

DR. KILMER'S SWAMP ROOT THE GREAT KIDNEY, LIVER AND BLADDER DISSOLVES GRAVEL... Bright's Disease... Liver Complaint... Catarrh of the Bladder...

ODDS AND ENDS.

Dr. Damorell was in town Tuesday. Miss Leonne Fowler was in Lincoln this week. D. M. Able and wife are in Omaha this week. Randolph McNitt returned from Lincoln on Tuesday. Mrs. J. G. Sapp was visiting in Guide Rock the first of the week. Mrs. Charley Milligan and children returned Saturday from a visit to Oberlin. Mrs. C. J. Pope returned to Lincoln Wednesday where she will reside in the future. H. E. Pond and wife have gone to Louisville, to the National G. A. R. encampment. A great many peaches are being sold on our streets just now, most of which come from Kansas. The dyking at the mill is almost completed and in a few days more will be in shape to run the mill. Miss Florence Cotting went to Beloit, Wis., Wednesday, where she will spend a year with her grandmother. J. L. Miner is home from Chicago He left Miss Margaret in Kansas City, where she is being treated for an affection of the ear. Come out to the Webster county fair and bring everything that you have grown or manufactured during your residence in the county. Mrs. C. Johnson, of Council Bluffs, Iowa, sister-in-law of D. F. Scammon and wife will visit with them and other friends in Red Cloud for some weeks. Miss Nettie Bostwick, who has been making an extended visit in this city with her sister, Mrs. H. O. Spellman, returned to her home in Covert, Mich., Wednesday. Everybody will be fully repaid for their trip to Red Cloud this year, as the program will interest every one. Bring along the watermelons, big beets, turnips and squashes. The number of people aside from farmers who are interested in the Webster county fair include the merchants, mechanics, bankers, artists, bakers and the long list that go to make up a community. Rev. E. J. Randall, formerly pastor of the first M. E. church of this city, was in Red Cloud this week visiting old friends. He rode over from Kearney on a bicycle. His old friends were pleased to see him. Republican City will have an Old Soldiers' and Settlers' reunion, to be held in that city September 23 to 28. A number of prominent speakers have been engaged and it promises to be a gathering of no mean proportions. Rev. C. R. Welden, who has served as pastor of the First Baptist church in this city for the past few months, departed this week for Chicago, where he will attend college. Mr. Welden is a young gentleman of rare intellect, and we wish him success through life. We omitted to mention last week the water-melon party given by Misses Carrie and Nettie Hummel to their friends before leaving for Lincoln where they are to take up their winter's study. A very pleasant time was reported. The young ladies left Friday for Lincoln where they will attend the Wesleyan college. Jos. Taylor living in Guide Rock township has a fine apple and peach orchard that he has put in several years trying to make grow. This year he has a fine prospect for peaches and apples—but for a number of miscreants who stole the fruit he would have had 100 bushels of fine peaches and a large number of apples. The Chief acknowledges a fine basket of the delicious fruit. On Tuesday afternoon Cloyd Cummings' horse took a notion to have a time all alone, and started up the street at a 2:40 gait. Turning the corner at 4th avenue, the wagon got rattled, and run into another buggy and turned it over so quick the horses didn't even blink. At the postoffice the runaway got so badly tangled up that it couldn't go any farther. No serious damage was done.

The Webster county agricultural society want the best efforts of every resident in the county. John Foster found a pocket book. The owner can have same by proving property and paying for this notice. Mrs. H. O. Hyle of Oregon, who has been visiting the family of Editor Warren, has gone to Lincoln, on a visit. Mrs. Mollie Neelander and Miss Sylvia Cook of Iowa, are visiting at the residence of Mayor Bentley, this week. The dwelling of C. E. White, six miles south of this city burned Saturday, with all the contents. Insured for \$300. Loss \$200. E. McFarland was hunting the owner of a swarm of honey bees that located in his cellar Thursday. Mack says they were the hot stuff. Edgar Cotting left Thursday for Beloit, Wisconsin, where he will attend college. Edgar is a bright boy and will make a success of life. No matter how busy you may be you can afford to spend a little time this year and lay everything aside for general recreation at the fair. The revival meetings at the Baptist church are attended with increasing interest. Several requests for prayer have been made. The church is taking steps looking to the permanent settlement of a pastor. Miss Emma Kopsisch the 19 year old daughter of A. Kopsisch of Blue Hill died on Saturday last and was buried Monday, Rev. G. W. Hummel officiating. She was a very promising young lady and a graduate of the Blue Hill schools. There is no way on earth that we can see that Treasurer White can be beaten. That is if the people want to elect a man who has collected more back taxes than all the other treasurers put together. He is an exemplary officer and has done his work well. The republicans have a reputation for putting up good men all along the line. A man with a family of husky sons lives in Dundy county. Two years ago one of the boys went to Montana, and the old gentleman has persistently urged his return. In response to his latest appeal the son wrote that he didn't propose to let go of his equities out west for home in a state "where nothing had been raised in two years except the age of consent."—State Journal. Rev. H. O. Spellman and family accompanied by Miss Florence Cotting left for Chicago on 16 Wednesday. The former goes to Michigan to live and Miss Florence goes to Wisconsin to visit her grandmother during the winter. Mr. Spellman is a very pleasant gentleman and we have no doubt but the church will miss him in its religious work. It is to be hoped that the Burlington folks will see to it that their news agents on their trains running through Red Cloud are not permitted to swindle the people by the gold spectacle racket. The story as played on two or three ladies recently run about as follows: The fellow puts a pair of gold washed spectacles in a book, then carefully drops them into some lady's lap, or some one that he thinks is gullible, goes away, comes back, tells the party that the spectacles are gold, that some one had left them on the train, that they were worth \$3, but he will let them go for a dollar. The fellow worked the racket on a lady from Colorado, but when she discovered the fraud she compelled the return of her dollar. Such insidious conduct should be stopped.

Charley and Sheridan Phares, who have been making an extended visit with relatives in this city, returned to their home in Topeka Thursday. By a notice in this issue it will be seen that Postmaster Cowden has decided not to open the post office hereafter on Sunday evenings. A very good move as there is no crying demand for it. A special prize has been arranged for, to be given to the lady or gentleman who will appear in the bicycle display at the fair, on the grounds of the Webster County Agricultural Society, October 10, 11 and 12, and assisting to make up the number to twenty-five wheels and riders. The most unique and original costume is desired, and a silk flag or banner worn in arch rider's cap.

One pound best Japan tea in the city for 20cts. You can buy this tea from any house in the city for less than 30cts a pound. One sack of flour, a dandy for 80 cents. Will cost you \$1 anywhere else in town. Above I give you a few of our reduced prices and I kindly ask you to give my ad close inspection each week and keep posted. You will always come here to buy your goods. Why? Because you get better goods for less money than anywhere else in the city. Next week my ad will appear in the Nation and Chief. Look out for prices. Indications are for cooler weather, but prices will remain neglected down. My ad has been somewhat neglected lately but in a few days I will have more help and then I can give more time in looking up bargains for my customers. Don't forget you always get the best prices for butter, eggs and all kinds of produce. Yours respectfully, B. F. MIZER.

The entire beetcrop of Nebraska; has been "laid by" for several weeks and its present condition, taken as a whole, is very good indeed, more so than fulfilling the most hopeful expectations of the early part of the season. Any danger of the crop being diminished by drouths has been long since overcome by the timely showers, while the recent heavy rains have given a strong impetus to development of the roots, in consequence of which a very heavy acreage yield is looked for, in fact with a continuance of such favorable conditions the total quantity of beets that the two factories will before mid-winter convert into some thousands of tons of granulated sugar will be nearly three times larger than ever before. To facilitate the harvesting by permitting it to be taken at easy stages and without conflicting with other farm work that comes at the same period, many of the farmers are already taking advantage of the company's offer of an increased price for siloing a part of their crop. The beets are stored simply and safely in trenches made in the field until called in by the factory, and the innovation bids fair to be as popular here as it is in Europe. The heavy demands for the beet pulp weeks in advance of the operation of the factories proving that another custom borrowed from abroad is rapidly gaining a firm footing here as well as demonstrating the permanent value of this new food product. There is nothing to prevent anyone concocting a mixture and calling it "sarsaparilla," and there is nothing to prevent anyone spending good money testing the stuff; but prudent people, who wish to be sure of their remedy, take only Ayer's Sarsaparilla, and so get cured.

Penny Wise and Pound Foolish

There is no interest so valued in Red Cloud as that of our business men. They are heavy tax payers, so of course represent the principal commercial interests of our city. An injury to our business men means the cutting down of both their prestige and business. In reviewing these facts it is not necessary to say that without them Red Cloud would be only a blot on a vast prairie. We must have them and must treat them white. In fact to cut a long story short we refer to the sprinkling of our streets. These merchants bring in fine stocks of goods valued at many thousands of dollars and to have them covered with dust and filth is not justice to them and is as foolish as it is unnecessary. There seems to have been enough money to grade the streets and so on, but not enough for sprinkling streets. Main street was cut up and graded and left in a dusty shape, and then an order issued forbidding the use of water for sprinkling streets on the plea that there was not sufficient funds to buy coal. There should be enough money to buy coal found somewhere. The merchants are entitled to consideration and the council should remember that as representatives of the people that they are there to study the interests of the merchants as well as others. Mr. Eames has offered to pay the ordinance price for water \$2.50 per block—i. e. which means if construed correctly around—entirely around the block—and not just a fourth around, but the officers have construed the ordinance to mean in front of business houses. THE CHIEF is aware that the city's finances are very low, and therefore difficult to secure enough to make improvements and do all the things that could be desired, hence, we believe that in the interest of all concerned the other improvements should be dispensed with for the time being and the money used in sprinkling streets if it is possible to do so. The business men want relief and it is only just and right that they have it without quibbling. It does not cost over 3 1/2 cents per 1000 gallons to put the water in the stand pipe. Suppose we base our statements on 9000 gallons per day for 25 days, (which hardly ever occurs) at 3 1/2 cents per 1000 gallons, which would make the cost of water for a month's sprinkling \$7.87. According to the ordinance rate of \$2.50 per block the water tax as paid by the street sprinkler would be about \$12.50 as per estimate made by a former water commissioner, leaving a net balance in favor of the city of \$4.50 or more per month. It seems to us from these figures that there is a discrepancy between this and the sum that the council in their meeting stated. They said it would require \$60 per month for coal alone to keep the sprinkler going, but possibly there is a leakage somewhere that would absorb the balance. For this and other reasons we think the council had better reconsider their actions in this matter as it has been reported on the streets that an indignation meeting would be held if the council persisted in refusing to let the sprinkler have water. We believe that the council would rather not have this happen. NOTE—Since the above was put in type the council have permitted Mr. Eames to use twenty tanks per day. The council could not have done a more worthy act. The merchants are always entitled to consideration in all public matters where their business is hazarded. The death of Mrs. Helenna Wyke, wife of Leopold Wyke, one of the oldest settlers in this section, occurred very suddenly and under peculiar circumstances last Saturday. The particulars as near as we could learn are as follows: She went out into the garden about 11 o'clock to get some vegetables for dinner apparently as usual, but as she did not return one of the family went out to see what was the cause of her delay. She was found lying across a broken down fence, life having been already extinct. The county coroner was notified who came over from Red Cloud Sunday. An inquest was held and the jury gave a verdict that death was caused from heart disease. Mrs. Helenna Wyke was 51 years of age. She leaves a husband and several children who mourn her premature death. The funeral services occurred from the Catholic church at St. Stephens on Monday 10 o'clock a. m. A large concourse of sorrowing friends followed her remains to the last resting place.—Lawrence locomotive.

JUDGE BENT got himself into a kettle of hot water by deciding against the board of supervisors in Hastings. They refused to redistrict the county according to law and the judge decided that they should obey they law. Now he does not know how to fix it up.

DEFENDER and the Valkyrie have run two races for the American cup, out of three to be sailed the Defender winning first and the English boat second by fouling the Yankee boat. The American ship will win the next race and then Johnny Bull can go home as she has done for fifty years. Yankee ingenuity will always exceed that of the English in ship building.
