### EDITORIAL NOTES.

The Superior Sun, under its present management, is fast becoming a very popular paper.

One of the greatest editors of the age, Chas. A. Dana of the New York Sun has been indicted for libel.

The Rev. Sam Jones is holding a grand revival in St. Louis. His audience number 5,000 and 8,000 nightly, and many are being converted.

It is said that Col. Cody (Buffalo Bill) on a recent visit to New York City, discovered that the entire state of Nebraska could not be pawned there for \$10, so thoroughly had the destitution been advertised there.

It is said that collection agencies experience the greatest difficulty in collecting doctor bills, of any. The next hardest bills they have to collect are newspaper accounts. We can't see how the poor doctors survive.

Have you noticed it? It's a fact. Red Cloud is outselling Hastings on sugar. They advertise 30 pounds of Orleans sugar for a dollar in Hastings, and at least one of our Red Cloud grocers sells the same sugar at 32 pounds for \$1.00.

The Harlan county Democrat, with a great display of trumpets, tells the people to get ready and celebrate the production of a bountiful crop in '95, and has prepared a lengthy song to be sung September 2d by the denizens of that vicinity. We hope they will be able to sing in high spirit.

The idea of electing U. S. Senators by the direct vote of the people, is commanding some very favorable recognition from the eastern newspapers just at present. There is no doubt, but the day is not far distant, when every man will have a say as to who shall represent the people in the dignified senate of the United States.

The aid business, as we see it, is not much less than a humbug. It is, at least, a very awkward business and has caused lots of trouble in this country. We should be thankful, however, for the aid that has reached our deserving people, and acknowledge the fact that the humbug is in the race after it by those who are not destitute.

The Lancaster (Pa.) Intelligencer recently printed a historical edition of 40 pages, a copy of which kindly found its way to this office. It was a most elaborate edition, excellent from a literary standpoint, perfect typographically, and containing as it did such an enormous amount of meritorious reading matter it compared favorably with the best metropolitan newspapers.

SINCE Mr. Tennant's return from the south, he is loud in the praise of that country for its great natural resources, its wonderful climate and hospitable people. He says that "sectionalism and the bloody shirt is no more there, and the people in the south will readily remind you that the war was over 30 years ago. Some of the finest lands, rivers, cities, manufactories and people in the world are in the south. There is a constant influx of northern and western capital to that country, and it is rapidly growing great. The negro labor question and the race problem are vital issues there at present."

THE CHIEF hopes that whoever is selected mayor for the ensuing municipal year will be a representative man, who has the full and complete interests of Red Cloud at heart. We are fully aware that the position of mayor is one to be spurned rather than solicited, because

no matter how well a man should perform his duty, a never satisfied public would not concur in his actions as a general thing, and yet some one must fill the position. THE CHIEF would have no particular objection to our fellow townsman, M. R. Bentley, nor to C. W. Kaley, nor to R. E. Fulton, nor to B. F. Mizer, nor to W. N. Richardson, nor to C. H. Potter, nor to any man who would get to the front as a hustler. Another thing, we must look well to our councilmen. We should select our most careful business men for those responsible positions. They are the business department of the city and should be extra careful men.

The reception given to the Junior League by the Senior League last Friday night was a very pleasant affair.

The Epworth League committee on program met at the parsonage Tuesday and all are working to make the next devotional meeting the best of all up to date.

The reason why the M. E. Pastor is talking so much about the quarterly meeting is because the Rev. W. B. Alexander will preach at 10:30 a. m. and at 7:30 p. m. and as the Red Cloud people enjoy good preaching we want every Methodist inclined person to be present.

The quarterly conference will convene at the M. E. church on Monday, March 25, at 9 a. m. Rev. W. B. Alexander our presiding elder will be in the chair. Every Methodist in this part of Webster county should attend.

A non-partisan, or citizen's caucus was held at Bentley's hall last evening for the purpose of placing in nomination candidates for the various city offices. Henry Gilham was chosen chairman and T. J. Ward, secretary. An informal ballot was taken, the result of which was as follows: M. R. Bentley, 35; C. H. Potter, 16; J. L. Miner, 5; F. G. Blakeslee, 3; C. J. Platt, 2; and some scattering votes. On motion by Henry Cook, Mr. Bentley was made the choice of the convention by acclamation.

The caucus then proceeded to nominate by formal ballot the balance of the city ticket, with the following result: Clerk, O. C. Teel; treasurer, F. G. Blakeslee; city surveyor, C. S. Bennett; board of education, J. S. Gilham, Henry Cook and C. B. Crone; councilmen, 1st ward, Jos. Kubick; 2d ward, D. J. Myers.

### SCHOOL NOTES.

On account of the storm Wednesday there was no school.

Miss Mary Miner called on us the latter part of last week.

The German class is nearly through reading its first book.

Friday morning the scholars lost the privilege of singing for that day.

The first year Latin class is progressing in the wiles of the beginner's guide.

Again Miss McCall gets the banner, making several times during this year.

Of the north ward school Miss Martin's room had the least number of tardies.

The largest class in school is the arithmetic and the smallest the German class.

Cesar's thoughts and language is pondered over and ferreted out by willing workers.

The algebra examination Friday ended the last toils in that study, making way for geometry.

There are fifteen classes in the fifth room that recite every day, with three teachers to hear them.

Some curious and acceptable compositions are produced by the Rhetoric class. They develop some good critics.

The bookkeeping class is developing some good penman who will in the future keep correct and accurate accounts.

Surely the arithmetic class ought to be very proficient in the study judging the thorough drill they receive every day.

The physics class is dealing with the first part of the book. They expect to finish that study before the end of the term.

A lack of interest seems to be shown on the part of the parent, scarcely has there been one tenth of them visiting the school.

Whittier is delightfully studied by the literature class, having read "Snow Bound," "Among the Hills" and "Songs of the Hills."

If diagramming cultivates the mind and gives an understanding of the English language, the grammar class will be well equipped.

The Virgilian readers are daily lessening the number of lines to be read and nearing the close of their relationship with this school.

Four boys were suspended from school for misconduct Friday, but on making proper amends, three of them were permitted to return.

The general history class finished the book Wednesday, and then turned back for a review preparatory to the examination in two weeks.

Numerous discussions arise as to the demonstrations of some original propositions. These are good dumbbells for the muscles of the mind.

Instead of No. 8 this week, we have No. 10 hung up in our room. It seems that the fifth room is doomed to disappointment if it ever expects to get the banner.

The elementary algebra is in the midst of radicals a very important part of the study and if not properly understood will be a stumbling block to the rest of the subject.

If the chemistry class would make some more agreeable perfumes it would probably give the teachers adjoining less trouble, but there are some evils which cannot be remedied.

Wednesday noon the seniors were given a list of subjects to choose from for commencement exercises next June. From now on they will have to devote their thoughts to some purpose.

A clue to the missing dime, taken from the physics class some time ago, has been found. If the guilty party does not make things right soon, the chances are he may be exposed publicly.

The senior boys are canvassing the school this week to ascertain the feeling existing among the scholars concerning their superintendent. The object of this is to precipitate some accusations made against him. Generally they meet with favorable answers. It is rumored that some few are circulating a petition of a widely different character about another person. Although this latter petition can do no harm, in behalf of the tranquility of the school it should be kept out. Papers of this kind incubate prejudices which otherwise might not have existed, and swells our number of accretion woe to overflowing.

BETTY.

You ought to know this: DeWitt's Witch Hazel Salve will heal a burn and ease the pain instantly. It will cure badly chapped hands, ugly wounds, sores, and a well known cure for piles.

It looks as if C. E. Hicks was starting a wood yard.

Byrne Bros. received a car of flour one day last week.

Mrs. Monroe who has been quite sick is improving rapidly.

F. W. McLaughlin and E. J. Overing Sundayed in Red Cloud.

Mrs. McLaughlin is visiting with her son at Doniphan this state.

C. A. Clark has rented the farm formerly owned by Hyde and Bottom.

Bazile Lee returned Saturday evening from a business trip to the eastern part of the state.

H. J. McLaughlin who was spending a few days in this city returned to his home in Doniphan Friday.

A number of teams were sent to Upland Tuesday to get seed corn to supply the members of the A. O. U. W. lodge.

Mr. Carr and daughter of Cedar Rapids, Iowa, spent several days with H. H. Hilton and returned to his home Tuesday evening.

Mr. Tooley who is very sick is being well cared for by the members of the A. O. U. W. lodge of this place. He is a member of the Swanton lodge.

A number of young people were entertained at the home of Mr. and Mrs. D. O. Bennett last Wednesday in honor of the birthday of their daughter Bertie.

Quite a little scrap took place in town Tuesday over the price of some hay, between V. S. Hall the lumberman and Wm. Horrigan the Irishman, there being some difference in their sizes it was no trouble for Hall to scrub his floor with William, he Horrigan doing all of his fighting with his mouth.

Truly Astonishing—Miss Annette N. Moe, Fountain, Minn., says: "Ayer's Cherry Pectoral has had a wonderful effect in curing my brother's children of a severe and dangerous cold. It was truly astonishing how speedily they found relief after taking this preparation."

Dated, March 7, 1895.

**To the People of Webster County.**  
As there has not been and feed and seed bill passed yet by the legislature to my knowledge and being high time for something to be done, I would advise for the voters of every township to hold a public meeting next Monday the 18th, at their respective voting places, or any designated place, for the purpose of signing a petition praying the county board to use the available county funds to buy seed and feed as far as it goes and if the board is satisfied that two-thirds of the legal voters have signed that petition and are reliable men, then we will call a meeting at once and proceed otherwise I shall refuse, as one, to use county funds.
