THREE WHITES KILLED BY INDIANS  
--THE MURDERS AVENGED.

SIX INDIANS SHOT DOWN.

**A Settler and His Wife and Child Slain by Bannocks—Armed Whites Shoot the Red Men—The Situation in the Jackson Hole Country Grave—Federal Troops Ordered to the Scene.**

POCATELLO, Idaho, July 25.—Union Pacific Engineer Robert Fitzpatrick, who brought the north bound freight train here last night, reported that the Bannock Indians had killed a settler and his wife and child in the Salt river valley, and that the white men pursuing the Indians killed six of them before they escaped to the mountains. Mail Carrier Vail, from Star valley, also told the same story.

The excitement among the settlers in Northwestern Wyoming over the threatened uprising of the Bannock and Shoshone Indians is growing more intense daily. They are leaving their ranches in large numbers and gathering at favored points for mutual protection in case the Indians return to seek vengeance for the death of their brother braves.

It is stated that the foraging Bannocks are receiving supplies of government rations forwarded by those remaining at the reservation, and that several hundred Shoshone bucks from the Wind river reservation have started to aid the Bannocks.

**Federal Troops Ordered Out.**  
 WASHINGTON, July 2.—The secretary of the interior has requested the secretary of war to send troops to the scene of the Indian disturbance in Wyoming, and it is understood that the request will be granted as soon as the official papers are received by the secretary of war.

The action of the interior department was taken upon receipt of the following dispatch this morning from Indian Agent Teeter:

I have investigated the troubles between the Indians and settlers in Wyoming and advise that troops be sent there immediately to protect the law-abiding settlers. The lawless element among the settlers seem determined to cause conflict with the Indians. The settlers have killed four to seven Indians, which has incensed the Indians who have gathered to the number of 200 or 300 near Fall River, Uintah county, and refuse to return to their reservation. I find that the Indians have killed game unlawfully according to the laws of Wyoming, though not unlawfully according to the treaty of the Indians with the United States, thus usurping the prerogatives of the settlers, who caused the trouble. Nothing but the intervention of the soldiers will settle the difficulty and save the lives of innocent persons and the destruction of property.

**The Indian Side of the Case.**  
 SALT LAKE, Utah, July 25.—Benjamin E. Rich, editor of the paper at Rexburg, within fifty miles of the settlers' fortifications in Wyoming, in an interview, says the Indians have not returned from the hunt explained that he had killed three elk and was arrested, while the white men arresting him had killed five. The Indians, Rich said, could have been brought out into trouble if they had been handled properly, but the settlers took matters into their own hands without appealing to the agent. They descended upon the Indians and arrested a number of them. These were tried before a justice of the peace and fined heavily, the aggregate amounting to \$1,200. The Indians could not pay it and were herded by armed men in a manner calculated to arouse their resentment. One batch was escorted by a body of armed men after having their guns taken away. They were passing over a trail where the Indians had been accustomed to ride in freedom. It was too much for the Indian nature and the captives made a break for liberty. The guards at once opened fire at the fugitives and killed several, reports varying from five to seventeen. They reported that they had killed only one, but five riderless horses went over the trail. As a result the Indians are mad and may make trouble. There are many rumors afloat, but lack verification. It is a fact, however, that 200 of the Shoshones are missing from the reservation and have gone to help the Bannocks.

**A Congressman's Brother Missing.**  
 VICTOR, Col., July 25.—About three weeks ago Victor Hainer, a brother of Congressman Hainer of Nebraska left here to walk to Cripple Creek, six miles. Nothing has been heard of him since. Nothing was thought of his absence until a letter from Congressman Hainer inquiring as to his brother's whereabouts, caused search to be made. The missing man had considerable money and it is feared he met with foul play.

**A Firebug Confesses.**  
 KENOSHA, Wis., July 25.—Bernard Rosenow, one of the men arrested in connection with the burning of the plant of the Chicago Bedding company, has confessed to applying the torch and implicates M. E. Stemm and Detective Cowie. According to his statement, he was to receive \$300. He says that one of the men under arrest made him the offer, but he only received \$50 after the job was done.

**Wesley Davis at Home Again.**  
 TOPEKA, Kan., July 25.—Wesley Davis of Roswell, in this county, who lost so heavily in grain at Kansas City some weeks ago and afterward disappeared, has returned to his home. He declines to give an account of his absence.

**It Needs Some Killing.**  
 The creature most tenacious of life is the common sea polyp. If one be cut in two, two creatures are the result. One may be slit into half-a-dozen sections, making as many animals. They may be turned inside out, when they apparently enjoy themselves just as well as before; if two be divided and placed end to end, the result will be a monster having a head at each extremity.

**THE BANNER OF LIGHT.**  
 EDITOR OF A GREAT PAPER CURED BY PAINE'S CELERY COMPOUND.

The Banner of Light is, as every one knows, one of the most successful denominational publications issued in this country.

In its 77th volume it is at once conservative and bright, discussing not only modern Spiritualism, but frequently lending its influence fearlessly in matters of public importance outside its principal field.

Mr. John W. Day, who is the editor and one of the proprietors, writes in The Banner of Light as follows to the proprietors of Paine's celery compound:

"I owe you a debt of gratitude in placing on the market such a nerve-easing and soothing remedy as Paine's celery compound. It was brought to my notice by a friend who had himself been greatly relieved by its use, as I have also been.

"I have frequently taken occasion to commend Paine's celery compound to others, and I do not know an instance wherein, if faithfully tried, it has not worked a benefit.

"Yours truly, John W. Day."

Mr. Day's portrait is given above. He is a member of the Masonic, Odd Fellows, Grand Army and other fraternal organizations, and is highly esteemed by his brethren and others in the social life.

His gratitude for the good that this greatest of remedies has done him is in no sense remarkable. Thousands who have been made well by Paine's celery compound have sent unsolicited testimonials to the proprietors of the remedy or direct to medical journal or newspapers telling for the benefit of others the results that have followed the use of the remedy that is food for the nerves and brain, that enriches the blood, that make the weak strong and is the one never-failing specific prescribed by physicians and recommended by all who have ever faithfully used it, for insomnia, nervous debility, neuralgia, rheumatism, indigestion and the many ills that come from deranged, worn-out nerves and impure blood.
