Like a Miracle Pains in Side and Breast Despaired of Help, but Hood's Sarsaparilla Cured.

C. I. Hood & Co., Lowell, Mass.: "I am glad to state my son's experience with Mood's Sarsaparilla, as it was the means of saving his life. Last fall he was taken ill with pains in his breast and side. He had the best medica ettendance possible, and was breaked by dectors for some time, but did not realize any relief. He could not lay down day or night, and ance possible, and was treated by the

THE State Fair has been moved to Omaha. This move was surely one of unthoughtedness on the part of the directors, as Omaha is too far away and cannot possibly expect to draw the crowds that Lincoln did. But some people are 13 Sold by drugsist, 75c. always putting their foot in it.

The management of the Tecumseh Milling company announces that it will give a suck of flour to every family in the county that is unable to buy the same. McNitt of Webster, who occupied the chair awhile yesterday, gave ample evidence that the house would have made no mistake if it had elected him speaker. He is well posted in parlimentary law, exceptionally clear headed, a good lawyer and prompt and energetic. He will be one of the most useful members of the house in its general work as he seldom shows up on the wrong side of any question.-State Sournal.

Appropos to the aid fund for the drouth stricken people, the Honorable County Board in session Wednesday had quite a little discussion as to whether Webster county should go on record as destitute and charity seeking or not. It was stated it was said, the State each subscription of \$1.00. Journal recently contained an item to that effect, and Chairman Hoffman made a sensible and vigorous speech opposing such action by the board. He showed plainly that Webster county was abundantly able to take care of herself, and that advertising it to the contrary was permanently injurious and detrimental. A resolution was unanimously adopted fequiring the board to notify Secretary Ludden that Webster county is not asking for aid, and also ask the State Journal to correct its statement. No sir! It will be after several more take care of its own poor.

We have been receiving quite a number of letters in the last few days from eastern papers asking about Nebraska's starving poor. Some letters contain furious statements in regard to the condition of our people, that is not even heard here. There may be a goodly number in the western portion that are subjects of charity, but Webster county has but very few people who will need succor from those who are better off than they. The generosity of the eastern people is appreciated but the magnified stories that are circulated in little son Don, swallowing a pin. The eastern states about Nebraska's desti. pin became lodged in his throat but tution are simply a great injury to the finally passed down and the little fellow state. Destitution does exist in some of appears to be as happy as ever. the western counties, but eastern people should remember that Nebraska is a shade of red this week, because some great state and with a few exceptions is lightfingered gentleman took his hog hard to beat as an agricultural product that he had killed for his own eating ing state. THE Washington correspondent of the State Journal indulged in some lively sick with lung fever. news last Saturday, when he published to the world that O. C. Bell was an applicant for the receivership of the First National bank of the city. The news is very fresh inasmuch as Mr. Bell has the bank having gone under about three and a half years ago. But when in company with democrate a fellow might expect most anything from a Washington correspondent.

THE search for Barrett Scott the Holt county defaulter whom everyone knows about, was suddenly terminated Saturday night when his body was dragged from beneath the ice in the Niobrara river. The body was frozen entirely and three feet of rope was hanging to his neck, which plainly showed he was lynched. His hands were tied behind him, and his watch and chain were still in place on his person. Everyone who had ever known the ex-treasurer recognized him at once, and hundreds of citizens viewed the remains before autopsy. This awful crime is an everlasting blot upon Holt county, and it is to be deplored that such circumstances really do exist. The perpetrators of the foul deed are still unknown but the prevailing supposition is that the ones now under arrest are the guilty parties, and will suffer accordingly by law.

Beware of Cintments for Ca-

tarrh that contain Murcury as murcury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucuous surfaces. Such articles should never be used except on perscriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure manfactured by F. J. Cheney & Co., Toledo. O., contains no murcury, and is taken internally, acting directly on the blood and mucous surfaces of the system.
