Anderson Hedge has purchased the Jake Miller farm just north of the city, paying therefor \$2500. Joe Cummings says he can smoke plug tobacco all right, but he does not like to have powder mixed with it. Newhouse returned last Tuesday from Columbus, Mo., where he is engaged in the jeweler business. Mr. Nelson, the handsome traveling man of C. E. DeWitt & Co. of Chicago, was a pleasant caller this week. Go and see J. B. Wright for all kinds of bargains in new and second hand goods. Just north of Moon block. He got ten days. Hiram C. Tuttle of Red Cloud has lately received a large pension, procured through the skillful prosecution of J. Porter, Jr., of this city, thus bringing joy to the recipient and extending the circulating medium in our midst.

Why should not the people of Red Cloud take up the proposition of a canal. We could build a canal that would have twice the fall of the Kearney canal with half the expense. We ought to get up some kind of an excitement in Red Cloud. The ladies of the Christian church of Cowles gave a very fine entertainment at that place on the 15th. It is said to have been one of the best and most select entertainments ever given in that place, and they have repeatedly been asked to repeat it. Ex-County Clerk H. D. Ranney left Tuesday morning for New Jersey, where he goes to see his son, and, perhaps, will locate there. Mr. Ranney has made many warm friends in this city, since moving here some four years ago, who hope that he will decide to remain in Red Cloud.

This should be done in justice to the managers of the eating house. Yes, said J. H. Smith, the insurance man, "My wife and I had a few words and she left; but," he added with an elucidating smile, "she is only visiting friends in Norton, Kan., and will be home in a few days."

FOR TEN DAYS.—On last Tuesday, Diederich & Cook's boot and shoe store was the scene of considerable excitement. On said day a gentleman came walking into the store, and wanted to get a pair of socks to try on a pair of shoes, but found he couldn't get them, so, finally, he said he would go out and get a pair. In the meanwhile, he had been leaning against the counter on the south side and swiped a pair of shoes—I don't mean he blacked or cleaned them, but just neatly swiped them—but Henry Diederich, noticing how his coat bulged out, started and followed him, catching him in front of Fentress & Zeff's barber shop and bringing him back to the store, where a little scuffle ensued, the fellow evidently not liking the scene of his crime. He then dropped the shoes and ran off, cutting across the bottom in the direction of Gov. Garber's. Henry immediately put on his hat and started in hot pursuit. He overtook him in the swamp, but the fellow concluded not to go peacefully back and here another struggle took place, but when Charley Winfrey, who had appeared on the scene by this time, gave him the privilege of having his brains beaten out or going quietly, he decided that discretion was the better part of valor and subsided. The next day when arraigned before the judge, upon making a most piteous appeal to his honor, he was only given ten days with bread and water as a diet. Surely, the way of the transgressor is hard.

A pair of shoes that were not bought, but taken just in fun; Two soles without a single thought, The taker had but one.

A MYSTERIOUS VISITOR.—One week ago last Wednesday night, between 11 and 12 o'clock, a guest of the B. & M. eating house, who chanced to be in the office of the building at the time, heard peculiar sounds resembling faint groans, emanating ostensibly from some human being who was evidently in deep distress and undergoing much physical torture. Said guest immediately opened the door, whereupon he discovered an old gentleman perhaps 65 years of age lying on the door step, completely overcome by exhaustion. He was brought inside the house and every effort put forth by kind hands to restore him to consciousness and comfort. He was very obstinate, and in response to the requests to summon medical attendance, he stoutly remonstrated, saying he would soon be well again. His feet were badly frozen, and some other portions of his body suffered slight frost bites, while his awful frame shook violently with the awful chill from his long exposure. Our reporter called at the B. & M. next morning and was shown to the room of the stricken man, and found his name to be Col. J. H. Howell, and that from his say-so, his career had been a very varied one indeed. He said he had at one time been virtually editor-in-chief of the Omaha Bee, and had owned and operated some very large papers. He explained that he had come down from Lincoln to Blue Hill Wednesday, and from there made a drive to or near Amboy. There, about dark, he told his liv- ertyman who had brought him thus far that he could easily walk into Red Cloud, and by so doing, not detain the driver. But it seems he became turned around and went east 7 or 8 miles instead of west. Finally arriving at a farm house he was apprised of his error, and turn-

ing, retraced his steps, going on past Amboy, following the railroad track to Red Cloud, where he arrived utterly exhausted as stated above. Col. Howell is a familiar name, and people here wonder at his mission in this vicinity, especially when, several days since, he disappeared as mysteriously as he came.

SOCIAL EVENT.—On Wednesday Miss Gertie Dickerson was 20 years old. In order to commemorate the event appropriately her husband very quietly invited a few friends in to help make the occasion a pleasant one, and at a proper time he and wife went over to his father's home, Mr. and Mrs. M. W. Dickerson and there the crowd had gathered as had, been arranged, and then it dawned on Mrs. Dickerson that it was her birthday. The evening was delightfully passed in the various amusements; and after enjoying an excellent lunch everyone, departed feeling that it was good for them that they had been invited to partake of Mr. and Mrs. Dickerson's hospitality. She was made the recipient of a handsome silver cake basket, silver berry spoon, a glass cake stand, fruit dish, etc., by her young friends.

REVIVAL.—For the last few nights Rev. A. P. Hull has been holding a series of revivals at the M. E. church. Owing to the extreme weather the attendance was not large, but quite an interest was manifested. On Wednesday evening, Rev. Mr. Powers, of University Place, Lincoln, a very noted evangelist, came to help him and held his first meeting on that evening. Mr. Powers was greeted with a large crowd, on both Wednesday and Thursday evening. He is a forcible and eloquent speaker, and a warm hearted christian gentleman, whose whole ambition is to save sinners. He has been a life long worker in the good cause, and to hear him once, is sure to make you want to hear him a second time. He is thoroughly in earnest and if he and Rev. Hull do not do a great deal of good in Red Cloud during the continuance of these meetings we shall miss our guess.

A NEW METHOD.—The adherents of the prohibition cause have adopted many new and peculiar tactics in their efforts to promote their cause in the different states, but the most noticeable of them all came on a letter to S. E. Cozad, mailed by his father-in-law to him, of recent date, and is as follows: "Judas Iscariot sold his Lord for 30 pieces of Silver, and to-day the Christians of this land who vote to license rum-selling for revenue are following his example." The gentleman is a Methodist clergyman, and we presume the balance of the clergy in New York state are operating in a similar manner. It is stamped in the left hand corner of the envelope, and the type is large enough so that it will be promptly noticed.

PLENTY OF IT.—Bro. Greenlee, of the Blue Hill Leader, in commenting on our creamery item of recent date says: "He (meaning the editor of this paper) must know that it is impossible to run a creamery successfully without cream, and that there is not enough cream to be had in the territory tributary to Red Cloud to keep the creamery going." THE CHIEF man has been in Red Cloud nearly eleven years, and the above statement of our editorial brother sounds like moonshine, from the fact that a former creamery run by Schrader and McShane of Omaha, and operated by J. H. Smith during the early portion of our residence here, flourished like a Green bay tree and had the cream of a thousand cows. Now, these cows were not on a thousand hills, but within a few miles of the city, say a radius of fifteen miles, and we have been reliably informed that it would be an easy matter to secure at least 500 cows. Of course, it would take an effort perhaps to get them, but no man's business succeeds without an effort is made on his part to build it up. Messrs. Parker & Fulton have designated their intention of running the business this season, and this paper hopes that every farmer near this city will see to it that they have plenty of cream, so that they will be enabled to run it with profit to themselves and patrons.
