments, felicitating him on his eloquence, wisdom, etc.; then all repaired to their respective homes. For fear some punctilious person might take offense, we will not present the contrast as vividly as might be, but no one doubts that the religious services are conducted differently now. When you go to church now-a-days, you are met by affable ushers, decorated with ribbons indicating their relation to the position they are so gallantly serving, and you are escorted to a comfortable seat; then most probably, the choir does the singing, while the girls in the most fashionable dress "guy" the ladies coming in who are less fortunate in their possession of wearing apparel. We regret to say that there is a decided lack of reverence, and the majority of the young folks seem to forget that the house of God is not the place for social enjoyment. The minister now-a-days is most probably an educated theologian, and his sermons are altogether different from those of primitive times. That the number of church members is rapidly increasing there can be no doubt. **FIX THE WALKS.**—There is just one decidedly obnoxious feature to the city of Red Cloud, and that is its detestable sidewalks. Did you ever see a man coming up the street and suddenly stop, grab his shin with both hands, and utter most forcibly, in deep guttural tones, something he never learned at Sunday-school? Again, did you ever visit a city where the sidewalks were rotten, full of holes, and you were constantly stepping through or stumbling on the upturned boards? No doubt you have, and your impression of that whole city or town was formed principally from its bad sidewalks. Hence, when strangers leave this place they do not hesitate to say that Red Cloud is the "darndest" hole on earth, for they haven't a decent sidewalk in town. We would suggest that some steps be taken to repair the walks, or else they be removed entirely, and the busy pedestrian be given the advantage of sound terra firma. Quite a good story is told of two of our young men on Hallowe'en. They had started out to do their share of devilment, and their first break was to move a heavy sign trunk in front of one of our merchant's stores, and carry it up the street a few blocks. It was very heavy, and when they had got quite a distance, they heard some shots fired and saw a night-watch running toward them. Both stood panting for breath, and paralyzed with fright, when the watchman said, in a stentorian voice, "Come with me, boys!" Both looked serious, and one of them very pointedly asked, "Can't we take it back to the store?" To this the good-hearted policeman assented, and the boys returned the heavy sign to its proper place where it remained unmolested through the night. **ENTERPRISING BAKER.**—C. M. Calmes, our popular and reliable baker and restauranter, is rapidly increasing his business, and at the same time acquiring an enviable reputation as an obliging and pleasant business man. His restaurant is open at nearly all hours, and the hungry may find, at a nominal price, the most substantial victuals seasonably prepared at all times, and served in a most satisfactory manner. Charley's complainant treatment of his customers, together with his palatable food, from a ham sandwich to a frosted chocolate cake, have already won him the best patronage from the people, and the chances for an increase are very flattering indeed. Mr. W. M. Terry, who has been in the drug business at Elkon, Ky., for the past twelve years, says: "Chamberlain's Cough Remedy gives better satisfaction than any other cough medicine I have ever sold." There is good reason for this. No other will cure a cold so quickly; no other is so certain a preventive and cure for croup; no other affords so much relief in cases of whooping cough. For sale by Deyo & Grice. On Wednesday morning, Mrs. John Clark of the west Denison street restaurant quietly departed to join her husband who was taken to Red Cloud by a deputy sheriff last week. She left a number of creditors behind her in the lurch in various sums. The restaurant chattels remain, and may mollify her creditors in a measure.—McCook Tribune. Miss Alice Downs daughter of O. R. Downs formerly of this place but now of Oregon, sent to this office by her cousin, Mrs. Fogle who had been visiting her, an enormous pear of the second growth, measuring about twelve inches in circumference at the largest place, and about five and one half inches in length. It is certainly the largest specimen of that fruit we have ever seen.
