THE EDITOR'S SAY.

MR. CARLISLE'S bonds are more than likely to get him into trouble. The American people do not fancy having the nation add \$200,000,000 indebtedness to its already large war debt. If issued it will be the death knell of Grover et al.

THE CHIEF has no desire to enter into a controversy just as to who should be nominated for city offices, but we do feel like saying that the very best financiers in the city should be selected for those places. Put men who are admirably qualified for it, men who have handled their own business with success, and the people will say amen. The city owes about \$40000 now, and the work of paying it off is no child's play.

If our republican friends were really looking for a first-class man to succeed Attorney-General Hastings, let them go to Red Cloud and take Judge McNeny, whiskers and all—Adams County Democrat.

THE CHIEF could say amen to the above article with great pleasure, and if we mistake not, Mr McNeny will make his mark before many years either in the state or as congressman.
