

toast bread

and keep it dry. There'll be no danger of its molding. But moisten the bread with water, and see the result, in a short time it is covered with mold. It is just so with consumption. Its germs will not grow in the lungs unless everything is suitable to them. Weakness, poor blood, loss of appetite, coughs and colds often prepare the ground for the development of the germs of consumption. To destroy germ-life the system must be kept in a well-nourished condition. Do not lose flesh. Take Scott's Emulsion, with hypophosphites, as a preventive. It furnishes the reinforcements necessary for the body to conquer in the easiest possible form. The oil is in a state quickly taken up and rapidly transformed into the organs and tissues.

When you ask for Scott's Emulsion and your druggist gives you a fatness-colored package with the picture of a man and fish on it—you can trust that man with your prescriptions!

50 cents and \$1.00 SCOTT & BOWNE, Chemists, New York

GROFF'S Rheumatic Cure

Is the only positive Remedy known to the Medical Profession for Acute and Chronic Rheumatism, Gout, Lumbago, Sciatica, Neuralgia, Ovarian Neuralgia, Dismenorrhoea, Psoriasis, Scrofula, Liver and Kidney Diseases. A Positive Cure effected in from 6 to 18 days.

WEATHER FORECASTS.

Furnished Expressly for The Red Cloud Chief.

(Copyrighted, 1895, by W. T. Foeter.) St. Joseph, Mo., Dec. 7.—My last bulletin gave forecasts of the storm wave to cross the continent from the 10th to 14th, and the next will reach the Pacific coast about December 15, cross the west of Rockies country by close of 16th, great central valleys from 17th to 19th, eastern states 20th.

This disturbance will strike the Pacific coast further south than usual, and its path will lie through the southern states causing colder weather than the average for the month.

Most of the precipitation from this disturbance will be in the form of snow and sleet, and the snow line will reach unusually far south.

The warm wave will cross the west of Rockies country about 15th, great central valleys 17th, eastern states 19th. Cool wave will cross the west of Rockies country about 18th, great central valleys 20th and eastern states 22d. Ten days or more of continued cold weather will follow this cold wave.

RETROSPECTIVE.

The total forecasts of rainfall for eight months, March to October 1895, inclusive, as compared with the actual amount of rain for those months reveals the most wonderful verification of rainfall forecasts ever made, and a few facts connected with the calculations have yielded these remarkable results will certainly make interesting reading for all who have a care for the crop weather of 1896 and coming years.

After very long, tedious work, aided by a competent assistant, I have nearly completed perpetual weather tables for the sun, moon, Venus, Mercury, Mars, Jupiter, Saturn and Uranus, giving the influence of each of these bodies on the rainfall and temperature of each locality. Also their influence as to storms, earthquakes, auroras, electric storms, tides, etc. This discussion, however, has refer-

Children Cry for Pitcher's Castoria.

ence only to rainfall and temperature. The tables for temperature are not complete for March 1 to April 10 and September 1 to October 10, and no tables have yet been made for Neptune. Otherwise they are complete for a limited number of places.

Having the influence of each of these eight great bodies on the earth's temperature and rainfall for a given month, I add the plus and minus results and take the balance as forecasts for that month.

The figures thus obtained are not degrees of temperature, nor inches of rain, but indicate whether the temperature and rainfall will be normal, above normal, below normal, and about how much.

In order to find how much the departure from the normal will be, I use a scale of ten above and ten below, using all the figures from 0 up to 10 above and from 1 down to 10 below. The weather tables of the sun, moon and each of the planets contain these figures which are derived from the actual results of rainfall and temperature caused by the moon or planet as shown in the weather records of the past 100 years.

With the above partial explanation I give below the accumulated rainfall forecasts for eight months, March to October inclusive, for a few of the localities. The first column is the forecast, and the letter b placed before the figure indicates that the forecast was far below normal rainfall, the figure 1 indicating a little below, and 10 very dry. The letter a before the figure indicates a forecast for above normal.

Table with 3 columns: LOCALITIES, FORECAST, RESULT. Rows include Ohio Valley (b-10 m-12), Lower Lakes (b-10 m-7), North Atlantic (b-5 m-6), East Gulf (b-7 m-5), South Atlantic (b-5 m-6), West Gulf (b-8 m-9), St. Louis (b-10 m-7), Kansas City (a-5 p-1), Omaha (b-6 m-10), Upper Mississippi (b-8 m-7), Denver (a-3 p-3), Pueblo (a-3 p-3), Northwest Texas (a-3 p-3), Wyoming (a-3 p-4).

My weather tables for 1895 covered all localities in the United States and the southern portions of Canada, but only a few places for each locality. By using more places in each locality the tables will become more reliable, and for 1896 I will have nearly double the number of places I did for 1895.

I propose to use every long weather record that has been kept in the United States, constructing the eight planetary tables for each place or record. By this means the records will correct each other and aid me in avoiding errors, for there must necessarily have been mistakes made where records have been kept from forty to one hundred years.

From what I have stated above it will readily be seen that I cannot wholly avoid errors, but I have also

given in the above table strong evidence in support of my claims. I know I have found the keys that unlock the secrets of nature as to temperature and rainfall departures.

The amount of work necessary to construct these weather tables is enormous. Suppose I have the average monthly rainfall at Philadelphia for one hundred years. That will be twelve hundred months. I must find the monthly average rainfall for the whole time and then find the excess or deficiency above or below this normal for each of the twelve hundred months. This gives me the rainfall table as starting point.

Then I take the moon and find its separate influence for each of these twelve hundred months, and do the same for the sun and the six planets. All this must be worked out for the one place—Philadelphia, remember—and as much work for every other place that has a weather record. The moon has one influence at Philadelphia and another at Kansas City, because of their respective locations relative to the North Atlantic high barometer and the north magnetic pole, and the same is true of each of the other bodies and places that enter into the calculations.

This system could be made very valuable in Europe because they have older and better weather records than we have, but it would require more money than I am able to command to work it out.

A material drawback to the progress of this system is that all our old weather records are made up of monthly averages, while the old daily records have been lost and neglected. Monthly averages do not fit this system well and there must necessarily always be some deficits in the calculations made up from them.

Since the national weather bureau was established in 1871 the daily records have been kept, but they do not cover enough time for this system. Less than forty years is not valuable, and therefore the weather bureau record will not be good for us in this system till after 1911.

THE SURGEON'S KNIFE. Once Believed to be The Only Cure For Piles and Rectal Diseases.

A Better Way Now Discovered, Which Cures Every Form of Piles Without Pain or Inconvenience.

Many people suffer the pain, annoyance and often serious results from piles, for years, and after trying the many lotions, salves, ointments and so called cures without cure or relief, give up the hope of a final cure, rather than submit to the intense pain and danger to life which a surgical operation involves.

Happily all this suffering is no longer necessary, since the discovery of the Pyramid Pile Cure; a remedy which is approved by the medical profession, as being absolutely safe, free from any trace of opiates, narcotic or mineral poisons and which may be depended upon as a certain cure (not merely relief) in any form of piles, whether itching, blind, bleeding or protruding. Some of the hundreds of cures recently made are little short of marvelous as a perusal of the following will demonstrate.

Major Dean of Columbus, Ohio, says: I wish to add to the number of certificates as to the benefits derived from the Pyramid Pile Cure. I suffered from piles for forty years and from itching piles for twenty years and two boxes of the Pyramid Pile Cure has effectually cured me.

Dr. J. W. Megan, Leonardville, Kan., writes: I have used a box of Pyramid Pile Cure and received more benefit and relief than from any remedy I had used in the past twenty-two years.

James Jamerson, Dubuque, Iowa, says: I suffered from Piles for six years; have just used the Pyramid Pile Cure and am a well man.

Mrs. M. C. Ainky, 601 Mississippi St., Indianapolis, Ind., says: Have been a sufferer from the pain and annoyance of Piles for fifteen years, the Pyramid Pile cure and Pyramids Pills gave me immediate relief and in a short time a complete cure.

The Pyramid Pile Cure may be found at druggists at 50 cts. and \$1.00 per package. A book on cause and cure of Piles will be sent by mail, by addressing the Pyramid Drug Co., Albion, Mich.

Children Cry for Pitcher's Castoria.

M. E. NOTES.

The new stove will do royal work as soon as it gets acquainted with our Protestant ways.

Married, at the hour of 9:30, on Saturday p. m. Mr. W. F. Murphy and Mrs. Rebecca Boyd. The M. E. Pastor officiated.

The Chapel Sunday-school appointed a live committee to look after a great Christmas entertainment. The First church did likewise, and there seems to be a fine prospect for much good cheer during Christmas tide. Both of these schools are doing royal work and should receive earnest support.

The Christian church was about half full on Thanksgiving day. The music was good. Prof. Hunter read the president's proclamation in a manly way. The trustees made the house warm and comfortable.

We hope all who have read the Epworth Herald this year will subscribe for the year to come.

Will it not be quite human if all the Sunday schools should have an increase in attendance three times, seeing Christmas will soon be here.

Mrs. Strohm and Mrs. Pope showed the passenger people a kindness by sending in a turkey each for Thanksgiving dinner. Thanks know no bounds.

Mrs. Wilson will conduct the Union prayer meeting at the M. E. church next Wednesday evening. Subject: "The New Life." All christians and others most cordially invited to attend.

We know of but one community in the world where dyspepsia is practically unknown, and that is the Shakers of Mount Lebanon, N. Y. These good people have been studying the subject of digestion for more than a hundred years, and that they understand it pretty thoroughly, is evidenced in the foregoing fact. Their Digestive Cordial is the safest and best remedy in cases of indigestion that we know of. A trial bottle can be had through your druggist for the trifling sum of 10 cents. The Shaker Digestive Cordial supplies the system with food already digested, and at the same time aids the digestion of other foods. It will almost instantly relieve the ordinary symptoms of indigestion, and no sufferer need be told what these are.

LAXOL is the best medicine for children. Doctors recommend it in place of Castor Oil.

Market Report.

Table with 2 columns: Commodity, Price. Includes Wheat (40 @ 45), Corn (18 @ 18), Oats (15 @ 15), Rye (25 @ 25), Barley (35 @ 35), Flax (75 @ 75), Hogs (3 @ 30), Butcher's stock (2 @ 25), Butter (15 @ 15), Eggs (15 @ 15), Potatoes (25 @ 30), Spring chickens (5 @ 5), Old hens (3 @ 3), Hay per ton (3 @ 30).

A Good Farm for Sale. Four miles north-west of Red Cloud, containing 160 acres. Terms reasonable. Apply to Mrs. Jas. Kirkwood, Fairfax, Atchison county, Mo. 45-6m

Dress Making. I am prepared to do all kinds of dress making and sewing of every description. Prices reasonable. Residence five blocks west and one and one-half north of State Bank. MRS. MINNIE FRASE.

Dr. Price's Cream Baking Powder. A Pure Grape Cream of Tartar Powder.

Wanted Stock to winter. 140 acres of stalks and good water. Terms reasonable. Call on me 1/2 mile north of Amboy mills.—Ed. HINES.

RUPTURE.

Relieved and cured by the Dr. Owen Electric Truss—our latest invention—guaranteed most scientific, Powerful, Durable, Comfortable and Effective method. A mild, continuous current of Galvanic Electricity is applied directly to the seat of the Rupture causing a contraction and strengthening of those parts. No detention from business or work. To those who are Ruptured, it will pay to investigate our mode of treatment. We are honest in the belief that our genuine Electric Truss will cure any case of Rupture that is at all curable. We warrant that the Electricity can be felt instantly on application. Call at our office. No charge for consultation. Our "Treatise on Rupture" is free.

Write for our large illustrated catalogue and treatise upon Rupture. THE OWEN ELECTRIC APPLIANCE CO., 201 to 207 State St., corner Adams St., CHICAGO.

A Small Spot May Be Cancer!

It is very often that the most insignificant symptoms are forerunners of the most violent disease. There is not a more destructive disease than Cancer, and in a majority of cases it is first indicated by a very small scab or sore, to which no attention is attracted, until it before long develops into most alarming conditions. Here is such a case, where the first symptoms were too small to be noticed for quite a time. Mr. J. B. Arnold belongs to one of the oldest and best families of Carolina; he is well and favorably known throughout South Carolina, and has resided at Greenwood for years. Cancer is hereditary in the family, an aunt on each side having died from it. Several years ago a small spot, like a tiny ulcer, about the size of a bird shot, appeared just under his left eye, above the cheek bone. He thought nothing of it for some time, until it began to grow rapidly, spreading all the time, and destroying the flesh as it went.

He says: "It gave me a great deal of pain—those sharp, darting pains so characteristic of cancer. I took many so-called blood medicines, without the slightest effect, and sought the help of the best physicians, but they did me no good; one told me, however, that I was incurable and had better make my arrangements accordingly. I was on the verge of despair, when Dr. J. L. Miller, one of the leading druggists of my town, recommended S. S. S. The first bottle seemed to make me worse, but Dr. Miller told me this was a favorable symptom, and by the time I had taken the second bottle, the cancer began to discharge, and as I continued this became quite profuse, and kept up for some time. Then it gradually grew less, and after awhile ceased altogether, and to my delight the place dried up and is cured entirely, so that nothing remains but a scar.

"I consider S. S. S. a boon to suffering humanity, and feel that I owe my life to it, as the cancer had made such progress when I began S. S. S. that my death was declared to be only a matter of a very short time. The cure effected in my case is considered by every one most remarkable, and clearly demonstrates the fact that S. S. S. does cure hereditary cancer. No one who is afflicted with this dreadful disease can afford to fail to give S. S. S. a trial, for that is all that is necessary to convince them of its virtues."

The above is but one of many remarkable cures being daily made by S. S. S. Cancer is becoming alarmingly prevalent, and manifests itself in such a variety of forms, that any sore or scab, it matters not how small, which does not readily heal up and disappear, may well be regarded with suspicion.

The fact that S. S. S. cures hereditary cancer, which is considered incurable, places it without an equal as a sure cure for all manner of blood diseases, such as Scrofula, Eczema, Contagious Blood Poison, or any other form of bad blood.—Atlanta Constitution.

Danger Signals

More than half the victims of consumption do not know they have it. Here is a list of symptoms by which consumption can certainly be detected:—

- Cough, one or two slight efforts on rising, occurring during the day and frequently during the night.
- Short breathing after exertion.
- Tightness of the chest.
- Quick pulse, especially noticeable in the evening and after a full meal.
- Chilliness in the evening, followed by slight fever.
- Perspiration toward morning and "Pale face and languid in the morning."
- Loss of vitality.

If you have these symptoms, or any of them, do not delay. There are many preparations which claim to be cures, but Dr. Ficker's English Remedy for Consumption has the highest endorsements, and has stood the test of years. It will arrest consumption in its earlier stages, and drive away the symptoms named. It is manufactured by the Acker Medicine Co., 16 and 18 Chambers St., New York, and sold by all reputable druggists.
