

DR. KILMER'S SWAMP ROOT THE GREAT KIDNEY, LIVER AND BILIOUS CURE

Biliousness Headache, full breath, sour stomach, heart-burn, pain in chest, dyspepsia, constipation. Poor Digestion Distress after eating, pain and bloating in the stomach, shortness of breath, pain in the heart. Loss of Appetite A splendid feeling today and a depressed one tomorrow, nothing seems to taste good, tired, nervous and all unstrung, weakness, debility, Swamp-Root builds up quickly a run-down constitution and makes the weak strong.

Weather Bulletin. [Copyrighted, 1895, by W. T. Foster.] St. JOSEPH, Mo., April 20.—My last bulletin gave forecasts of the storm wave to cross the continent from Apr 22d to 26th and the next will reach the Pacific coast about the 27th, cross the western mountain country by close of 28th, the great central valleys from 29th to May 1st and the eastern states about May 2d.

THE GREAT RIVER. Historic passages in the bible refer to the fountains of the great deep and say they were broken up when Noah's flood occurred. Probabilities are that this was literally true. The great deep still remains but its fountains are not now sufficiently extensive to cause a general flood such as evidently occurred in the misty and mysterious past, if we are to credit the very strongest geological evidences.

Instead of calling it the great deep let us say the great river and look above where we find it sweeping around the earth in a channel two thousand miles wide and how deep no man knows. The eastward flowing river carries with it the high and low barometers, storm centers and cloud formations, causing them to go around the earth in an easterly direction. The channel of this aerial river does not lie exactly east and west but varies with the south above the Gulf of Mexico and above China and well to the north about Bering sea and Iceland so that its southern boundary line will overage near 32 and its northern about 60 degrees of north latitude.

Nine-tenths of the human race live within these boundaries and this vast eastward flow is the immediate cause of all our weather departures. Cold winters, warm winters, and all weather extremes may be traced to this great river. But this river is acted upon by the magnetic influences of sun, moon and planets so that its channel varies, Gawthrop, in the American Meteorological Journal, says: "This great unnamed river of the atmosphere, so near to us and yet so far, has now in its bed, as it had through ages, the centers of civilization and is destined to appeal to the imagination of men and to dare them, in its exploration, to extreme effort. This great river changes its course southing at one time and northing at another because of influences it meets in passing over the earth's surface."

If we can know when to expect the southing of this river, that is when its channel will oscillate or change to the south on this continent, we may know when to expect cold winters for they will surely follow and warm winters will follow its northern oscillations. It must not be supposed that all the upper atmosphere is moving eastward. Probably the channel of the great aerial river is a tunnel reaching not to exceed ten miles high. There are very forcible reasons for believing that the atmosphere above this channel moves northward, after rising along the equator, and is poured down

again through the magnetic north pole from whence come the cold and the cold waves.

The immediate cause of these atmospheric movements is the sun's magnetic effects, including the heating of the lower atmosphere near the earth's equator. The earth revolving eastward causes a relative motion in the sun westward and as the atmosphere rises along the earth's equator in response to the sun's forces down-pours at the poles are natural results.

This movement of the atmosphere takes the form of a spiral, and with a left handed corkscrew motion is drawn around the channel of the great eastward flowing aerial river. The westward progress of the sun must necessarily pull vast portions of the atmosphere toward the west and to replace it an eastward flow is caused and hence the great river.

The principal areas of evaporation lie south of this great channel in the Atlantic and Pacific oceans where the moisture is lifted and carried into the great river where it flows eastward till a combination of transient highs and lows cause it to be precipitated, giving us rain or snow.

Now as to the great deep. The writer believes that the cause of evaporation were vastly increased to such an enormous extent that nearly all the waters of the oceans were evaporated and drawn into the great deep—that is the great aerial river under discussion—causing cloud formations thousands of times more extensive than now, shutting out the light of the sun till only a dim twilight remained. This condition remained for vast ages during which the earth was enveloped in great deep belts of cloud as now are all the planets except the earth and Mars.

When the cause of this great evaporation gradually withdrew, from natural results, the fountains of the great deep were broken up, the moisture precipitated and what is termed Noah's flood resulted.

Every geologist will admit that evidences now found in the crust of the earth harmonizing with the above hypothesis are overwhelming. The legends and traditions of every tribe and race of man remarkably coincide with these ideas.

The writer does not hesitate to declare his belief that the cause of this great weather event was the coming to our earth of the greatest comet ever known to the solar system and that our moon, robbed by the earth of its water and atmosphere, is the remnant.

Oenus, Mars and Jupiter are now apparently near each other in the west and may be seen soon after sunset. Venus is bright and silvery, Mars red and small, Jupiter a dull silver color large. Neptune is in the same cluster and sets about the same time but can be seen only with a powerful telescope. Saturn and Uranus are far south and rise about sunset. The latter can be seen only with a telescope. Mercury is on the opposite side of the sun. The moon was at apogee, farthest from the earth, on 18th.

In Kentucky, Arkansas and other states it is held that in order to produce a good blackberry crop there must be a "Blackberry Winter." This is a cold spell in May, without which, it is claimed, the blackberry crop will be short.

Delays are dangerous. A dollar spent for Hood's Sarsaparilla now may prevent illness which will be expensive and hard to bear. Now is the time to take Hood's Sarsaparilla.

Food's Pills cure all liver ills, relieve constipation and assist digestion. 25c.

Greeting to My Old Patrons and Friends.

Having accepted the farm agency for the Old Continental Insurance Co., in Webster and adjoining counties, am prepared to furnish liberal and reliable insurance on the most favorable terms. 10-3m J. H. SMITH, Agent

FLOODS IN THE EAST.

NEW ENGLAND RIVERS OUT OF THEIR BANKS.

Heavy Rains Cause Overflow, and Much Damage Reported—Water in Some Places Higher Than at Any Time Since 1862.

Boston, Mass., April 17.—Almost continuous rains for the last forty-eight hours and more, accompanied by melting snows among the hills and mountains, have caused the rivers in all parts of New England to rise to the highest point since the great flood of 1862, and widespread damage has been wrought, though up to midnight no loss of life has been reported. No mails from north of Nashua, N. H., have reached Boston to-day. At Lowell the Merrimack is over eight feet above high water mark and many cellars are flooded and houses on the lowlands partially river level. The mills are troubled with backwater and will probably have to rely upon steam altogether. Many mill collars are flooded and the damage can not be even approximately estimated. The Rhode Island rivers have also felt the heavy rains, but the ruin in that state is much less than in the north.

IN CONNECTICUT VALLEY.

Waters Higher Than Any Time Since 1862.

Springfield, Mass., April 17.—The Connecticut valley is the scene of a flood of greater magnitude than has visited this section since 1862. The most damage was done at Bellows Falls, Vt., where the Connecticut river is narrow. An old railroad bridge was swept away and there has been great damage to the Boston and Maine railroad. The tunnel was flooded and rendered impassable. The mills are all closed. At Battlesboro, Vt., the river is higher than it has been since 1862. At Turners Falls the water has overflowed the banks of the river to such an extent that many of the mills have been compelled to shut down. The Consolidated railroad tracks are flooded. At Windsor, Vt., the water has risen thirty feet and business is almost entirely suspended. At Northampton, Mass., the water is three-quarters of a mile wide and the water is higher than it has been in thirty years. Over nine feet of water is going over the dam at Holyoke and many mills have been compelled to shut down. Near Mount Tom the water has overflowed the railroad tracks and trains are delayed.

Country a Sheet of Water.

St. Albans, Vt., April 17.—The Winooski river is higher than it has been for twenty-five years. The country for miles around is one sheet of water, many farms being either partially or wholly flooded. Several villages are using boats and rafts as a means of moving about. Much damage has been done to bridges. The railroad between Proctor and Central Rutland has been abandoned. Many of the residents of Northfield and Central Rutland have been driven from their dwellings, the water having reached the second stories.

Railroads Suffer Washouts.

Portland, Maine, April 17.—All railroads centering here report bad washouts on their lines. In many cases trains have been canceled. The Grand Trunk road is impassable on account of the damage to the roadbed. No trains can get through from Montreal.

River Still Rising.

Augusta, Maine, April 17.—The Kennebec river is still rising and the wharves along the water front are entirely submerged. Millions of feet of lumber are coming down the river. At Brunswick the Androscoggin is the highest ever known. The pumping station is under water.

2,000 Thrown Out of Work.

Westbrook, Maine, April 17.—Over 2,000 people were thrown out of work yesterday on account of the rise in the Presumpscot river, which prevented the factories from running. The river is higher than it has been since 1861 and is still rising.

BEEF TO COME DOWN

Orders Issued That Will Increase the Supply of Meat.

Washington, April 17.—In view of the great rise in the price of beef and the scarcity of cattle the chief of the bureau of animal industry, Dr. Salmon, has recommended to the secretary of agriculture the admission of Mexican cattle into the United States under stringent regulations calculated to insure a rigid inspection of all cattle admitted. It is hoped by this means to check the tendency of excessive prices to the consumer without injuriously affecting the interests of the beef producers. In accordance with these recommendations Secretary Morton yesterday issued a special order allowing importation of cattle from Mexico. Mr. Morton said there was nothing new in the matter of the higher prices for beef. The secretary said there was a shortage of about 275,000 head of cattle, and that the short corn and grass crops in previous years had something to do with the rise. It is expected that Dr. Salmon, who is making the investigation, will go to Chicago before his report is completed.

FOUND IN A BARREL.

Mutilated Remains of a Human Being Discovered by Two Fishermen.

Kansas City, Mo., April 17.—John Sullivan and John Cassidy, fishermen, found a whisky barrel lodged in a pile of brushwood in the Missouri river, one-half mile from the bank at the foot of Lydia avenue. They rowed to the shore and notified the police of their gruesome find. The barrel was brought ashore and when turned upside down the arms and legs of a human being rolled out, followed by the head of a man. Securely wedged in the bottom of the barrel was the trunk of a man. Coroner Redford was notified and went at once to the scene. He ordered the barrel demolished, so that the trunk could be removed. It is impossible to identify the remains, owing to the state of decomposition. In life the man was evidently about 30 years old, clean-shaven, with irregular teeth, three of which are missing. Coroner Redford has not yet investigated the case, but inclines to the opinion that the body was a student's cadaver.

DID NOT GET MACEO.

Denial That the Cuban General Was Captured.

Havana, Cuba, April 17.—Chagrin and anger succeeded the premature election of Capt.-Gen. Calleja over the supposed capture of Jose Maceo, Maceo's double was captured, but not Maceo. Anticipating unusual efforts to capture him, the wily Cuban general donned a disguise and went to the front in command. Col Guerra was the one captured, while Maceo escaped to the mountains with a few of his followers. It is expected, however, that he will be captured, as many small parties are in pursuit of him.

At the head of one of the regiments of Cubans was Brig.-Gen. Crombet, who died a hero. His men, encouraged by inspiring words of cheer, fought like demons, but they were not well disciplined. They were brave, but their recklessness counted for naught when opposed to Spain's regulars. On Crombet's body, which was terribly mutilated by his enemies, were found papers giving names of the leaders and estimates of the strength of the revolution.

Campos' ship was sighted off Manzanillo early yesterday morning. As yet it is not known where Campos will land. Loyal Spaniards say the war has ended.

Maximo Gomez, who has been in Hayti enlisting recruits, landed near Santiago with 600 men. He has gone to the mountains and will attempt to join Maceo. If he succeeds in doing so it is probable that their united forces will give the Spaniards one more battle. Everything seems to indicate, however, that defeat is staring the revolutionists in the face and nothing but a miracle will now save Cuba from the domination of Spain.

WARNING TO ROSEBERY.

Gresham Tells Him Great Britain Must Deal Cautiously with Nicaragua.

New York, April 17.—A special from Washington says: "Minister Gushar was closeted with Secretary Gresham for some time last evening, discussing the Nicaragua situation. If England looks with favor upon Nicaragua's answer to her ultimatum there will be no special anxiety, but if Lord Rosebery regards the reply as unsatisfactory a different and serious phase of the situation may and doubtless will arise. 'From what can be learned from trustworthy sources, Secretary Gresham, through Ambassador Bayard, has informed Great Britain that this country will not permit, without an earnest protest, the bombardment of Greytown and that the landing of British troops on Nicaraguan soil will be viewed as an act inimical to American interests. It is said that Secretary Gresham conveyed the attitude of the administration on these points in earnest terms. One story heard at the state department was to the effect that Mr. Bayard was directed to inform Lord Rosebery that firing upon Greytown or placing an armed force on shore at that place or at Corinto would be an infraction of the Monroe doctrine. It is pointed out that Admiral Meade's fleet has arrived at Colon and is near Greytown, and that the Monterey will reach Corinto about the time the Royal Arthur anchors off the west end of the proposed interoceanic canal. Something may be heard from London today which will clear up some of the existing doubt and apprehension and outline England's intentions."

No small objection which young folks had to the old-time spring-medicine was their nausea. In our day this objection is removed and Ayer's Sarsaparilla is the most powerful and popular purifier is as pleasant to the palate as a cordial.

I am now ready to do all kinds of dress making. Prices reasonable. Three blocks west of Miner's store.—Mrs. F. P. Hadley.

Don't forget that I am prepared to carry passengers to all parts of the city. Leave orders at the Holland House.—LLOYD CRABILL.

CHAS. SCHAFFNIT. Insurance Agency.

Represents the following companies. See card in this paper. Farm property, elevators, and all kinds of mercantile risks, insured in reliable companies at lowest rates.

For rates on terms write or call and see me. Office over Mizer's grocery store, Red Cloud, Neb.

Seed Corn. Choice, sorted, yellow seed Corn for sale by A. L. Hildreth, Cowles, Neb.; or, O. C. Teel, Red Cloud.

Feed Notice. Hereafter William Richardson will feed all teams at the rate of 10 cents for hay. Barn east of Holland House.

Out! Out!! Go to Roby's for oats, he has all you want.

Take Warning. We call your attention and convince you of the fact that you get only 12 ozs in a loaf of bread by not getting your bread of me. You will get one pound, 16 ozs in every loaf at the City Bakery.—JOS. HERRBERGER.

Captain Sweeney, U. S. A., San Diego, Cal., says: "Shilo's Catarrh Remedy is the first medicine I have ever found that would do me any good." Price 50c. For sale by C. L. Cotting.

Market Report.

Table with 2 columns: Commodity and Price. Includes Wheat, Corn, Oats, Eggs, Hogs, Stock hogs, Fat cows, Butter, Eggs, Potatoes, Chickens, Turkeys, Baled Hay.

Pitcher's Castoria. Children Cry for

CASTORIA for Infants and Children.

THIRTY years' observation of Castoria with the patronage of millions of persons, permit us to speak of it without guessing. It is unquestionably the best remedy for Infants and Children the world has ever known. It is harmless. Children like it. It gives them health. It will save their lives. In it Mothers have something which is absolutely safe and practically perfect as a child's medicine.

- Castoria destroys Worms. Castoria allays Feverishness. Castoria prevents vomiting Sour Curd. Castoria cures Diarrhoea and Wind Colic. Castoria relieves Teething Troubles. Castoria cures Constipation and Flatulency. Castoria neutralizes the effects of carbonic acid gas or poisonous air. Castoria does not contain morphine, opium, or other narcotic property. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is put up in one-ounce bottles only. It is not sold in bulk. Don't allow any one to sell you anything else on the plea or promise that it is "just as good" and "will answer every purpose." See that you get C-A-S-T-O-R-I-A.

The fac-simile signature of Chas. H. Pitcher is on every wrapper. Children Cry for Pitcher's Castoria.

ENCOURAGING CROP REPORTS.

Indiana and Iowa Have Excellent Prospects for the Season.

Indianapolis, April 17.—The Indiana weather crop bulletin says: Although cool and cloudy on most days with light frosts on several nights, the weather in general has been quite favorable to growing crops and farm work. Rains fell nearly everywhere on three days, much to the benefit of growing crops.

Des Moines, Iowa, April 16.—The Iowa weekly weather crop bulletin says: The first half of April has given a bright hue to crop prospects, and at the corresponding date there has never been a more encouraging outlook for a productive season. The temperature of the past week was slightly above normal, and all the weather conditions were favorable for completing seeding operations and pushing the work of preparation for corn planting. As a result, farm work is generally more advanced than usual at this time of the year, and the soil is in the best possible condition for the reception of seed.

The acreage of small grain, corn and potatoes will be materially increased, compared with the last three seasons. The week closed with a general rain, giving promise of abundant moisture for present needs in all parts of the state. All reports indicate a good season for fruit.

ARE STILL ON GUARD.

Heavy Rains Dampen the Ardor of the Striking Iowa Miners.

Centerville, Iowa, April 17.—The heavy rains of Sunday night and yesterday prevented any movement of the strikers at Cincinnati. None of the mines along the line of the Chicago, Milwaukee & St. Paul road are running. The strikers moved on them and they came out. Company E of the Second regiment, Capt. Ogle, has been at Cincinnati since Friday. There are also fifteen or twenty deputies armed. The strikers protest they intend no violence, that they are making these demonstrations to induce all the miners to demand the schedule price or not work. There were rumors yesterday that Major-General Prime and Adjutant-General Prime had asked the governor for more troops. It was also said the miners have rifles and dynamite bombs.

Makes Many Marriages Void.

Spokane Falls, Wash., April 17.—Judge Moore of the Superior court has rendered a decision which will have a startling effect upon hundreds of people residing in this state. In the divorce case of Nelson vs. Nelson the court held that a marriage contracted in any state of the union was illegal between two parties either of whom was divorced in this state, provided the marriage took place before the statutory six months had passed in which an appeal could be taken.

Death Recalls a Notorious Crime.

Little Rock, Ark., April 17.—Mrs. Mary E. McCravens, one of the earliest settlers of Plumerville, Conway county, is dead. It was in her house that the Hon. John M. Clayton was murdered.

Hall's Hair Restorer enjoys the confidence and patronage of people all over the civilized world, who use it to restore and keep the hair a natural color.

SPRING IS NOW HERE

And people who have Organs should have them cleaned and repaired, because

MUSIC HATH CHARMS And to have good music, you must keep your organs in good shape. Persons wanting this kind of work done will do well to see me and get my prices.

PERSONS LIVING IN THE COUNTRY

Or neighboring towns will have their work promptly attended to by addressing me at Red Cloud, Neb. Satisfaction guaranteed in all cases.

Wm. Tulleys.

Pasture.

Will take a limited number of cattle to pasture on the Goble ranch eight miles south-west of Red Cloud. Plenty of shade and water. Cattle, \$15.00; horses, \$20.00, for the season. Apply to N. L. D. Smith, at the ranch.

J. W. Wegemann has re-opened his photograph gallery since the fire, and is now getting out the handsomest cabinet pictures at \$3.00 per dozen. Mr. Wegemann does excellent work and his business is increasing rapidly. 12-1f

R. B. Fulton, fire and lightning insurance, Western White Bronze, monuments and cemetery goods. Seed oats and choice upland prairie hay. Office with Traders Lumber Co.

Homeseekers excursion rates on April 23d, one lowest first class standard fare plus \$2.00 for the round trip. Minimum rates shall be \$7.00 to all points in Nebraska, Kansas, Colorado, South Dakota, Wyoming and Utah. Tickets limited to continuous passage in each direction. Going passage to begin on date of sale, final return limit twenty days from date of sale.—A. Cosovia.

For sale or rent—A livery and feed barn. Apply to D. J. Myers, Red Cloud.

Gratitude can sing songs of praise with an empty pocket. I recommend Chamberlain's Pain Balm for rheumatism, lame back, sprains and swellings. There is no better liniment made. I have sold over 100 bottles of it this year and all were pleased who used it. J. F. Pierson, druggist, South Chicago, Ill. It is for sale by Doye & Grice.

The bright side is not always the right side.

Mrs. T. S. Hawkins, Chattanooga, Tenn. says: "Joh's Vitalizer 'Saved my Life, I consider it the best remedy for a debilitated system I ever used." For Dyspepsia, Liver or Kidney trouble it excels. Price 75c. For sale by C. L. Cotting.

The saloon-keeper ruins other men but damns himself.

"Orange Blossom" is safe and harmless as a Flax Seed Poultice. Any lady can use it herself. Sold by C. L. Cotting.

Application for License.

Notice is hereby given that a petition, signed by thirty or more resident freeholders of the first ward of the city of Red Cloud, Nebraska, has been filed in my office in said city of Red Cloud, praying that a license be granted by said city council of said city, to Nelson Longin, for the sale of malt, spirituous and vinous liquors, on lot 5, block 31, (original town) now city of Red Cloud, Nebraska, in the first ward of the city of Red Cloud, that action will be taken on said petition, by the mayor and city council, on the 1st day of May, 1895, or at the first meeting of the council thereafter. Dated at Red Cloud, Nebraska, March 15th, 1895. W. F. WEST, City Clerk.

Application for License.

Notice is hereby given that a petition, signed by thirty or more resident freeholders of the first ward of the city of Red Cloud, Nebraska, has been filed in my office in said city of Red Cloud, praying that a license be granted by said city council of said city, to John Polinsky for the sale of malt, spirituous and vinous liquors, on lot 6, block 31, (original town) now city of Red Cloud, Nebraska, in the first ward of the city of Red Cloud, that action will be taken on said petition, by the mayor and city council, on the 1st day of May, 1895, or at the first meeting of the council thereafter. Dated at Red Cloud, Nebraska, March 15th, 1895. W. F. WEST, City Clerk.

Application for License.

Notice is hereby given that a petition signed by thirty or more resident freeholders of the second ward of the city of Red Cloud, Nebraska, has been filed with the city clerk of said city of Red Cloud, praying that a license be granted by the city council of said city to Mrs. S. W. Stern for the sale of malt, spirituous and vinous liquors on lot 3 (3), block 31, (original town) in addition to the city of Red Cloud, Nebraska. That action will be taken on said petition by the mayor and city council on the 1st day of May, 1895, or at the first meeting of the council thereafter. W. F. WEST, City Clerk. Dated at Red Cloud, Nebraska, this 11th day of April, 1895.
