At last the mystery is solved. We have been wondering all along why Edward J. Overing, Jr. has been rushing off to Red Cloud every Saturday with that degree of punctuality which marks every footstep of the man who (as Puck defines that mysterious thing called love) "an inward sensation of inexpresibility with an outward feeling of all-overness."

The Red Cloud Chief tells us not to fear; that the Red Cloud firemen have no equals as volunteer firemen in Superior nor elsewhere. The fire records of the two towns will prove this assertion. We think ourselves that after Superior the Red Cloud boys come next.—Superior Star.
