MY QUEER OLD WIFE.

A queer old lady is the wife
I chose to travel with through life,
And that I long have seen,
so many little faults has she
I tell her of them constantly,
But it does no good, I ween.

Sometimes she's nice as nice can be And seems quite willing to agree That my way is quite right, And then again she will dissent, Which calleth forth an argument-She quite ignores my light.

She has the queerest notions—why, She thinks she knows as much as I And tells me so quite plain. Of course no one could fail to see That I am smarter far than she, But women are so vain!
—Minneapolis Housekeeper.

Molecules In Matter.

It seems a difficult undertaking to accept the theory that granite, glass and precious stones, not excepting diamonds, are composed of independent particles that are continually in exceedingly rapid motion. These active molecules are said to rotate and swing around a central point with such force and rapidity that they constitute, to all intents and purposes, a solid mass. Upon being divided they whirl around a new center as rapidly as before, the molecules passing a given point some millions of times in a second of time. This theory would at first glance seem incompatible with the well understood belief in the hardness and impenetrability of the diamond but this is easily explained. The almost incalculable rate of speed drives the atoms against the drill or cutting edge that seeks to penetrate it and dulls it without permitting it to make the slightest impression. On this theory it appears that glass cutting is merely the bringing together of two bodies consisting of molecules moving at different velocities. As a matter of course, the most powerful atoms break up the softer ones. and so this operation is merely a war of particles, in which the superior force is triumphant.-New York Ledger.

Sleepless and Voracious Larym.

Professor Lintner, New York's state entomologist, is of the opinion that the larvæ stage of many species of insects is one of sleepless activity, the grub feeding incessantly from the "moment of its birth." He says that it is doubtful if some species ever sleep or take a moment's rest. The voraciousness and rapid growth of these creatures may be better understood by making a statement of two facts: A certain flesh feeding larvæ -which simply means the infant state of a carrion beetle, whose scientific name would be of no particular interest to readers of The Republic-will consume in 24 hours 200 times his own weight, a parallel to which in the human race would be an infant consuming 1,500 pounds of nutriment on the first day of its existence! There are vegetable feeders - caterpillars - which, during their progress to maturity, in-crease in size 10,000 times during the first 80 days of their lives. To equal this remarkable growth a mature man would weigh scarcely less than 50 tons! -St. Louis Republic.

The Dutch System. Professor Peabody, who gives in The Forum some facts concerning the Dutch system, says there are no great poorhouses and few ablebodied paupers in Holland. There is a tract of public land containing 5,000 acres. It is divided into six model farms, and to one of these is sent the poor person applying for public relief. If he voluntarily serves till he learns agriculture, he is allowed to rems a small farm for himself and be what is called a free farmer. Every pauper who is thus reclaimed to honest, regular industry is so much gain to the state. There is also a forced labor colony, where beggars and vagrants are sent and made to do farm and other work, whether they want to

Virginia raises 5,000,000 bushels of peanuts and \$4,000,000 worth of fruit and vegetables. The iron product is 200,000 tons, and over \$2,000,000 of gold has been sent to the United States mint. This state has the largest lead mines in the south and the greatest manganese mines in the world.

Old Hurd church was built near Harrodsburg, Ky., in 1797, and it is said that weekly meetings have been held there ever since without a single exception. Harrodsburg is said to be the oldest town in that state.

Our County Teacher's Institute will commence July 9, and continue in session two weeks. A large attendance is anticipated. Good instructors have been engaged.

Some one in each district in which trees were planted by the children on Arbor Day should make it part of his business to care for the trees during vacation. Quite a large number of trees were planted on the school grounds of Cowles and Guide Rock this year. At both of these places, as in other districts, nearly all the trees planted on Arbor Day of other years have died for want of attention.

These trees need considerable attention to make them grow, as Arbor Day, the 22nd, of April, is a date some-

what late for the transplanting of trees in the southern part of the state.

Under the administration of A. K. Goudy, State Superintendent of Public Instruction, there has been a steady advance along educational lines in the state. He has been faithful and successful in his efforts to keep up and advance the standard of public school work, so that Nebraska stands with the foremost states of the Union (if not first among the states) educationally. A great deal can be done by a live school system of the state, to advance her educational interests.

Sheriff's Sale.

Notice is hereby given that under and by virtue of an order of sale issued from the office of C. B. Crone clerk of the district court of the lith justification and row ebster county, Nebraska, upon a decree in an action pending, therein, wherein the last of Milliam H. Howe, Martha M. Hammond et al, are defendants.

I shall offer for sale at public vendue, to the highest bidder for cash in hand, at the east door of the court house, at Red Cloud, in said Webster county. Nebraska, (that being the bidding wherein the last term of said court was holden) en the second day of May A. D., 1894, at one o'clock p. m., of said day, the following described property, to wit: The south-east quarter (se %) of section fourteen (14) in township number three (3) north of range number ten (10) west of the sixth P. M., in webster county, Nebraska.

J. W. Rufficher, Sheriff, Waight & Stout, Plaintiff's Attorneys, the public school system of the state to advance her educational interests.

More can be done by one acquainted with the work; one who gives the work his entire attention; one whose heart is in the work; one who believes that it is the right of every boy and zirl in this country to receive an edu cation at the expense of the public; one acquainted with the details of the state superintendent's office, the school man of the state, the school system of the state; than a new man in Mr. Goudy's present position. We believe that the present state superintendent should be retained in office. and should be re-neminated by the

next republican state convention. Make the schoolroom pleasant by having a bouquet on the teacher's

desk, and some plants in the windows. During these warm days let the little children have longer recess than

District number 30, Mame F. Beale, teacher, properly observed Grant's birthday by hoisting the flag over the schoolhouse, and reviewing events of his life. They set out thirty-two trees on Arbor Day. The Amboy school and district take good care of thier school grounds.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children." Da. G. C. Osc

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by foreing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves.

Da. J. F. KINCHELOR. Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."
