Deafness Cannot be Cured.
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rambling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.
We will give one hundred dollars for any case of deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

Profit \$88.25 the First Three Days.

A few weeks ago I read in your paper how Mrs. Griffith made a great deal of money selling a new method of putting up fruit. Here is what I did with an Old Reliable Plater. The first days that I had the Plater I plated 75 sets of knives, forks, spoons, etc., which when delivered, brought me in about \$92.00; cost of metal about \$3.75, leaving a gross profit of \$88.25 for my time and trouble, and everyone was well pleased with the work, and I came home with double the amount of goods to be plated. I have given it up; the plating business suits me. Anyone can obtain an Old Reliable Plater by addressing W. P. Harrison & Co., Columbus, Ohio. Anyone out of work should take this opportunity to get employment and make money.
C. M. REID, Columbus, Ohio.
