

RECLAIMED ARID LANDS

Million Acres to Be Reserved in Several States.

TO BE SOLD TO ACTUAL SETTLERS.

Senator Carey Author of the Bill—Passed by the Senate—Indian Appropriation Bill Provokes Criticism—Mints at San Francisco and New Orleans Ordered to Begin Coining Silver Dollars.

WASHINGTON, July 19.—In the senate Wednesday the house resolution was passed authorizing the secretary of state to accept from G. F. Watts, R. A., a painting entitled "Love and Life" exhibited by him at the World's Fair.

Senator Carey called up the senate bill to reserve for 10 years in each of several states 1,000,000 acres of arid lands, to be reclaimed and sold in small tracts to actual settlers, and it was passed. The bill applies to the same states as the desert land law and also to Montana and Kansas and to the states that may be formed out of the territories of Arizona, New Mexico, Oklahoma and Utah when admitted.

The Indian appropriation bill was then taken up. The paragraph appropriating \$1,000,000 for educating the Indians provoked the criticism of Platt (Conn.) against the policy of giving aid to Indian contract denominational schools. He favored the abolishment of all sectarian schools and the establishment of government schools in their stead.

Senator Call said the various charitable organizations had established themselves on the Indian reservations and the government had made contracts with them to save the expense of erecting schools without considering whether they were Episcopalians, Methodists, Congregational or Catholic. Gallinger (N. H.) protested against government aid to sectarian schools, especially when one church received so much more than the others. There was already a gathering storm in this country against appropriating money for sectarian purposes and that storm would break before long on the people and the congress of the United States. The committee amendment was agreed to.

The conference report on the naval appropriation was presented and agreed to. An amendment was proposed by Dubois (Ida.) and agreed to, directing the secretary of the interior to contract for the construction of an irrigating canal on the Fort Hall Indian reservation in Idaho, the cost to be paid out of money belonging to the Fort Hall Indians.

ORDERS ISSUED TO COIN SILVER.

Mints at San Francisco and New Orleans to Begin Making Silver Dollars.

WASHINGTON, July 19.—Mr. Preston, the director of the mint, by direction of the secretary of the treasury, has issued orders to mint authorities at San Francisco and New Orleans to begin at once the coining of silver dollars and during the present month to coin up to the ordinary capacities of the mints. The silver to be first coined will be blanks and ingots, of which there is sufficient to coin about \$1,500,000 at these two mints and at Philadelphia. As soon as this supply is exhausted work probably will begin on the silver bars of which there is a year's supply at San Francisco and New Orleans, and probably five years' supply at Philadelphia. So far as can be learned it is not the intention or the purpose of the government to extend the coining of the seigniorage beyond a few million, but it is stated that after coining what gold may be necessary and recoining the abraded fractional silver, each of the three mints will probably be worked at their normal capacity on silver dollars for the next several months at least and presumably to the end of the present year.

RELIABLE MEN SCARCE

Scarcity of Competent Trainmen Troubles Railroad Officials.

STRIKE UNITES WESTERN ROADS.

Fifty Ogden Strikers Indicted—Debs Declines to Give Bail—Vice President Wickes Talks—A. R. U. Officers Say No Violence Will Be Offered Troops at Butte, Mont.—Strikers Sentenced.

SAN FRANCISCO, July 19.—The strikers' view of the railroad situation in northern California was tersely given by one of the strike leaders in Oakland.

"Under ordinary conditions," he said, "about 18 or 20 freight trains are dispatched from Oakland daily. During the past few days the railroad company has sent out five freight trains. If this is running trains, then we are beaten."

It is apparently a scarcity of competent trainmen that is troubling the railroad officials. At Sacramento almost the same conditions prevail. One hundred and fifty workmen were induced to go back to the shops there Wednesday morning. The methods prevailing in Oakland were adopted and the nonunion men were escorted to and from the shops by a troop of cavalry. The strikers made no attempt to interfere.

Evidence was afforded, however, that the railroad company has still to guard against violence and treachery; a track walker discovered that the fish plates had been removed from over 100 yards of track. It is believed to have been an attempt to wreck the San Francisco local train, and violence is feared at Truckee, where the strikers are in an ugly mood. Fearing trouble there, Colonel Graham dispatched the First Infantry, under command of Colonel Sullivan, ordering him to co-operate with other troops of the state militia now at Truckee in preserving order. The troops left Sacramento on the eastbound overland.

Summoned All Their Switchmen.

The preliminary examination of Knox and Worden, who are accused of murder in having wrecked a train and having caused the disaster west of Oakland a week ago, began at Woodland, Wednesday. This afforded the strikers another opportunity to cripple the Southern Pacific. The strikers' attorneys summoned as witnesses two switchmen who were the only men remaining in the Sacramento yards. Their going compelled the company to abandon several trains out of Sacramento. United States Marshal Baldwin sent the following reply to the strike leaders who offered to furnish a force of 2,500 deputy marshals to preserve order along the Southern Pacific lines:

SACRAMENTO, Cal., July 18. Messrs. Tedy, Douglas, Hale and Hurley: GENTLEMEN—Have the honor to acknowledge your communication. The best service you can render yourselves, your wives and your children is to refrain from unlawful acts and allow others the privilege of living and enjoying their property without dictation, interference or violence on your part. When you refrain from committing these unlawful acts there will be no occasion for the presence of the military nor the need of your services or the services of others as deputy marshals. HARRY BALDWIN.

STRIKE UNITED THE RAILWAYS.

Scheme to Organize All the Western Roads Into One Association.

CHICAGO, July 19.—The great strike is likely to have the effect of uniting the railways, particularly those of the west, in a closer union than they have ever had up to the present. The General Managers' association handled the strike in a manner so satisfactory to all the roads concerned that they have begun to ask why the same spirit of harmony which enabled them to make such a fight in dealing with the strikers could not be utilized to great advantage in traffic matters. There is the strongest kind of feeling that all roads should be concentrated in an effort to maintain rates and as far as possible diminish expenses. The thing is largely in the embryo yet, but several schemes have already been proposed, the principal one of which is that all the roads west of the Missouri river shall be formed in an association similar to the Western Passenger association, but at the same time entirely independent of that body, but working in harmony with it. This would mean that the Union Pacific and the Southern Pacific would be members of the association west of the river, while the Atchison would be a member of both associations.

Situation at Helena.

HELENA, Mont., July 19.—The strike situation in this vicinity is more favorable than it has been at any time for three weeks. All engineers and conductors have applied for work and were it not for the destruction of bridges west of this city there would be no difficulty in operating trains on time.

Fifty Ogden Strikers Indicted.

OGDEN, U. T., July 19.—About 50 strikers who were indicted by the grand jury, charged with interfering with the United States mail, were before Judge Miner and pleaded not guilty to the charges. They were released on bonds ranging from \$300 to \$1,000.

T., for the purpose of protecting the mines and property belonging to the Osage Coal and Mining company. NO VIOLENCE WILL BE OFFERED.

A. R. U. Officials at Butte Have Appointed a Committee of Safety. BUTTE, Mont., July 19.—The local officials of the A. R. U. say that no violence will be offered the troops when they arrive. The union has appointed a committee of safety, whose duty it will be to restrain those violently inclined. The Union Pacific and Northern Pacific railroad attorneys have been looking for the arrival of troops for several days. The railroad officials expect to resume business on Friday. The regulars are expected to arrive on that day.

Dillon, 70 miles south of Butte, is the present terminus for the Union Pacific passenger trains. A company of regulars is stationed there and also at Lima, the end of the division, 40 miles south of Dillon. Four small bridges have been burned between this city and Lima, on the line of the Union Pacific, and one blown up with dynamite. No damage has been done to railroad property here.

Strikers Sentenced for Contempt.

LOS ANGELES, July 19.—Judge Ross found John Howarth and Engineer Martin Kelly guilty of contempt of court for violating his injunction at Barstow and sentenced each to eight months in jail. The severity of the sentence was a surprise to many, it being thought as this was the first conviction for violation of the injunction the sentence would be light.

T., July 19.—A large body of men are organized in Enid and they are loudly proclaiming that they will destroy with dynamite the first train that attempts to pass through the town without stopping. MORE TROUBLE AT SOUTH ENID.

Rock Island Bridge Blown Up With Dynamite and a Train Demolished.

WELLINGTON, Kan., July 16.—The adverse decision of the Oklahoma supreme court on the applications of the towns of South Enid and Pond Creek to compel the Rock Island railroad to build depots and stop trains has been quickly followed by an outrage. At 4:30 Friday morning, a mile south of Enid, the Rock Island bridge was blown up with dynamite and a freight train demolished. The engine and a couple of cars had passed safely over when the dynamite exploded, hurling the train from the track. Thirteen cars were piled into the ditch and Brakeman Cordroy and Larry Lyon, a tramp, were both badly injured. The outrage is supposed to be the work of men concerned in the bitter fight between the government townsmen and the Rock Island railroad, which has been raging ever since the opening of the Strip, owing to the refusal of the railroad to stop its trains at the government towns.

At 11 o'clock Friday morning Fawcett, the chief of the Rock Island company's detectives, wired to Vice President Lowe that he was compelled to stand by powerless and see 200 citizens of Pond Creek tearing up the company's tracks through the city. In the crowd were both men and women.

By order of the governor an armed troop from El Reno, under charge of Deputy United States Marshal Madsen, are enroute for the scene.
