If we read the dispatches correctly Mr. McKeighan made a speech at the populist state convention. It was a sort of a eulogy on every populist office holder in the state, and it laid down the law as to the pelicy to be pursued in that convention. Mr. McKeighan opposed fusion. This man who has been on his knees to the democrats of the fifth congressional district two times, begging, yes, pleading for fusion on himself, now opposes fusion, that others may not be elected. This man who has stood gorging bimself at the public crib for four years because the democrats of this district were twice urged to fuse on him, now preaches "middle of the road" politics. There is consistency for you. If this were only all. But following the lead of Mr. Mckeighan the populist state convention neminates for supreme judge, a man who always has been and is now a republicas, and the men who nominated him knew it. Middle of the road politics? do the populists call it middle of the read polities to go clear outside of their party to find a candidate in the republican party? This may be Mr. McKeighan's idea of middle of the road politics. The Democrat is

pleased to note that Mr. McKeighan

is opposed to fusion. If this policy should become general we would have the satisfaction of knowing, that no popul st would ever hold office anywhere, because they couldn't do so sey as teacher. without democratic votes .- Adams County Democrat.

What use is there in eating when food does you no good--in fact, when it does you more harm than good, for such is the case if it is not digested. If you have a loathing for food there is no use of forcing it down, for it will not be digested. You must restors the digestive organs to their natural strength and cause the food to be digested when an appetite will come and with it a relish for food. The tired, languid feeling will give place to vigor and energy, then you will put flesh on your bones and become strong. The Shaker Digestive Cordini as made by the Mount Lebanon Shakers contains food already digested and is a digester of food as well. Its action is visit. prompt and its effects permanent.

Why Was It that Ayer's Sarsaparilla, out of the great

number of similar preparations manufactured throughout the world, was the only medicine of the kind admitted at the World's Fair, Chicago? And why was it that, in spite of the united efforts of the manufacturers of other preparations, the decision of the World's Fair Directors was not reversed?

#### BECAUSE

According to Rule 15—"A ticles of that are in any way dangerous or offensive, also patent medicines, onostrums, and empirical preparations, whose ingredients are concealed, will not be admitted to the Exposition," and, therefore-

Because Ayer's Sarsaparilla is not a patent medicine, not a nestrum, and not a secret preparation.

Because its proprietors had nothing to conceal when questioned as to the formula from which it is compounded.

Because it is all that it is claimed to be -a Compound Concentrated Extract of Sarsaparina, and in every sense, worthy the indorsement of this most important committee, called together for passing oupon the manufactured products of the
