Band Pair.

The fair held in the Moon block last week, under the auspices of the Red Cloud S. of V. Band, was a grand suc cess, financially and otherwise, and will doubtless be the theme for conversation for some time to come, as it was the talk of the day far ahead of time.

On Monday, the opening evening, the spacious hall was literally packed with a choice gathering of people, and standing room was at a premium. After a short concert on the stage in the rear of the hall, "Papa" Bell invited the visitors their attention to the different booths situated around the room: The candy booths, with the choicest of home-made John Cox was in Red Cloud this week. sweetmeats; the notion counter, where A good shave at Hutchison & Hiatt's articles of every description were for sale, from a silver spoon and toothpick Two loaves of bread for 5c, tifty for \$1 up to the finest pair of curtains the market affords; the popcorn counter; the fish pond, where he promised them L. Several speeches were made by our interested citizens. Alfred Hadelt stated the objects of the meeting, as nid Hon. Randolph McNitt. Mayor Bentley, John M. Chaffin, Robt. Potter, R. B. Fulton, and others, and the meeting was filled with old time enthusiasm, such as Red Cloud has not observed for a long time.

Cloud has not observed for a long time. The meeting proper was called to order by Robt. T. Potter, Esq., and the aims and objects stated.

O. C. Bell was elected as chairman and R. T. Potter secretary.

On motion, Alfred Hadell was elected Chairman of the club, and a better selection for the head of the club could not have been made, as he is abreast of the times and thoroughly alive to the interests of Red Cloud, and will devote his entire attention to the upbuilding of the city.

D. J. Myers was elected permanent secretary. Mr. Myers is fully awake to the needs of the city, and will do his part to help the city forge ahead with old time vigor.

A board committee of five members was selected, viz: J. L. Miner, B. F. Mizer, Randolph McNitt, M. R. Bentley, A. C. Hosmer.

A committee on organization was elected as follows: R. McNitt, J. O. Butler, A. C. Hosmer.

After several enthusiastic addresses the meeting adjourned until Thursday evening at 7:30, to perfect the organiza-

Now, let the members of the Commercial Club, and every person interested in Red Cloud, talk it at all times. Do not talk against your own town, but back it up with every inducement possible, and thereby give encouragement to people who are in business and to strangers who come this way. It is the profes sional croaker that does a city the most injury. He sits on the corner day after day, saying the town has gone to smash, when, in reality, it is his ambition that is at fault. The spirit of praise is like a contagious disease; it spreads over a into a perpetual blaze, and oftimes makes large towns out of smaller beginnings than Red Cloud. Shall we have that spirit pervade Red Cloud again, or shall we go back into decay? much can be accomplished at once, but, by united effort, "everything will come to he who waits" and keeps his shoulder firmly to the wheel, blocking all backward tendencies. Let us go slow, but make a firm stand for future prosperity and ultimate success, thereby triumphing over all obstacles thrown in the way of absolute progress for Red Cloud and

the unifying of her interests. In continuance of the efforts above mentioned quite a large number of citi zens met in Bentley's hall last evening and perfected the organization although it was not what was expected, yet the seed sown may be of great benefit to the city. One thing is certain if Red Cloud is to get to the front something will have to be done at once by our people.
