The Mount Lebanon Shakers have recently perfected an ingenious cure for dyspepsia. Their Digestive Cordial consists of a feed already digested and a digester of foods happily combined.

The importance of this invention will be appreciated when we realize what a proportion of the community are victims of some form of stomach trouble. Thousands of pale, thin people have little inclination to eat, and what they do eat causes them pain and distress.

This Digestive Cordial of the Shakers corrects any stomach derangement at once. It makes thin people plump. Every one will be greatly interested to read the little book which has been placed in the hands of druggists for free distribution.

BOLD OUTLAWS IN OMAHA.

Twelve Bandits Hold Up a Carriage Filled With Passengers and Rob Them.

OMAHA, Neb., Sept. 5.—A band of twelve masked men held up a carriage load of people in an Omaha suburb early yesterday morning and secured several hundred dollars. It is an organized gang which has long evaded the police. There were four persons in the carriage who had been in the city enjoying themselves. When but a short distance from Benson and near a clump of trees, figures emerged from the shadows as if rising from the earth and surrounded the carriage. Two men held the frightened horses by their bridles and nine climbed in about them in a threatening way, while the twelfth man stood outside the circle and gave commands. After the cautious commands the inmates of the carriage were told to get out and to line up. The four men lined up, standing on their tiptoes with their hands above their heads.

One of the robbers searched each man in turn, taking everything of value, casting the plunder upon a robe that was thrown on the ground. When this was accomplished the four men were told to throw their hats on the ground with their coats and under cover of pistols were ordered into the rig and told to drive away as fast as they could.

When the men reached Benson they alarmed the neighbors, who formed a posse and started for the scene of the robbery. The hats and watches were found lying on the robe where they had been thrown. Nothing else was discovered.

DEATH IN THE CHOWDER. Sensational Developments Arising From the Death of Mrs. Evelina Bliss.

New York, Sept. 5.—The funeral of Mrs. Evelina Bliss, a wealthy lady who died last Friday, was held yesterday and immediately afterwards the daughter of the dead woman, Mrs. Alice Fleming, was arrested at the Colonial hotel on a charge that she murdered her mother by poison.

The case is a mystery, and in some respects a sensational one, as the death of Mrs. Bliss gives to her daughter the income of an estate of \$300,000 left by her husband Swift Livingstone, who was the first husband of Mrs. Bliss. To Dr. Bullman, who was summoned to her bedside Friday night, Mrs. Bliss said that she had been poisoned by relatives who would be financially benefited by her death. She said that she had eaten clam chowder and a piece of apple pie. The doctor says that Mrs. Bliss' attendants failed to give her the medicines he left for her. He secured the dish in which the chowder had been, and a piece of the pie and gave them to the coroner. The coroner had an examination made of the dead woman's stomach, by Chemist W. T. Scheele, who says that he found traces of metallic poison in the stomach, and also in the dish which had contained the chowder and that it had evidently been very skillfully prepared by some one with a knowledge of poison.

ST. ANN'S BURNED. One of the Oldest Catholic Schools in Kansas Destroyed.

PARSONS, Kan., Sept. 5.—St. Paul, fourteen miles northwest of here, was visited by the most serious fire that has occurred in this section for many years. About 9:30 o'clock yesterday morning fire broke out in the ironing room of St. Ann's academy, and in a very short time the whole structure was in flames. The students in the building barely escaped with their lives. The town is without fire protection and the flames soon spread, and in less than two hours the academy and five adjoining buildings were in ashes. The school is one of the oldest Catholic seminaries in the West, and the loss is estimated at \$100,000, with \$50,000 insurance.
