

SOLONS AT WORK AGAIN

THE FIFTY-THIRD CONGRESS NOW IN SESSION.

Synopsis of the Proceedings in the Senate and House of Representatives—Plenty of Business to Occupy the Attention of the National Lawmakers.

WASHINGTON, Dec. 5.—Little was done on the first day of the regular session of congress except to listen to the reading of the president's message, which was heard attentively in both houses. There were fifty-six senators present when the roll was called. After the message had been read numerous petitions were presented, and many bills introduced. Resolutions were adopted deploring the deaths of Representatives O'Neill and Lilley, of Pennsylvania, and as an additional mark of respect the senate adjourned.

The house loudly applauded the message. A resolution was passed appropriating \$50,000 to pay the salaries of officials engaged in enforcing the Chinese exclusion act. A resolution was offered for an investigation of the Lehigh railway strike. Eulogies were then spoken in memory of Representatives O'Neill and Lilley, and the house adjourned. O'Neill was "Father of the House," and his death gives Bland that title.

WASHINGTON, Dec. 6.—There were but twenty-five senators present when it was called to order for the second session. A communication was received from Governor Altgeld, of Illinois, inviting the senate to be present today at the unveiling of the Shields monument in Statuary hall. Hoar offered a resolution asking for the papers in the Hawaiian matter, but it went over. Dolph made a speech on the subject criticizing the action of the administration. The joint resolution from the house appropriating \$50,000 to pay the officials who execute the Chinese law was adopted.

The house accepted an invitation to attend the unveiling of the Shields' statue and ordered 20,000 copies printed of the president's message. A bill was passed extending the time of payment by settlers on forfeited railway lands. The rest of the session was consumed in debate on the bankruptcy bill.

WASHINGTON, Dec. 7.—The senate spent most of the session discussing Hoar's resolution asking for the papers in the Hawaiian matter. The resolution was adopted, Hill, Sherman, and others advocating it and there being little opposition. Mills and Vilas were the chief opponents. An executive session was held.

In the house Governor offered a resolution asking why 3,000 Ohio pensioners were suspended; referred. A few bills and resolutions of no general interest were passed and the house adjourned to take part in the unveiling of Shields statue.

WASHINGTON, Dec. 8.—In the senate Hill announced that on Monday he would move to take up the election law repeal bill, and Hoar gave notice that he would move to refer it to the elections committee. When asked why there was no written report with the bill Hill said the reasons for its passage were self-evident, and Republicans smiled. Morrill announced that on Monday he would speak on the tariff. Several bills and resolutions of no particular interest were passed. The \$100 a month pension of the widow of General Corse went through, and after an executive session the senate adjourned to Monday.

The house passed a resolution authorizing additional clerical force for the house and spent the remainder of the day debating the bankruptcy bill.

WASHINGTON, Dec. 9.—The Torrey bankruptcy bill was strangled unexpectedly by the house just as the considering of the bill under the five-minute rule was about to begin. Colonel Oates, the champion of the measure, had declined to permit the house to vote on a substitute providing simply for a voluntary system of bankruptcy, whereupon Bland precipitated the entire question by moving to strike out the enacting clause of the bill. Vainly the advocates of the measure protested that it was unfair to reject the bill before the house had a chance to perfect it by amendment. The pleadings were unavailing. The vote was decisive. It was carried by a majority of 142 to 111. Judge Torrey, of St. Louis, the author of the measure, who has been here for ten years promoting the interests of the bill, sat disconsolately in the gallery.

SHIELDS' STATUE UNVEILED.

Speeches by Springer, Black and Others—Banquet at Night.

WASHINGTON, Dec. 7.—The exercises at the unveiling of the statue to General Shields were attended by nearly the whole house and many senators. Speeches were made by Springer, General Black, Governor Altgeld and others, all highly eulogistic of General Shields as a statesman, soldier and patriot. At the conclusion of the speeches, Miss Katherine J. Shields, the daughter of the general, drew aside the white drapery that veiled the statue and in heroic bronze the form and figure of the general stood revealed. The principal oration of the day was delivered by Governor Altgeld. Representative Tarsney, of Missouri, followed with an eloquent speech which evoked great enthusiasm and applause. Senator Turpie, of Indiana, closed the exercises.

Last night a banquet was given at the National hotel to the prominent men who had taken part in the exercises, at which Representative Mansur acted as toastmaster. The toasts were eight in number. The first was "The State of Illinois," responded to by Governor Altgeld. The other seven were to General Shields—his career in Illinois; Senator Palmer; as senator from Minnesota; as senator from Missouri; Senator Vest; as an Irish-American; Patrick Donohue; General Shields' sword; Colonel Mansur; in the Mexican war; Colonel W. P. Wood; and in the civil war; Captain Haycock.

George Gould and Zella Nicolaus. NEW YORK, Dec. 7.—George Gould says of the suit of Zella Nicolaus against him for \$40,000 that he never gave her a check for any amount; that she came to his office a year ago and asked him to get to Chicago; that he gave her money, but she did not go and kept calling on him until he refused to see her.

The Strike is Nearly Over. PHILADELPHIA, Dec. 8.—The only place on the Lehigh Valley road where there is trouble is at Scranton, where the men have demanded that all the men be taken back or none. Matters have changed at Mauch Chunk and elsewhere and the men are getting back as fast as they can.

RULED OUT MR. SIMONS.

Judge Tutbill Will Not Allow His Name in the Coughlin Case.

CHICAGO, Dec. 8.—Whatever there may be in the story that McLaughlin, Mrs. Foy's brother, was the mysterious Simons who bought the Carlson cottage furniture, he is not in the case any more as it stands now. During his opening speech to the jury Scanlan, for the prosecution, brought in the name and the defense objected, on the ground that Simons' guilt is not in question in the case. Judge Tutbill ruled it out as improper and told the jury to take no notice of what had been said.

The springing of this sensation has caused comment. One phase thereof is that McLaughlin being Mrs. Foy's brother if he were brought in Mrs. Foy would be embarrassed in telling her story to the jury as she would hardly like to criminate her own brother. However, it is now said that McLaughlin is in Ireland, where he went immediately after the killing of Cronin, as alleged because he could have given incriminating testimony against Foy, not because he was a participant in the crime. Taking of testimony has not yet begun.

Judge Tutbill also ruled that the defense must not refer to the supreme court decision that gave Coughlin a new trial. This was a heavy blow to the defense.

Four jurors have been obtained in the Prendergast trial. The prisoner caused a small sensation in court by demanding that the counsel cease referring to him as "Prendergast." He wanted to be called "Mr." Prendergast.

Mrs. Foy Gives It Away.

CHICAGO, Dec. 11.—The Herald has a nine-column nonpareil story purporting to give what Mrs. Foy knows about the Cronin murder. She says she heard the whole plot and later her husband made a confession of the murder to her implicating all who have been suspected and others whom she would not name.

A MILLION FOR CHICAGO POOR.

Suffering Becomes So Widespread That Heroic Measures Are Needed.

CHICAGO, Dec. 11.—For charity's sake several meetings of benevolent organizations were held in the city Saturday. So widespread and appalling has the present suffering become among the unfortunate but worthy poor that the charitable and public-spirited people of Chicago have at last been fully aroused to the urgent need of helping the poverty-stricken at once. This awakened interest in the existing calamity is not confined to men. The meetings showed clearly that the women, too, sympathize deeply with their sisters in distress and will work with a will to give the hungry bread and the homeless a place to lay their heads.

The Illinois Conference of Charities and Corrections held a special meeting and decided to raise \$1,000,000 for immediate use among the poor. The Civic Federation met for the first time at the Palmer house and organized for business. The purposes of this body embrace all the reforms that will improve the government of the city. But the men and women who were at the meeting decided that the present crisis demanded that all their efforts be directed first toward relieving the sufferings of the wretched unfortunate who now are ill and suffering. This great army of the unemployed numbers nearly 117,000.

Kansas Alliance in a Squabble.

TOPEKA, Dec. 7.—The session here of the Farmers' Alliance and Industrial Union was a secret one. It is learned, however, that forty delegates were present, and that a lively fight is on. One faction wants to keep the alliance aloof from politics; the other faction, which is the stronger and headed by S. H. Scott, state alliance lecturer, wants an alliance league formed to eliminate Populist literature to every district and hamlet.
