Mrs. A. Arneson came in this week and paid for the Great Family Weekly. H. M. Bonecutter and sisters of Lebanon, Kansas, were in the city Wednesday. We omitted to mention the arrival home of Mrs. M. R. Bentley last week. The Presbyterian church is being torn down preparatory to its removal to Campbell. We must have money and those who are in arrears for more than a year must come in and settle. At the Painless Dental offices opera house block Red Cloud, you can get all kinds of dental work. If so, by your wedding suit of the Golden Eagle and draw the New Home sewing machine or the clock. It will be a good starter for you. The new safe for the People's bank has arrived and it is a beauty. It was one of the prize safes that was on exhibition at the world's fair. A few Thanksgiving turkeys will be taken at this office on subscription. Don't all speak at once, as our coop will only hold 99 according to government survey. Water Commissioner Ward cleaned the stand-pipe out on Tuesday. It was full of mud up to the man-hole, which goes to show the previous condition of the city water. A light snow on last Saturday made a fellow feel wintery, but only a little while afterwards the sun appeared and everyone became as happy as if they had always resided in Italy. The new Catholic church which is soon to be erected will be one of the most substantial improvements and an ornament to the city. Red Cloud ought to have nice church buildings. The Thanksgiving supper to be given by the ladies of the Christian church will be held in the Knights of Pythias hall. They will serve Turkey for dinner, and Chicken-die and oysters for supper. Harding, the chicken "swiper," has been transported to Lincoln where he will serve the state for a few years. If he had stolen three hundred thousand dollars he would have escaped the pen, which, in his case is mightier than the sword. Vic Fulton has resigned the position of city clerk which he was elected to last April. Owing to other duties that demanded his attention he was unable to attend to it. The city council appointed T. J. Ward to fill the vacancy last Wednesday night. Jeff Ward said he found several "Pops" in the stand-pipe when he cleaned it out on Tuesday. He says he can only account for their being there from the fact that they supposed it was Salt river. Capt. Houchin was saved and the country is all right. Do not forget that you can only get Foster's weather forecasts in THE CHIEF. No other paper can publish them in this section, as THE CHIEF has the exclusive right. They are worth four times the subscription of the paper to anyone who desires to keep posted on the weather. The city of Red Cloud has completed prospecting for water, and we have been informed, they have been duly rewarded with an abundant supply of pure, unadulterated aqua pura, at a depth of 10 feet. This will be good news to our people who have been compelled to drink mud for a year or two. On the night of November 24, the Epworth League of the M. E. church, will give a sociable at the residence of Mrs. A. H. Brown. An elegant supper will be served, and all those partaking of the same will be entitled to hear one selection on a phonograph free. The phonograph has a repertoire of sixty selections. Young Bill Parkes went up to Inavale the other day, and some fellow refused to feed him because he thought he was a tramp. The trouble was he got up too early and forgot to put on his other clothes when going to the city, and Emory Allen swears that the fellow at Inavale should have known better for he was along to take care of him. Frank Mentgen has sold his interest in the Chicago Photo Co. of this place, to John Wegmann of Blue Hill, who will continue its operation in the same building. Mr. Mentgen will join his brother Frank at Blue Hill, and for a short time at least be engaged in the photograph business at that place. Will has made many friends here who regret his going and wish him success.

Dr. Chamberlain has arranged to visit Bladen once a week, where he has secured a lucrative patronage. In his absence Dr. J. W. Butt has charge of the office here. The phenomenal growth of THE CHIEF during '93 has simply been wonderful. We have more than doubled our subscription in that time, and we have over a month and a half to go on, in which time we expect to get at least two hundred more subscribers. In making up your list for '94 it would not be complete without adding THE CHIEF, because you must have the best county paper as well as the best metropolitan paper, and you cannot get the best county paper without you take THE CHIEF. Meetings at the Congregational church are still being held, and quite an interest is shown in the work. Rev. Smeade, the evangelist who has been conducting the services, preached his farewell sermon on Tuesday night and returned to his home in Chicago. He made a favorable impression here, and while not eminently successful, has no doubt done much good in this community. The local Pastor, Rev. Ely will continue the meetings indefinitely, and being well known to be an earnest and devout Christian, very efficient in evangelic work, there will no doubt be a profitable augmentation to the church's are the close of the meetings.

A STORY OF 838—In these days of great financial distress, when great men differ materially as to the best method of relieving the present stringency in the money market, and while others discuss pro and con the much mooted question of the intrinsic value of the two precious metals—gold and silver, and while the poor man strives to earn enough to keep the gaunt wolf from the door, isn't it wonderful how careless some people get over their hard earned wealth? This story is about a Red Cloud lady whose husband is a hard worker, and by days' work succeeds, by close application to business and strict economy, to save a good portion of what he earns, with the assistance of his good wife. Well, to cut a long story short, the h. w. went over to Kansas a few weeks ago, and did a job of work from which he gleaned \$40, 838 of this he brought home and deposited with his wife as all good husbands ought to do, and thereby hangs a tale. The good wife took the money and carefully hid it away in a piece of new carpet that she had recently had made for the purpose of selling. Here the precious stuff remained, and in fact, its whereabouts had even been forgotten by the wife, having had no occasion to use it. By and by she found sale for the carpet and carefully did her husband, unsuspecting of its valuable contents, carry it down to Frank Taylor's furniture store, where he delivered it according to bargain. The next day was Sunday, and the good lady had also been in the habit of keeping her gloves in the same place. When she was ready for church she went after her gloves, and for the first time since she deposited the money did she think of it, and with a troubled look, confided her loss to her husband, who, on Monday morning, made a forced march to Taylor's store, and at once commenced a post mortem examination of the roll of carpet, where he found the 838 safe and sound, and, fortunately for him, Mr. Taylor had not sold the carpet. Hereafter, the money will be kept in a different place, where even moths, thieves, rust, or a possibility of the depository being sold, can assail the precious stuff and destroy the peace of mind of the owner of the hard-earned wealth. A CUTE BOY—The other day "which was Sunday," as Petroleum V. Nasby would say, the good children and a number of older ones, gathered together in a certain meeting house in the south end of the city for the purpose of holding Sabbath school. Everything passed off quietly, as all Sunday schools ought to, until one of the teachers, or we believe, a certain minister, thought of some question that would be easy for the average youth to answer, and propounded it. He said "Does any scholar here know what is meant in the passage of scripture where it says: 'Christ was made poor that we might be made rich?' One little bright eyed fellow raised his hand as an indication that he knew. Well, what is it? asked the divine. Johnnie, hemmed and hawed a little and finally stammered out that the reason he was poor, he guessed was "because he didn't get enough to eat." The preacher had gotten a new explanation that was not quoted in the new version, and Johnnie was allowed to occupy his seat without being further questioned on the subject. WHAT'S THE MATTER WITH US?—Some days since while perusing a Missouri paper, we saw a frivolous article regarding towns of this section of Nebraska, as of very little importance, and attempting to extol the old fifty years behind country of Missouri in which that paper was published. They spoke of our agricultural districts as worthless, and referred to grasshoppers, hot winds, etc, which are well known to be adversities of the past tense. Will it be blowing to present middlesome of the valuable resources of this country? What is the matter with this part of the country, including Webster county? Verily it is one of the finest on earth, and it is on the increase and not the decline. See the vast lands under cultivation, and the thousands of acres yet untilled. Note the growing orchards, the beautiful meadows, the spacious pastures and the great herds of stock. Notice the sparkling brooks, the clear pure water, the salubrious and health-giving climate. Think of the invigorating air, the truthful, law-abiding citizens, the flourishing public schools, the prosperous churches, and the edifying society we enjoy. Oh! no old Missouri with your and rain, your stones and stumps, your moss-backs and haze brush, your illiterate back-woodsmen ignorant pedagogues and idiotic democrats; you are not our superior, and never can be. "AIN'T THAT FUNNY?"—During the ten years of our ownership of the Great Family Weekly, we have been called upon to do a great many things that "seemeth queer" to the untutored mind of those who have not had a chance to discover the inner working of a great journal. For instance, pumpkins, potatoes, squashes, beans, old scrap iron, hatching posts, election bets, old clothes, dried apples, and a hundred and one other things have been offered in lieu of the valuable information that is weekly contained in the great disseminator of truth and wisdom, but the straw that broke the camel's back was offered Tuesday when a gentleman of the city came "toting" a two-weeks' old calf down the stairs into the presence of the Big Injun and his mighty braves, and asked to have it credited on his paper. The book-keeper faints, the reporter quickly vaulted into the vault, the devil jumped for the shooting-stick, while the calf played the d—l with the compositors, and the editor came in just as the boys were having a "bully" time getting that calf out of the front door.
