

THE CHIEF
SWORN CIRCULATION 1,300.

C. H. HENDERSON, Editor.
FRED E. MCKEEBY, Asst. Local Editor.

Come let us reason together. Some things are necessary for comfort, health and happiness. This year we are going to do without many of the necessities and all luxuries of life but we intend to have what is absolutely necessary this year to sustain life and keep in health to aid us in our battle of the year. Our wives and children must at least have food to eat and shoes to wear. The latter will not cost you much, but will help to preserve their health and comfort.

We have made arrangements with J. B. Lewis & Co. of Wear Resister fame to supply us with a medium priced line of boots and shoes that will meet with your approval, and come in reach of your pocket book.

It is our wish to supply every family in Webster county with these goods for we believe it will be to their advantage. Another advantage you gain by dealing with us is the large amount of fine work we do for you in sewing up rips and nailing soles and repairing at actual cost. You will lose nothing by dealing with us and will wish you had if you do not.

Yours respectfully,
BLAKELEE & KALEY.

FRED E. MCKEEBY, M. D.
Physician and Surgeon.

It was real funny last Saturday while aid was being distributed to the needy to see one person who was going after some of the relief committee's molasses. He was compelled to buy or borrow a jug, and stepping into a grocery store he bought a ten cent jug and gave a \$10 bill from which to take the change. Why not buy the molasses while about it?

Boxing is becoming a great fad with the boys about town. Every night there is a round-up somewhere, and the blood-stained floors and furniture are conclusive evidence that all the contests were not strictly scientific.

Hutchison & Hiatt, the popular 4th avenue barbers, have renovated and rearranged their barbershop in a neat and attractive manner. They have placed the chairs on the north side of the interior, giving them more room to operate in. The gentlemen are excellent artists in their line and are having a fine business.

Here, girls, please notice this item: A decision has recently been made by a Vermont judge, that a young lady accepting an engagement ring should, in case of repudiation of the marriage engagement, return the ring, or fulfill the conditions under which it was presented. This will rob some poor girls of lots of jewelry.

Several Kansas City ladies have been recently hugged till their ribs were broken by their husbands who had just returned home after a long absence. Three cases of this kind have gained currency as an actual fact, and we have no reason to dispute it. It is very evident that Kansas City men love their wives, or else do all their hugging at home.

Here is something for the churches and the article named should sell like hot cakes: A contribution box has been invented so that the coins fall into slots of different sizes, and all dollars, halves, quarters and dimes land on velvet, while the nickels and pennies drop on a Chinese gong. If such a contribution box is introduced in Red Cloud, we imagine the attendance will materially increase.

Joseph Saunders of Agra, Phillips county, Kansas, came to Red Cloud Thursday for the purpose of having an arm amputated on which had formed a painful aneurism, and was causing him great restlessness and distress. Dr. Damerell assisted by Drs. Moranville and Emigh performed the operation, which was entirely successful, and the patient was resting easy at last accounts. It is much credit to Red Cloud physicians when people come so far for their services.

The Nebraska City Cereal mills here consigned to us a car load of white dent seed corn and a car load of White Russian seed oats. This grain has been selected carefully by the Nebraska Cereal Mill Co., who use a large amount of white oats for oat meal and white corn for harmony and granulated meal. Their object is to furnish good seed expecting to buy the crop raised from it. Farmers will consult their own interest by using white corn and oats for seed as they always sell higher than mixed varieties.—Red Cloud Produce Co.

It has recently become a fad with the newspaper b'hoys to turn their offices over to the ladies for one day, let them run the paper just as they choose, and give the proceeds to charity purposes. The women who got out the charity edition of the Crete Democrat closed the editorial page with this humorous paragraph: "The editors, as they lay down their pens after a week of hard work and gloomy looks from their husbands, gladly return to their homes, more than ever convinced that the weapon of woman is the broom rather than the pen."

Gentle spring with all its attendant and pleasant environments will soon burst forth with a radiance indescribable. Sweet violets, whose breath seems to waft one into angelic realms, fragrant roses, the delicate touch-me-nots, and all the other budding beauties, make one fondly wish the earth was dressed in vernal costume eternally. Our vernacular fails us when we make the effort to paint the scenes and the accelerating influences that that season brings to one who has been compelled to shiver with every boreal blast that blows. Well may we wish for the effulgent rays of Old Sol, as that pent-up "I-want-to-go-a-fishing" feeling begins to permeate the system about the opening days of spring. It was ever thus.

Mrs. Sarah Williamson living south of the river will now be called Mrs. Benjamin Watson having solemnly avowed to cherish and protect a gentleman by that name last Wednesday. Uncle Billie VanDyke said the magic words that bound the loving hearts together, he being the justice of the peace in that township. While there is no question of their mutual devotion there is quite a disparity in their ages, the bride being 40, and the groom stambling along past 75. The groom however receives a pension of \$70 per month, and hails from Jewell county, Kansas, where he has always farmed. The bride is also highly accomplished in general farm work. We wish them success.

On last Sunday evening a very large crowd of people gathered at the M. E. church to hear the Lincoln services. Quite a program was prepared and rendered, composed of life sketches of the lamented Lincoln, also poems and recitations that related to his model life, the greatest man of the nineteenth century. Sketches were read by Prof. Caster, Mrs. Ducker, Mrs. Kollogg, Miss McClelland, Miss Dora Ward, Miss Mabel Saunders, Miss Clara Kellogg, Myrtle Chamberlin, Dora Groat, Robt. Martin and others. Miss Ethel Lilly recited that famous poem, "Why should the Spirit of Mortal be proud." These sketches were interspersed by remarks by Pastor Maxfield and D. B. Spanogis, and the choir sang some very appropriate selections. Taking into consideration that the services had been gotten up without regard to preparation, they were of an excellent character.

Five carloads of aid have been distributed in this county during the past week, going usually where it was most needed. One thing about the distribution of public aid that always disgusts people is the fact that there are a great many who procure it that are not deserving of the charities of the people. One party, for instance, is said to have purchased a jug, paying for it with a large bill, and then went to aid headquarters and got it filled with provender. Another is said to have worked both ends of the string, viz: The supervisor of his township and the relief committee, while a number feigned destitution in order to procure something free. THE CHIEF believes in providing for those who cannot help themselves, but it does not look right for people to ask charity who are well able to help themselves. The relief committees, however, with all their diligence are sometimes imposed upon by designing persons.

Mrs. Dr. Tulleys died Thursday morning at her home in this city from a complication of diseases developing a lung affection which proved fatal. She had been a confirmed invalid for several years, but her condition was not considered extremely perilous until the last few days. She had borne her long and painful illness with great fortitude, and had the advantage of the best medical skill but her constitution was unable to bear the strain and death was her relief. Mrs. Tulleys was an estimable lady, and was loved by all who knew her. Mrs. Tulleys is a native of Ohio formerly, and a sister of the late Dr. Edward Porter of that city. For 23 years she has resided in this city where her husband has been a successful medical practitioner. She is the mother of the Mrs. James and Charley Gilham of this place. Mrs. Tulleys at the time of her death was 58 years old. Being a pioneer settler and cherished by all who know her, her death will be greatly deplored by the entire community. The funeral services will take place Saturday from the family residence.

We are pained to learn of the bad misfortune which occurred to our friend, Tom Jones, south of Inavale, last Tuesday. He is the possessor of a choice herd of cattle, and four head of his finest milch cows, while attempting to get water on the Republican, went through the ice and were drowned before their owner discovered their whereabouts. It was rather discouraging to Tom when he arrived on the scene and found four of his choicest stock frozen solid in the ice, stone dead.
