A book agent came to Red Cloud the other day, trying to sell the "Dawn of the Millennium" or some other work, and palmed himself off as a minister, all of which he may have been, but as to his politeness we have the word of several ladies that he lacked a great deal of being up to the standard. Several of the ladies claimed that he used very insulting language, when they would not stop to talk to him. He should have been arrested for his insolence if such was the case.

BALKY.—Last Saturday night about dark two farmers who lived some distance from town went to hitch up their teams and go home. Both had on board a "placidious" jag, and one of them found upon preparing to go that he had worse than that balky horse. A balky horse and a balky driver are certainly a very bad pair, and the harder the driver tried to start, the more stubborn became the balky horse. The turnout would probably have stood in front of Frank Lindsey's meat market yet, had it not been for the heroic efforts of Benard McNeny and Joe Warner who superintended the fastening of the broken harness, while several farmers fixed them up. At last the balky horse started, but not forward, no—he insisted on going backwards. Benard then suggested to the owner of the stubborn brute that he be entirely turned around, he would make better time that way. Joe Warren heartily endorsed the idea, and standing in front of the horse was about to change the harness, when the horse gave a vicious lunge, this time forward and that was the last of Joe. No contortionist could impersonate exactly the motions he went through as he jumped out of the way of that horse. The crowd finally became so large and noisy that the poor horse through sheer fright forgot to balk, and led his mate away on the run followed by vociferous shouts and laughter by the throng of spectators.

EASTER SERVICES.—Despite the inclemency of the weather, the various churches of the city observed Easter with appropriate services. The day was clear and cold, and floral offerings seemed indeed much out of place; yet each church had its exercise, and all were thoroughly enjoyable. The Congregational church gave a song service, responsive readings and floral offerings. The singing was rendered by a large number of voices and was exceptionally good. An excellent talk of 15 minutes was delivered by the pastor, Rev. Ely. At the M. E. church, Sunday night, there was an excellent song service also a short address by Professor Castor, and Rev. A. P. Hull, which elicited unusual favorable comment. The Christian and Baptist churches held their usual services with some appropriate Easter ceremonies. The Knights Templars rendered some beautiful Easter services at the Masonic hall. Besides the other regular services was an address by Rev. Geo. Yeiser. All who attended spoke very highly of the services at the Masonic hall.
