

KANSAS CITY BLAZE.

FIVE PERSONS INJURED BY FALLING WALLS.

Losses Will Aggregate \$310,000.—Origin of the Fire is Unknown.—Destructive Fire at 12th and Commercial—Large Mill Burned, Eighteen Horses Cremated in Chicago.

KANSAS CITY, June 12.—About 5 o'clock Sunday afternoon a general alarm was sent in from the corner of Thirteenth and Hickory streets for a fire, which was raging in the third floor of the building owned and occupied by the Keystone Implement company, 1417 to 1821 West Thirteenth street. The building had been burning quite awhile before the department arrived, and the flames had gotten beyond control. The burning building was a 4-story brick and was stocked with farming implements, as well as harness, etc. The firemen worked hard to confine the flames to the Keystone building, but the stock of paints and oils fed the flames, which leaped into the air from 50 to 100 feet, and were quickly communicated to the Buford & George Manufacturing company's building on the east. This company also manufactures agricultural implements and their stock was a large one. The department fought the flames from all sides and succeeded in keeping the fire within the two structures named, but both buildings and contents were entirely destroyed, even the walls having fallen.

About 6 o'clock the west wall of the Keystone building fell and crushed an adjoining frame dwelling occupied by Charles Perry. The family had left their home and were thus saved from instant death. A brick house occupied by Jasper P. Hope was also crushed and Mr. Hope was severely injured. James Donnelly of hook and ladder company No. 1 was caught under the falling wall. His injuries are serious. He was burned about the head. Pat Ahern, another fireman, was slightly injured. William Radell suffered the dislocation of his collar bone and he was severely injured about the chest. About 7:30 another part of the wall fell and James Marvin was injured about the hips. The losses will aggregate about \$310,000, divided as follows: Keystone Implement company, loss, \$130,000; insurance, \$80,000. Buford & George Manufacturing company, loss, \$170,000; insurance, \$84,000. The origin of the fire is unknown.

Forest Fires in Michigan.
MARQUETTE, Mich., June 12.—Destructive forest fires are raging in the neighborhood of Nestoria, 50 miles west of here. Two bridges of the South Shore road, near here, have been burned, stopping traffic to Duluth, and hard work was necessary to protect the company's property at Nestoria. The burning district covers a mile wide and five miles long, and destruction to timber must be enormous. Similar big fires extend southward at intervals for many miles. Sagola, a small lumber village of 400 inhabitants, was completely wiped out, and a freight train on the Milwaukee and Northern, passing through, was set on fire and several cars burned. Only the most meager reports can be received, as the wires are down in many places and travel suspended entirely.

Wreck on the Vandavia Line.
ST. LOUIS, June 11.—The New York fast mail express of the Vandavia line leaving here at 8:10 a. m., was wrecked one mile east of Pocahontas, Ill., at 9:22 a. m., the fireman, S. A. Paulson of Terre Haute, Ind., being crushed under the tender and others injured. The train was running about 45 miles an hour, when, on a curve, with a 12-foot embankment, the engineer, Thomas Menifer, felt something supposed to be the forward truck give way. In an instant the engine, tender, two mail cars, a combination car and a coach were in the ditch. Fireman Paulson fell under the tender and was crushed to death. Mail Clerk Henry Albaugh was dangerously crushed in the chest, and Thomas Menifer, engineer, slightly hurt on the hand and arm. The passengers were shaken up and many more or less injured, though none dangerously.

DALLAS, Tex., June 13.—A St. Bernard dog went mad and ran amuck. He bit seven people, probably fatally. A negro boy was literally torn to pieces. Nick Powers, a workman at Lem's ice factory, was seized by the thigh while attempting to escape up a ladder and frightfully lacerated. Jennings Moore, a salesman, had great shreds of flesh torn from his arm and side. Mrs. Mary Arthur, while lying on a cot at home, was attacked and so badly torn that she died. Policemen finally killed the brute.

The sultan suffered from fever for four days previous to his death, and he died while giving orders. SECURED HIS PENSION MONEY.
An Old Veteran Brought Habeas Corpus Proceedings Against Gov. Smith.
LEAVENWORTH, June 13.—A member of the National Soldiers' home named William J. Williams brought habeas corpus proceedings in the United States court against Governor Smith for illegally confining him at the home, refusing to give him his discharge, retaining his pension money and compelling him to take the Keeley treatment; and pay for the same under duress of imprisonment. Governor Smith immediately gave Williams his freedom and pension money upon being served with notice of the legal proceedings. The retention of pension money is looked upon as a serious matter and this case will probably set a precedent against compulsory administration of the Keeley treatment in national military hospitals, and the deprivation of veterans of pension money for that purpose.

WORK OF NATIONAL LAWMAKERS.

Senator Quay Delivered Another Installation of His Tariff Speech.

WASHINGTON, June 6.—Before entering upon the discussion of the tariff Wednesday the senate passed seven bills, one of them being a house bill and the others senate bills.

Among the senate bills passed were: Granting right of way through the Winnebago and Omaha Indian reservations in Nebraska to the Eastern Nebraska and Gulf railroad; granting the right of way through the Leech Lake Indian reservation in Minnesota to the Northern Minnesota Railroad company.

Senator Dolph delivered the last installment of his speech on the tariff, begun some two months ago. The debate was continued in a desultory manner by Messrs. Gallinger, Allison, Mills, White and Kyle. A long discussion was precipitated by Mills and consumed most of the remainder of the afternoon.

WASHINGTON, June 6.—The Cox amendment for the repeal of the 10 per cent tax on state banks was defeated in the house by a vote of 102 to 170. A viva voce vote on the Brawley bill was then taken and the bill defeated.

WASHINGTON, June 7.—The house had the Indian appropriation bill under discussion Thursday. The main feature of the debate was an attack on the Catholic church by Linton (Mich.) in which he argued against the contract Indian schools, saying that under this system the largest share of the appropriation for educating the Indians went to the Catholic Indian schools.

WASHINGTON, June 7.—The action of the attorney general in claiming \$15,000,000 from the estate of the late Leland Stanford occupied the time of the senate Thursday until the tariff bill came up. Senator Carey (Wyo.) spoke at considerable length.

WASHINGTON, June 8.—Mr. Hoar's resolution to set at rest the claim of the government against the estate of the late Leland Stanford came over from Thursday and was laid before the senate at day. Mr. Allen (Neb.) moved to lay the resolution on the table. The motion was carried—24 to 19.

The tariff bill was then laid before the senate and Mr. Cullom took the floor and delivered a speech on general historical phases of the tariff question.

WASHINGTON, June 9.—Friday's proceedings in the house were enlivened by Mr. Walker (Rep., Mass.) complaining of the poor ventilation of the house and the incapacity of the architect of the Capitol, and Wendock's (Dem., Mich.) reply to the attack of Linton on the Catholic church. The question of continuing the Indian warehouse at New York was discussed.

WASHINGTON, June 9.—Some routine business preceded the resumption of the tariff debate in the senate today. Bills were passed as follows: To supply the deficiency in the grant of public lands to the state of Mississippi; to reclassify and prescribe the salaries of railway postal clerks; to extend the time limit for the construction of a bridge at Burlington, Iowa.

The tariff bill was then laid before the senate. An amendment to place broom corn on the dutiable list, at 80¢ per ton, was lost. The next paragraph placed a duty of 50¢ per cent on hay.

Mr. Vest became extremely impatient at the disposition on the other side to debate the tariff. In a passionate outbreak he arraigned not only the Republican side for delaying progress on the bill but some of his Democratic associates for refusing to co-operate in pushing its consummation.

WASHINGTON, June 11.—The brakes were taken off in the senate Monday and more progress was made with the tariff bill than during any previous three weeks of the consideration of the measure. Three schedules, spirits and wines, cotton and flax, jute and hemp manufactures from paragraph 237 to 277, inclusive, comprising 19 pages of the bill, were disposed of. The entire cotton schedule, 10 pages of the bill, was finished in 30 minutes. The Republicans made no opposition to the amendments proposed to this schedule maintaining that the rates, though reduced, were so changed as to make the cotton schedule the most "scientific" ever prepared. The collar and cuff paragraph providing for a duty of 90¢ per dozen pieces and 30¢ per cent ad valorem while shirts and other articles composed wholly or in part of linen carry a duty of 50¢ per cent, provoked considerable discussion and more or less amusement.

WASHINGTON, June 11.—There was an air of languid listlessness apparent in the house Monday and it was evident the members were not in a working humor. The day was claimed by Mr. Heard, chairman of the committee on the District of Columbia, but while several bills were considered, no action was reached on any of them on account of a lack of quorum.

WASHINGTON, June 12.—The absolute blockade of the tariff bill in the senate Tuesday was in marked contrast with the wonderful progress Monday. Not a cog was turned. The entire eight hours were devoted to set speeches preliminary to the consideration of the wool schedule. Senator Quay, who has been quiescent for five weeks, resumed the delivery of his speech, which has already occupied four days, and after speaking four hours, his manuscript seemed unappreciably diminished. Then he yielded from sheer exhaustion and Messrs. Pettigrew (N. D.), Power (Mon.) and Peffer (Kans.) made set speeches against free wool.

For Aged Colored People.
WASHINGTON, June 12.—Two hours were consumed Tuesday in the house over a bill reported by Mr. Outwaite setting aside \$100,000 from the fund belonging to the estates of deceased colored soldiers of the civil war for the purpose of erecting in the District of Columbia a national home for aged and infirm colored people. The bill was passed. The Indian appropriation bill was then taken up, but the house adjourned without completing its consideration.

Oxford-Yale Contest.
LONDON, June 13.—The Oxford-Yale contest has been fixed for July 16.

STRIKE IS SETTLED.

THE CONFERENCE AT COLUMBUS REACHED AN AGREEMENT.

Strike Situation Grows Steadily Worse at Massillon—Bridges Burned at Midvale. Trouble in Alabama—Resuming Business at Cripple Creek.

COLUMBUS, June 13.—The joint committee on scale, composed of operators and miners, reached an agreement Monday. A. A. Adams, president of the Ohio miners, who was a member of the scale committee, refused to sign the agreement. The settlement, however, is final. The scale agreed upon is as follows: Pittsburg, thin vein, 60 cents, thick vein, 60 cents; Hooking Valley, 60 cents; Indiana bituminous, 80 cents; Indiana block, 70 cents; Sreator, Ill., 63½ cents for summer and 70 cents for winter; Bloomington, Ill., 77½ cents for summer and 83 cents for winter, La Salle and Spring Valley, Ill., 73½ cents for summer and 80 cents for winter. Other sections in northern Illinois fields at prices relative to the above.

The scale of prices will be in effect and bind both parties thereto, beginning June 18, 1894, and continuing until May 1, 1895; provided the above named scale of prices for the Pittsburg district shall be generally recognized and observed. The operators and miners shall co-operate in their efforts to secure a general observance of said prices, and if, during the period covered by this agreement, a general recognition of the prices herein named, cannot be secured, either party to this agreement may call a meeting of the joint board of arbitration to determine whether the agreement has been sufficiently complied with to warrant its continuance.

WORK FOR THE OHIO MILITIA.

Miners in Vicinity of Massillon Causing a Reign of Terror.
MASSILLON, O., June 13.—In the face of a prospective settlement of the wage question at Columbus, the aspect of the miners' strike and its attendant difficulties along the line of the Cleveland, Loraine and Wheeling, particularly in this county, grows steadily worse, and what was three days ago a local outbreak at the southern terminus has now spread over 200 miles, every foot of which seems to be threatened by the all pervading spirit of lawlessness. Monday afternoon Sheriff Doll sent a long dispatch to Governor McKinley, asking for troops at once to assist in maintaining order. At Midvale the strikers stopped a coal train and deliberately burned the bridge ahead of it. It will be impossible to replace this bridge inside of three or four days, and in the interval traffic over that portion of the line will be abandoned.

The strike sentiment is so bitter in this region that men cannot be hired to risk their lives as truck walkers, and the road is practically unguarded. Governor McKinley has notified Sheriff Doll that his request for the transfer of militia to the storm center of the county will be granted, and that a sufficient force will be ordered to this city at once. In spite of all the danger and the difficulties encountered, three trains were sent to Cleveland Monday, and more will follow as soon as the blockade is broken.

COMPROMISE NOT SATISFACTORY
Miners Greatly Dissatisfied With Work of the Columbus Conference.
PITTSBURG, June 14.—Unless the national officers of Mine Workers' union, who gave the compromise at Columbus, can make satisfactory reason for so doing the miners in the Pittsburgh district will not accept the 60 cent rate, and the strike will continue. Scores of telegrams, letters and delegations have been pouring in on the district officers here from all parts of the district, denouncing the compromise and all declare work shall not be resumed next week. President McBride has been telegraphed for and is expected in the district soon.

Battle at Lemont.
UNIONTOWN, Pa., June 12.—The truce is ended and armed deputies in the coke region had to kill or be killed. One striker killed in his boots, two others dying and another shot through in the result of the battle Sunday morning at Lemont. There were six deputies on one side and a mob of strikers on the other. Unbiased testimony is in the mass to the effect that the mob not only provoked but compelled the deputies to fire on them after the strikers had compelled them to retreat and had fired several shots at the mob.

Miners' Conference at Pueblo.
DENVER, June 14.—A conference between the coal operators and the miners of Colorado, New Mexico and Wyoming will be held at Pueblo on the 20th for the purpose of settling the differences now existing. The miners wish a settlement on the basis of a uniform rate of wages, varied slightly by local circumstances, the rate to be taken from the best paid and operated mine in each district. Representation is to be one vote for each 100 miners, and the conference with one miner to one operator.

Resuming Business at Cripple Creek.
CRIPPLE CREEK, Colo., June 13.—Ever since the deputies left the field Monday merchants have been preparing to resume business. The Summit, the Ravine, Eclipse No. 1 and the Independence mining companies began putting men to work immediately, and within a week it is expected that every mine in the district will be in operation.

Trouble in Alabama.
BIRMINGHAM, Ala., June 13.—Three companies of the First regiment were sent to Blue Creek on information that a large number of armed men were known to have passed near that point for the purpose of going to Cheyn Creek bridge, on the Birmingham Mineral railroad, and blowing up that bridge with dynamite.

Scale Approved at Fomeroy.
FOMEROY, O., June 14.—The news from the Columbus is received with approval by miners who stand ready to work at the scale formulated.
