

CAPTURED A TRAIN.

COMMONWEALERS ARE COMING EAST OVER THE MISSOURI PACIFIC.

Thirty Deputy Marshals in Pursuit—Industrials Traveling at the Rate of Fifty Miles an Hour—Kelly and General Weaver Quarrel—Coxey Convicted.

PUEBLO, May 9.—Tuesday evening an engine of the Denver and Rio Grande railroad was taking coal, the fireman being off the engine, it was suddenly surrounded by 15 of the men under General Sanders, who came in Saturday as a Coxey band. They took the engineer and ran the locomotive down to the Missouri Pacific yards where six coal cars had been left a short time before. The whole band boarded these cars and attaching the Rio Grande engine started for the east at a lively gait. Four miles off they met an engine which was coming in for the purpose of taking out a passenger train, as all rolling stock has been kept out of the town since the Cripple Creekers arrived. The engineer reversed and is keeping ahead of the industrials. The latter stopped their train at Boone and took coal and water. The engines passed Nepeshta going 50 miles an hour.

The superintendent has an engine and car overturned in a cut at Olney so that the runaways can get no further than that point and they may experience a collision. A train has started from Pueblo with deputy marshals and 30 officers to overtake the band. The seizure prevented the movement of mails.

Commonweal Leaders Convicted.
WASHINGTON, May 9.—The three leaders of the commonweal—Coxey, Browne and Christopher Columbus Jones—have been found guilty of violating the laws by a jury of their peers and will have to submit to a sentence hereafter imposed by the court for the recent demonstrations on the Capitol grounds. All three of the accused were convicted on the first count of the indictment which charged them with displaying a banner designed to bring into public notice the Coxey Good Roads association. Jones of Philadelphia was acquitted of the second count which accused the men of treading on the grass, but Coxey and Browne were convicted.

Coxeyites Spiking Rails.
SPRINGFIELD, Wash., May 8.—The Coxeyites have been for days interfering with the Northern Pacific road by spiking the rails on the heavy up grades and swarming on the cars in the yards. One of their number concealed himself on the trucks of a cattle train, and when it reached here set the air brakes, thus preventing the train from being rushed through. The Coxeyites boarded three cars, and the officials have ordered the stock unloaded, and declare they will not carry the industrials. The country is thronged with Coxeyites, and recruits are constantly arriving.

Another Phase of the Coxey Movement.
FERGUS FALLS, Minn., May 8.—A Coxey organizer, who was here with a wing of the army, in an interview said \$5,000 was subscribed in Butte to help take the army which he is organizing in the west to the east. He says other cities on the coast have raised large sums to send unemployed workmen east. They care nothing about the effect of the movement. The west, it is asserted, has been getting the dead beats and undesirable citizens of the east and is now shipping them back by the trainload.

Randall's Army Arrested.
LA PORTE, Ind., May 9.—General Randall and his officers are in jail here, having marched into the city contrary to orders of the authorities. Mayor Scott has promised the general that his army will be furnished supplies if they will move on, and it is probable they will comply. Meanwhile both armies are in camp awaiting the result of the trial. There is great excitement among citizens and commonwealers.

Kelly Ready for the Cruise.
DES MOINES, May 9.—General Kelly's boats are almost completed and the army has fixed upon 9 a. m. as the time for making the start from Des Moines. They have food enough for three days. Oskaloosa will send today 1,000 loaves of bread, and coffee and meat besides. The start will be a sort of gala procession, and the army is in better spirits than it has been for several days.

Work for Carter's Army.
SALT LAKE, May 7.—W. H. Remington, who returned from Pocatello, said he was authorized to state that Kilpatrick and Collins, the railroad contractors at Beatrice, Neb., will furnish employment for every member of Carter's army camped near here. The men who number over 400 will be paid \$1.50 per day.

GAVE BRECKINRIDGE AN OVATION.

The Kentucky Congressman Opens His Campaign for a Renomination.

LEXINGTON, Ky., May 7.—Lexington was crowded today with partisans of Colonel W. C. P. Breckinridge, who gathered from all over the Ashland district to give the opening of his canvass for renomination a great spectacular sendoff in his own home. The meeting was held at the opera house at 2 o'clock. Colonel Breckinridge's speech was mainly devoted to a review of his career in congress, beginning with the first election of Cleveland, and he pointed out that no man in the Democratic party has taken more advanced ground on the tariff question, or done more to unify the party on economic measures. He replied to the claims of his opponents that he is a flowery orator, but not a practical statesman, by reciting with great particularity his labors on committees and on the floor of congress. The conclusion of his speech was devoted to the scandal and the opposition to his nomination on moral grounds. He denounced and defied those who are assailing him, the newspapers, and says the future will vindicate his devoted friends and confound those who seek to destroy his usefulness. This personal address differed from other published utterances since the trial on one important feature. Responding to the charge of hypocrisy in taking a leading part in religious and moral movements while living a double life, he says he was all this time making atonement for a secret sin which he dared not confess and did everything in his power to keep others from following in his footsteps.

FAVOR INTERNATIONAL BIMETALLISM.

Fifty prominent Chicago bankers and financiers sign a Bimetallist Creed.

CHICAGO, May 7.—Chicago bankers, merchant princes and manufacturers, whose names are widely known, have come out for international bimetallism. Marshall Field, Lyman J. Gage, George M. Pullman and 50 others of wealth and importance in the financial world have signed a creed with bimetallism as its basis, and pledged themselves to promote its adoption as an international system. This is the outcome of a conference held a short time ago by several prominent financiers. At the conference the following statement of principles was prepared by a committee: "This committee is formed for the purpose of promoting the establishment of international bimetallism upon the general plan of the Latin union, but with a broader basis."

WORK OF WIND AND HAIL.

Saturday's Storm Was More Widespread Than at First Reported.
CHICAGO, May 8.—Dispatches received show that Saturday's storm was more widespread than at first reported. At Fairbury, Ill., great trees, fences and weak structures were levelled to the ground. Signs in the business part of the town were torn loose and hurled over the glass fronts. The front of A. R. Chapman's agriculture warehouse was entirely blown out and some of the stock injured. Great damage was done in the vicinity of Aurora, Ill. Maine Station, near Albi, Ia., was visited by a cyclone and heavy hail, which caused much damage. One woman was so badly injured that she died. Over a dozen houses were blown down and much damage done to fruit and small grain.

From Ladora, Ia., it is reported a waterspout and hailstorm occurred, entirely destroying early garden stuff and doing great damage to corn and wheat. At Brooklyn, the loss of glass in dwellings will amount to several thousand dollars. Several thousand people were painfully injured by the hail. Crops are badly damaged, and considerable stock killed.

WORK OF NATIONAL LAWMAKERS.

Senator Allen's Introduction Another Coxey Resolution.

WASHINGTON, May 2.—Representative Johnson (Dem., O.) created a sensation of short duration in the house shortly after it assembled by introducing a resolution calling for a congressional investigation of the beating of citizens by the police during the Coxey demonstration at the Capitol yesterday. He urged it as a question of privilege, declaring that the offense occurred on the Capitol grounds and purported to be in defense of members of congress.

Speaker Crisp ruled that the resolution did not present a question of personal privilege and ruled it out of order. Johnson asked unanimous consent to immediately consider the resolution, but there was a chorus of objections and the resolution was thus summarily killed.

WASHINGTON, May 3.—No business was transacted in the morning hour in the house. The regular order being demanded when it was sought to obtain consideration of a bill, the time of the house from 12:04 until 4 o'clock was taken up in the consideration of the river and harbor bill. Speeches were made by Messrs. Cannon (Ill.) Woodcock (Mich.) Ellis (Ky.) Hepburn (Ia.) and Ray (N. Y.)

WASHINGTON, May 3.—The Republicans started their program when the senate met today. Although it was evident a quorum was not present, no Republican made the point and the senate proceeded immediately with its preliminary routine business. The house bill authorizing the wearing of a distinctive army and navy badge on public occasions was passed on motion of Mr. Mitchell (Wis.). Mr. Hunton asked unanimous consent for the consideration of a bill to remit the penalties on the dynamite cruiser Vesuvius. Mr. Chandler objected.

On motion of Mr. Sherman the house bill to authorize the commissioner of the general land office to issue a patent for Mace Clement's survey 880 in the Virginia military district in Ohio was passed. At this point Mr. Morgan refused to allow morning business to proceed further. He moved in conformity with the special order that the senate go into executive session to consider the Chinese treaty.

The doors were reopened at 12, and on motion of Harris the tariff bill was taken up. Mr. Allison suggested that the pending amendment changing the date when the bill should go into effect from June 1 to June 30 should be passed over. Mr. Harris agreed to pass over the amendment in order to make progress.

Mr. Quay, who was entitled to the floor, yielded to Mr. Chandler.

WASHINGTON, May 4.—After some business of a routine nature had been disposed of Friday, the house went into committee of the whole for the purpose of considering the river and harbor bill.

WASHINGTON, May 6.—Notwithstanding the truce agreed upon between the Democratic and Republican senators, whereby it was arranged that hostilities on the tariff should cease until next Tuesday, there has not been a day where there was bolder talk and stronger protestations on the respective sides of the chamber than Friday. While the Republican senators have the Democrats to infer that when the amendments are publicly announced, and the assurance of a vote sufficient to pass the bill is given, they will yield to the majority, they assert privately that they know the necessary votes cannot be obtained.

The Democrats express the greatest confidence in the success of the bill.

WASHINGTON, May 5.—Owing to the fact that half of the session was to be held behind closed doors in the consideration of executive business, Mr. Harris decided to make no attempt to take up the tariff bill. Immediately after the reading of the journal the senate proceeded to the consideration of bills on the calendar. A bill for the relief of the citizens of Idaho, Oregon and Washington, who served with the United States troops in the war against the Nez Perces and the Bannock and Shoshone Indians, and the heirs of those killed in that service, was passed on motion of Mr. Shoup.

WASHINGTON, May 7.—The New York and New Jersey bridge bill passed in the house under suspension of the rules.

WASHINGTON, May 7.—The open session of the senate lasted but half an hour Monday and was devoid of all public interest save the introduction by Senator Allen (Neb.) who is defending Coxey and his lieutenants in the police court of a resolution for the appointment of a special committee of five senators to investigate the alleged clubbing by the Washington police of the leaders of the commonweal when the army tried to break into the Capitol grounds. The resolution went over. The senate spent six hours behind closed doors.

WASHINGTON, May 8.—The credentials of Mr. Gear, senator-elect from Iowa, were presented in the senate today by Senator Allison, but question as to the form of the paper being raised, they were laid upon the table.

Mr. Allen's resolution to investigate the alleged clubbing of Coxeyites in the Capitol grounds went over until tomorrow and the tariff bill was taken up. Mr. Hoar addressed the senate at length.

WASHINGTON, May 8.—Mr. Hatch (Mo.) from the committee on agriculture, reported his antipion bill to the house today. The bill making an appropriation for the purchase of a new site for the government printing office was considered in committee of the whole.
