Our friend, ex-alderman D. J. Myers, believes that there is going to be a great boom in real estate matters this season, in both city and country realty, and is preparing to do a great business. The Chief believes that John is right, and that from this date on for a number of years that Webster county will go forward with a great bound. We have suffered, it is true, with the rest of the states by drouth, but we are going to have good seasons from this on.

The farmers of Line precinct met at the Kuehn school-house Wednesday for the purpose of choosing one or more men to go out and solicit feed and seed for the farmers of that township. L. P. At the old stone school-house in Dist. No. 9, in Line precinct, last Saturday night there was a genuine good time. Miss Nora, daughter of Oliver McCall, is teaching at that place and she arranged an excellent program for her pupils, in memory of the illustrious George Washington. The program consisted of readings, recitations, songs and speeches, and was a very creditable program indeed. The children of that vicinity exhibit good training, and this reminds us that frequent events of this character are very valuable to young people in the country schools.

Pope, and a teacher in our public schools, received a telegram Wednesday from Congressman McKeighan that he had been appointed to a cadetship in the naval academy at Annapolis, Md. Ralph telegraphed his acceptance at once, and will enter upon his duties shortly. It will take eight years to finish the course, at which time he will come out with shoulder straps. The young man is a close student and, if we mistake not, will make his mark in the navy department before he is twenty years older. THE CHIEF takes great pleasure in wishing the young man success. Congressman McKeighan could not have selected better timber for the appointment.

In all probability the city of Red Cloud enjoys the most lucrative patronage of any town of its size in the state. In proof of that fact you may see any day people trading in our stores who are attracted here from a distance of 20 to 30 miles by the great inducements offered over stores in other towns. The motto our principal merchants adhere to is "Quick sales, good goods, fair treatment and small profits," a rule that will always bring trade and money to a city. The narrow, contracted, get-all-I-can-and-keep-all-I-get merchants are not numerous in Red Cloud, and that is why the city has gained such wide repute as a bargain center. A close observation of the advertisements in a newspaper will save every purchaser money. It is the progressive man that sells cheap and it is the wise man that buys as cheap as he can in his home market. A well patronized newspaper is a true index of a community's enterprise, and our progressive merchants will always be found there.

There seems to be quite a question in regard to what source seed and feed is coming from for the purpose of aiding those farmers who have been so unfortunate in the last year to plant their fields this season. Failing to vote the bonds for that purpose, THE CHIEF sees no way open except by individual aid. The county board has no warrant of authority to do so out of the treasury except through the bonds, and they can not be voted at this time, nor in time if they could be carried, hence individual aid is the only solution to this important problem. Private individuals who have corn could furnish it, taking security on the crop, or in any way that was found expedient, and we believe this will be largely done, so that there will be only a small number, if any, who will be compelled to go without planting corn this season. A willingness on the part of the more fortunate to help their unfortunate neighbors will bring about the desired object, and thereby be a great achievement in the way of obeying the golden rule.

It was Patrick Henry who said: "Give me liberty or give me death," and another old saw reads: "Get all you can and keep all you get," and another says: "Go ye into my vineyard and work." The words spoken by P. Henry, Esq., do him honor, for liberty is a priceless boon that can only be obtained through great hardship, many privations and much self-sacrifice, but when once gained it is priceless, and yet, how many people abuse it, and how many fail to appreciate its great advantages. If it were prized more highly, how few selfish people would adhere to the second maxim of "get all you can and keep all you get." It is unchristian-like. A man should "go into the vineyard and work," not only for himself, but to make the world happier by dispensing charities, hence, with a priceless liberty and an ability to do good, what a glorious opportunity there is to give at the present time. The man who prizes his liberty the most is the man who appreciates the sufferings of his fellow-beings. The next four or five weeks will be a good time to show your generosity by helping those who will need your aid.

The anti-pass epidemic has apparently spread from this to western states. There the clergyman must hereafter pay full fare. One minister who applied for a pass received the following scriptural answer: "Thou shalt not pass."—Numbers xx, 18; "Suffer not a man to pass"—Judges iii, 28. "None shall ever pass"—Isaiah xxxiv, 30; "This generation shall not pass"—Mark xiii, 30; "Though they roar, yet they cannot pass"—Jeremiah v, 22; "So they paid their fare and went"—Jonah i, 3.—Utica Press.
