From early childhood until I was grown my family spent a fortune trying to cure me of this disease. I visited Hot Springs, and was treated by the best medical men, but was not benefited. When all things had failed I determined to try S. S. S., and in four months was entirely cured. The terrible Eczema was gone, not a sign of it left; my general health built up, and I have never had any return of the disease.

I have since recommended S. S. S. to a number of friends for skin diseases, and have never yet known a failure to cure. Never fails to cure, even after all other remedies have. Our Treatise on Blood and Skin Diseases mailed free to any address.
