October 28 will long be remembered by the people of Judson and vicinity, it being the 25th anniversary of the marriage of Mr. and Mrs. Wm. Hooper. At an early hour in the evening, neighbors and friends of the couple began to arrive at their residence taking them completely by surprise, and with their well filled baskets were soon busy preparing a supper that was fit to grace the table of a king. Everybody gave themselves to the en joyment of the occasion and the time was pleasantly spent in conversation and song. Before supper was eaten the Rev. J. T. Stones performed a meck marriage ceremony which was heartily enjoyed by those present. At the close of the evening Rev. J. T. Stones, in behalf of the neighbors and friends assembled, presented the worthy couple with two rocking chairs, to which Mr. Hooper feelingly responded, referring to the time when he settled in this county eighteen years previous, without money and without friends, but with a hope in Christ. They were also the recipients of two napkin rings and a lovely card receiver presented by Mrs. Adolph Ring and Mrs. Jos. Herburger of Red Cloud. All felt that it was good to be there and dispersed to their homes wishing the happy couple many returns of the day. Those present were Rev J T Stones and wife, R Stones and wife, J Corbett wife and children, G Mountford and wife, F L Smith, wife and daughter, Wm Barrett and daughter, J L Graves and wife, Mr Cadwell and wife, A Ring and wife, B Ring, wife and sone, Rert Cameron wife and son, Mr Brigge and wife, Mrs. Deeks, Geo Bohrer, wife and daughter, J Billings and wife, Geo Evans, Mr Orabb and wife, Geo. It having been brought to our notice that dissatisfaction exists among the farmers regarding the testing of their beets, we wish to make the following suggestion: That the farmers procure s chemist, appointed by the Governor or recommended by Professor Nicholson of the State University, who shall check the tests made by the factory chemist. We would suggest that the farmers also appoint some one to select the samples from the wagons and cars with our own sampler; that these beets be cut in half and be given to each chemist so as to avoid any possible error by difference of sample and if the farmers' chemist proves to be accurate and just in his work we will accept his tests in case they differ from our own.

Hummel, after which the deceased was taken to the Webb Hill cemetery for its last resting place.

A drowning man would have little us for a method of resone which would require days. A d; speptie doesn't want to bother with a remedy that is going to take weeks to show its beneficial effects. The Mount Lebanon Shakers are offering product under the name of Shaker Digestive Cerdial which yields immediate relief. The very first dose proves beneficial in most cases; and it is ewing to their unbounded confidence in it, that they have put 10 cent sample bottles on the market. These can be had through any druggist; and it will repay the affeted to invest the trifling sum accessary to make a trial. The Shaker Digestive Cordial relieves by resting the stomach and aiding the digestion of food.

Here is another case showing that there are few remedies which cure deep-seated blood diseases. Eczema is one of the most obstinate blood troubles, S. S. S. wipes out completely this disease, as well as all other evidences of impure blood whether obstinate or mild.

There are few men better known all over DeKalb county than Mr. E. D. Jenkins who resides at Lithonia Georgia.

He is the owner of a quarry of the celebrated Lithonia granite, which is so extensively used in several States, and is acknowledged to have no superior as a paving stone. His family has lived in DeKalb for forty

years and everybody knows them.

"Ever since she was a year old," he said, in a recent interview, "by daughter, Ida, has suffered from Rezema, and I have never heard of a worse case of this dreadful disease. For thir-

Danger Signals

More than balf the victims of cons tion do not know they have it. Here is a list of symptoms by which consumption can certainly be detected :-

Cough, one or two slight efforts on

rising, occurring during the day and frequently during the night.

Short breathing after exertion.

Tightness of the chest.

Quick pulse, especially noticeable in the evening and after a full meal.

Chilliness in the evening, followed by

Slight fever.

Perspiration toward morning and

Pale face and languid in the morning.

Loss of vitality.

If you have these symptoms, or any of them, do not delay. There are many preparations which claim to be cures, but Dr. Reser's English Remoty for Consumption has the highest endorsements, and has atood the test of years. It will arrest con-sumption in its earlier stages, and drive away the symptoms named. It is manufactured by the Acker Medicine Co., to and 18 Chambers St., New York, and sold and 18 Chambers St., New York, and so by all reputable druggists.
