## Tired, Weak, Nervous Could Not Sleep.

Prof. L. D. Edwards, of Preston, Idaho, says: "I was all run down, weak, nervous and irritable through overwork. I suffered from brain fa-tigue, mental depression, etc. I be-came so weak and nervous that I could not sleep, I would arise tired, discouraged and blue. I began taking

Dr. Miles' Nervine and now everything is changed. I sleep soundly, I feel bright, active and ambitious. I can do more in one day now than I used to do in a week. For this great good I give Dr. Miles' Restorative Nervine the sole credit.

It Cures."

Dr. Miles' Nervine is sold on a positive guarantee that the first bottle will benefit. All druggists sell it at \$1,6 bottles for \$5, or it will be sent, prepaid, on receipt of price by the Dr. Miles Medical Co., Eikhart, Ind.

DR. H. J. WHITTIER,

HAIL THROUGH THE ROOF.

The Family Saved Their Lives by Crawl-

ing Under the Beds. One of the worst hailstorms this section has experienced in many years ricio and Neuces counties last Wednesday night about 9 o'clock, says the Corpus Christi Caller. The hail, which was followed by a heavy rain, lasted only a few minutes, and while it covered a good piece of territory, the destructive wide, commencing in San Patricio south across Nueces Bay into this county, taking in on its march the farms of J. H. Roark, John Dunn and others in that neighborhood, west of the city. Mr. Roark, who was in town last evening, about seventeen miles from this city, at the head of Nueces Bay, where hallcompletely ruined the farms of C. L. Moore, R. A. Anthony and A. Willnhe had growing nicely between ninety and one hundred acres of cotton, besides several acres in melons and other products. He had a good home and felt easy. That night the hall came and swept all his crop away except two acres of potatoes and one-half acre of ribbon corn. The hailstones came down through the roof of his house, making holes large enough to throw a cat through them. His wife and children had to take refuge under the bed. His mother, aged ninety-eight years, saved her life by getting under the bed also. The family were nearly frightened to death, and his wife is laid up in bed from the effects of her experience, though his mother stood it well. The large hallstones, which were of all shapes, tore the roof off his kitchen. and dining-room, broke all his dishes, killed his chickens and turkeys, which, if they could have been spared to him, would have helped him make a living. Mr. Moore says that after the storm was over the hall could be seen banked up in the yard like snow. When he left home yesterday at 11 o'clock a mass of hall was seen at the corner of his house as large as a bucket. His animals suffered the least; the storm blew his fences and pig pens down and his stock ran among the timber and escaped with little injury.

On one of these occasions recently he went and stood looking down at the work which one of the clerks was doing. The man at work never looked up. He thought it was one of the other clerks who occasionally bothered him. "What the devil do you want?" he asked. There was no response. The other clerks gasped for breath. A deathlike stillness prevailed, and the working clerk looked up to meet a smile on the countenance of the president. SEWING MACHINES POPULAR? BECAUSE LADIES BUY THEM LIKE THEM AND TELL THEIR

Many ladies have used our machines twenty to thirty years in their family work, and are still using the original machines we furnished them a generation ago.

Many of our machines have run more than twenty years without repairs, other than needles. With proper care they never wear out, and seldom need repair.

We have built sewing machines for more than forty years and have constantly improved them. We build our machines on honor, and they are recognized everywhere as the most accurately fitted and finely finished sewing machines in the world. Our latest, the "No. 9," is the result of our long experience. In competition with the leading machines of the world, it received the Grand Prize at the Paris Exposition of 1889, as the best, other machines receiving only complimentary medals of gold, silver and bronze. The Grand Prize was what all sought for, and our machine was awarded it. The Grand Prize was what all sought for, and our machine was awarded it.
