Preserve your seats before the rush, as the house will be crowded.

An Interesting Letter.

The following letter was received by J. L. Miner, of this city, and handed to us for publication, thinking that the attention of every farmer should be called to this most important matter, the Rus-

FERMAN, N. D., June 14, 1895.

MR. J. L. MINER, Red Cloud, Neb., DEAR SIR:-I have just finished my work in South Dakota, and a few days ago came into this state. The wheat Mrs. J. Nustein and daughter depart- crop in the two Dakotas is looking very ed Wednesday for a visit in St. Jo and fine. Farmers here say that they have not had a better prospect for 10 years. The acreage in South Dakota is small, however, as the farmers are, as a rule, very poor and could not get the seed I think there is at least 25 per cent of the cultivated land in northeastern South Dakota that is not in any kind of a crop. There is more corn planted than usual because it required less seed. It is a poor corn country. I learn that 25 bushels is thought a good crop. This coun-Waverly bicycles, the best in the try has seen harder times, and are havworld, for sale by W. W. Wright. Prices ing harder times now, than we have in reasonable. See him if you want a Webster county. Wheat is the only crop to make money (except flax) and Miss Beatrix and Max Mizer departed they have but one paying crop in quanwill make an extended visit in New had a very low price. Everything in the north half of South Dakota denotes A. G. Willis, H. W. Brewer, A. J. Tul. poverty, deserted farms, farm buildings ing effect of no money. There is considerable hilly and stony land in South fluence, one could see the likeness of Dakota, also streaks of light sandy land. Will not average but little better in soil glowing tribute to the missionary who and surface than Webster county, and left home and luxury to civilize the there is not as good a town in northeast cannibal. How he, day by day, put South Dakota (outside of Watertown of Guide Rock, was buried last Sunday, and Aberdeen, which are railroad cen-Rey. Geo. O. Yeiser officiating. She had ters) as old Red Cloud. I am told now

that I am just on the edge of the good tiful word picture he said: "See a miscountry in North Dakota. Just north W. S. Bense, the popular proprietor of of me is the great Red River Valley that months, going back to the wilds of Afrithe Bon Ton bakery, presented the Big Dakotans refer to as "the greatest land ca, saying to the men and wowen, I have Injun and his braves with some extra on earth." I have business near the not only given you spiritual food but I fine ice cream one day this week. He's great Dalrymple wheat farm and will try have brought you p-ts, and just a "cool saucer" on making rich ice to see it. The one great curse of the then the thought struck the good Dakotas is the Russian thistle. It's man that the women couldn't wear Sheriff Runchey found the two cows blighting effect cannot be overdrawn as pants, and he quickly changed the word that were stolen from Smith Center at far as appearances go The most deso- to suits. Sam Jones.

It is not often that Red Cloud people rifted an orator as Sam Jones. On last Wednesday night, however, the opportunity came, and the opera house was literally packed with people from all over the county and for twenty miles distant. Sam Jones is a unique character, and is a host within himself. As a pulpit orator, he has no equal when it comes to saving people from their iniquities. He has a peculiar way of entertaining his audience that touches them at once with his honesty of purpose. He tells facts in a much different way than most men. He places the follies of men in a different category than they have been used to seeing them in which he sends conviction and disgust at the same time to the man of wicked ways. His lecture at the opera house on "Get There and Stay There" was prolific with humor, mingled with brilliant thoughts, and enriched with those trite sayings, such as no man but of the Sam Jones stripe could utter without offending his audience, Every word was a two-edge sword, cutting deep into the baseness of human depravity. As a lecturer he is a side splitter; as a divine he is an immense power. The large audience was held spell-bound for two hours while Jones poured the consomme into them in one continuous stream. He is a pleasant speaker, having enough of the southern twang to make his conversation pleasant to listen to. He left enough food for thought in Red Cloud to keep the people feasting for weeks to come. The lecture was a rare treat and the drubbing that politicians and political parties received at his hands was sufficient to set the people thinking for themselves for some time to come. His contrasts were neat, his drollery pleasant

and his humor out of sight. Recently a preacher, not over a thousand miles from Red Cloud, preached on the text: "I will make man in my own image." He then went on to tell the congregation how uply the savages were, yet, when toned down by Christian in-God in their countenance. He paid a his best efforts forth in that direction, and how he not only gave them spiritual food but took them clothing. In a beausionary after he had been away for six

A fine story is told on one of the young business men of Red Cloud. It seems that when he retires at night he places his pantaloons on a chair in a certain place near the bed, so as to be able to find them in case of fire. One jumping out of bed, he went to the window to locate the blaze. On turning round to don his wearing apparel, he discovered that he was unable to find those articles, and, hunt as hard as he might, he ran across the wrong chair; but, as he gently raked his shin on the edge of the bed, a happy thought struck apparatus, he lay his head on the pillow a fraction of a second and then, with s mighty bound, he reached the floor and went straight to the objects of his search, jumped into half of them, and compass needle points to the north, so
