The Election.

The city election has come and gone, and the result is known to our readers before THE CHIEF is issued. The new mayor and council, we feel sure, will strive to make the incoming mucipal year one that our citizens will have books, books, books, books, books, books, books, reason to be proud of if they work in , books, books, books, books, books, books, unison. The mayer-elect, Mr. M. R. Cloud, besides being a man of extraordinary business qualification, while the council is composed of business men such as R. B. Fulton, R. M. Martin, D. L. Groat and Ed Pulsipher. There is no reason why Red Cloud should not be conducted on business principles of a liberal nature. While Red Cloud can not regain prosperity at a single bound, we have great hopes for the coming year. and we believe we will get it. There are many enterprises that will have to be ands of dollars have been spent during the last few years in holes in the ground in the vain hope that a good supply of water could be secured where no water existed. Now, let the new council take the dilemma by the horns and give us decent water, and thereby make it an object for people to take the water. The idea of pumping mud and corruption at a considerable daily expense for the peoposterous. The idea of a \$40,000 water

system being used to pump second-class water. Think of it! The water is putrid, and will sooner or later impregnate the city with disease if not looked after promptly.

Books, books, books, books, books, The above may seem like a great many books, but our subscribers should re-member that we have 100 new books which we are going to give away with THE CHIEF to new subscribers, and to those who renew or pay up. See them, and get the best paper in the county with a good beok.
