A Girl Makes \$212.16 in a Month.

I read in your valuable paper how one of your subscribers made money in the plating business, but I can beat that and I am only a girl. I sent and got the new Gray Plater and cleared \$212.16 in one month. Can any of your readers beat this? You can get spoons, forks and jewelry to plate at every house. Some big articles I sent and had plated at the factory. There is plenty of work to do both in the city and country, and why should any person be poor and out of employment when such an opportunity is at hand. Anyone can get my plater by writing to Gray & Co. Plating Works, Columbus, Ohio. They do all kinds of plating and will teach the art. My plater has a lathe, wheels, tools and materials for polishing—a nice little work shop. I hope my experience will help other.

Another Arkansas Traveler.

We see by THE CHIEF that Mr. W. H. Fuller has again landed in the swamps of Arkansas and when he lives there awhile he will wish for his old home in Nebraska where he can get one more good breath of fresh air. I have lived just where Mr. Fuller lives, near Carlisle. I wanted and thought I had struck a paradise, but came nearer finding it when I struck Red Cloud than when in Arkansas. If this don't find the waist basket I will tell you the rest another time. MRS. ANNIE PERRY.

Warning to Expectant Mothers.

Many internal remedies are being skillfully and gingerly advertised, professing to shorten Labor, lessen Pains of Child-birth, etc., and with wonderful promises to regulate menstruation. Common sense should teach any woman that a preparation adapted for MENSTRUAL DISORDERS will not prepare the system for Child-birth; on the contrary, irregular menstruation at this time may imperil her life. We earnestly say BEWARE of all such; they cannot, at this critical period, do any possible good, and their use may prove fatal. It is only by persistent HYGIENIC treatment while enacting, thus relaxing and softening all the parts, that the hour of Child-birth is robbed of its terror, and he remedy on earth does this best.
