Why Was It

that Ayer's Sarsaparilla, out of the great number of similar preparations manufactured throughout the world, was the only medicine of the kind admitted at the World's Fair, Chicago? And why was it that, in spite of the united efforts of the manufacturers of other preparations, the decision of the World's Fair Directors was not reversed?

BECAUSE

According to RULE 15—"Articles that are in any way dangerous or offensive, also patent medicines, nostrums, and empirical preparations, whose ingredients are concealed, will not be admitted to the Exposition," and, therefore—
Because Ayer's Sarsaparilla is not a patent medicine, not a nostrum, and not a secret preparation.
Because its proprietors had nothing to conceal when questioned as to the formula from which it is compounded.
Because it is all that it is claimed to be—a Compound Concentrated Extract of Sarsaparilla, and in every sense, worthy the endorsement of this most important committee, called together for passing upon the manufactured products of the entire world.
