borrowing from health.

If you have borrowed from health to satisfy the demands of business, if your blood is not getting that constant supply of fat from your food it should have, you must pay back from somewhere, and the somewhere will be from the fat stored up in the body.

The sign of this borrowing is thinness; the result, nervewaste. You need fat to keep the blood in health unless you want to live with no reserve force-live from hand to mouth. Scott's Emulsion of Cod-liver Oil is more than a medicine. It is a food. The Hypophosphites make it a nerve food, too. It comes as near perfection as good things ever come in this

Be sure you get Scott's Emulsion when you want it and not a cheap substitute. Scott & Bowne, New York. All Druggists. 50c. and \$1.

DR. A. OWEN'S **ELECTRIC APPLIANCES**

99 TIMES OUT OF 100

Mrs. A. J. Stearns, of West Stockholm, St. Lawrence Co., N. Y., under date of July 31, 1895, 5278; "Words fail me to express my gratitude to Dr. A. Owen for the benefit I have had from using his Electric Appliances. Before using the appliance I was so weak I could scarcely stand alone; had been confined to my bed since last October. After the third day's use of the appliance I could walk several steps; one week later I walked around the house, and in less than one month I was able to ride out, and now I can walk a mile or more without feeling tired. May God bless and spare you to your many friends for years to come."

Mr. Axel J. Ekblade, of Walsburg, Kan., unler date of July 130th, 1895, says: "Having used the Dr. Owen Electric Appliances for Nervousness for the past few months, must say they are shead of any treatment. I am coved of the worst form of Nervous Disease."

Mr. A. Nibek, of Middlefield, lowe, writing us on June 27, 1895, says: "This is to certify that I have derived more benefit from using the Owen Electric Appliances for a severe case of kidney complaint and nervous prostration than from hundreds of deflars spent for doctor's Out Layer, Ellisstant of Contraction than from hundreds of deflars spent for doctor's

Our Large Hustrated Catalogue contains many codorsements like above, besides st of appliances, and much valuable information for the afflicted. Scad 6 cents in stamps When writing parties about their testimonials enciose a self-addressed stamped envelope to insure a reply. We have been before the public many years, and our Electrical Appliances have become a recognized standard of merit.

14th to 18th, and the next will reach the Pacific coast about January 18, cross the west of Rockies country by ciose of 19th, great central valleys 20th, eastern states 23d.

This will bring severe weather, accompanied by a large amsunt of rain or snow, and followed by one of the coldest cold waves of the winter.

The warm wave will cross the west of Rockies country about 18th, great central valleys 20th, and eastern Kidney Balm. states 22d. Cold waye will cross the west of Rockies country about 21st, great central valleys 23d, and eastern states 25th.

THE IRON FERTILIZER.

E. C. Mathews, of Worcester, Masachusetts, in reply to queries, writes: Thirty-five years ago in Hillsborough, New Hampshire, I used my blacksmith shop sweepings on a lot of wornout and run-down grass land. I did not use it on account of the iron it contained, but for the other propertice and to get rid of it. I found that it made the grass grew better than I expected.

"In North Dana, Massachusetts, I the world.

matter how I planted, everything called the wet bulb that indicates the would grow abundantly. None of us sensitive change in temperatures or knew why this material caused the changes that are felt or experincreased growth of vegetables. Soil ienced through the human or animal cannot be injured by it and the vege- senses. The metallic or mercurial table are always of a dark, thrifty thermometor indicates the effects of

"I have used it on dry, sandy soil, on heavy loam, in wet and dry seasons, and its effects are always the table life. The weather bureau of same. I used it on corn, potatoes, den vegetables, but not so much on field products, because I had not temperature changes on animal and enough to go that far. I used it on and in the soil, hoed around the plants and cultivated in all the usual mades always with success where the modes, always with success where the iron dust was used.

Its effects are not lost in the first year on light soils, as is the case with not coincide with our experiences common fertilizers I did not use it with the weather, and the reason is on the small soils every year, and found in the kind of thermometer there is no danger of using too much, used. The weather bureau has re-

joints or hips, sediment in urine like brick-dust frequent calls or retention, rheumatism. Kidney Complaint Diabetes, dropsy, scanty or high colored urine.

Urinary Troubles Stinging sensations when voiding, distress pres-ture in the parts, urethral irritation, stricture.

Disordered Liver Bloar or dark circles under the eyes, tongue coated, constipation, yellowish eyeball At Druggists, 50 cents and \$1.00 size. DR. KILMER & Co., BINGHAMTON, N. Y.

dependently discovered by a large number of persons. It is the coming fertilizer and is destined to supersede all others.

The cheapest process of using this fertilizer is to hang old fron in your fruit trees where the rust can drop on the ground below, or put the old iron in a pool of water and after the iron rusts use the water to irrigate the plants.

But when the value of the iron ferrilizer is better understood, large establishments will farnish it in large quantities and at low rates.

I hope that many persons will experiment with the iron fertilizer in coming crops and report the results to me, so that I can give them to the public through these bulletins.

Old peopla suffer much from disorders of the kidneys or urinary organs, and are always gratified at the wonderful effect of Dr. J. H. McLean's Liver and

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she ching to Castoria. When she had Children, she gave them Castoria,

Sensitive temperatures are those of which the human senses constitute the thermometor or measure. If we have a temperature of 100 degrees in the shade and the air is unusually dry, no inconvenience will be experienced, but if the air is full of moisusad the same material for fourteen ture, such a temperature will be alyears, mostly on garden vegetables, most sufficating and unbearable. The and the results convinced me that it thermometer semmonly used would was a wonderful fertilizer, the best in show ne change, but the human system would experience a very great "My neighbors always said that no change. There is a thermometor temperatures on on metallic bodies, while the wet bulb thermometers indicate the effects on animal and vegethe United States uses the metallic tomatoes, eucumbers, and on all gar- or mercurial thermometer, the one that does not indicate the effects of that give the average temperatures of a month just passed because they do planted encumbers and squashes in it, hoed it a little and gathered a big crop.

Livingston, Woortham, allie temperatures recorded by the large portion of the black loam soil a hundred uses a barometer. Their

senses are more reliable than the mercurial barometer.

If we could trace dyspepsia to its source, it would lead back to our kitchens. In fact, the secret of good health is good cooking. If well cooked, foods are partially digested; if poorly cooked, they are less digestible than in their raw state. If you are a victim of faulty cooking; that is, if you suffer from dyspepsia, the rational cure must be looked for in an artificially digested food, and a food which will at the same time aid the digestion of other foods. Such a preparation virtually rests the tired digestive organs, thereby restoring them to their natural strength. The Digestive Cordinal, as prepared by the Shakers of Mount Lebanon, is just such a preparation, and a single 10 cent bottle will constitute the same difference of the reliable than in their raw state. If you are a victim of faulty cooking; that is, if you suffer from dyspepsia, the rational cure must be looked for in an artificially digested food, and a food which will at the same time aid the digestion of other foods.
