FIRESIDE FRAGMENTS.

-A little flour dredged over the top of a cake will keep the icing from running.

-Fruit cake can be preserved for a long time by placing it in a box with an apple, and keeping in a cool place. If the apple shows signs of rotting, it must be replaced by a good one.

-A most delicious homemade flavoring may be prepared by grating into one-half pint of alcohol the yellow rinds of four lemons. Shake this daily for three or four weeks, and at the end of that time it will be ready for use.

-A Delicate Pudding.-Cream a pound of butter and sugar, add eight well-beaten eggs, flavor the mixture with nutmeg. Line a pudding dish with thin puff paste, pour in the pudding and set in a very hot oven for ten minutes. Serve without sauce.-N. Y. Ledger.

-Baked Ham. -Seak the ham in cold water over night; trim, wipe dry, cover it with a paste made of flour and water and bake in a slow oven. When done, take off the crust and peel off the skin; allow to cool, glaze and garnish with carrots and beets cut into fancy shapes. -Harper's Bazar.

-- banana charlotte makes a good desert and one capable of being prepared in a hurry. Line the sides of a quart mold with slices of sponge cake. Cover the bottom of the mold with a thick layer of thinly sliced banana. Fill the mold with stiff whipped cream and set it aside in the ice box until wanted, then remove carefully from the mold and serve.

-Apple Rice Pudding .- Pare, quarter and core three tart apples and spread loosely in a buttered agate pudding dish. Add three-quarters cupful of sugar and three tablespoonfuls rice to one quart of milk; turn the mixture over the apples, spread a few bits of butter over the tops and bake in a moderate oven four hours. Serve hot with sweetened whipped cream.-Orange Judd Farmer.

-Colds, With or Without Fever.-On going to bed, let the feet and leg be bathed in a warm bath. Drink frely of warm, thin gruel or warm wear tea with plenty of milk in it. If the is pain in the head, apply a mustard poultice on the back of the neck until the skin is red and painful. If there is pain in the chest, the side or any part of the abdomen, put the mustard plaster directly over the painful part until the same effect is produced .-Liverpool Mercury.

A Dangerous Passage in the Rhone.

Below Viviers the Rhone breaks out from its broad upper valley into its broader lower valley through the defile of Donzere. Here the foot hills of the Alps and the foot hills of the Cevennes come together, and behind this natural dam there must have been anciently a great lake which extended to the northward of where now is Valence. The defile is a veritable canyon that would be quite in place in Sierra Madre. On each side of the sharply narrow river the walls of rock rise to a sheer ight of 200 feet. The rush of the water is tumultuous. In midstream. surrounded by eddies and whirling waves, is the Roche des Angalais, against which the boat of a luckless party of travelers struck and was shattered a hundred years ago. Indeed, so of old, when faith was stronger and boats were weaker than in our day of skepticism and compound engines, that it was customary to tie up at the head of the defile and pray for grace to come through it safely; but nowadays (with the same practical result) they put extra n en at the tiller and clap or more steam .-- Thomas Janvier, in Cen-

She Was the Piret Star.

Every now and then an anecdotcomes to the front showing that our first president liked the theater as well as do his followers of to-day. The point is mentioned in one of the many theatrical stories nurrated in that new book: "Shakespeare's Heroines on the Stage." Says the author of the book: "A Philadelphia Portia of this same season of 1793 and 1794 comes of a noted family, being none other than Mrs. Eliza Whitlock, the sister of Mrs. Siddons and of the Kembles. In England, at the age of 22, she had made her London debut as the heroine of 'Shylock' on February 22, 1783, and, though somewhat masculine in face and figure, yet displayed so animated a countenance and so graceful a bearing as to win a moderate degree of favor. A few years after coming to this land she enjoyed the distinction of playing the first 'star' engagement on the American stage, being engaged for \$450 and a benefit to play at the Boston theater in October, 1796. There she repeated her Portia, contending with the remembrance of Mrs. Powell's impersonation of a previous season. She also har the honor of playing before George Washington in Philadelphia."—Chicago News.

Lord Bramwell's Plety.

Lord Bramwell's Piety.

The late bishop of Winchester is said to have possessed among his many other qualities that of sarcasm. A good story is told of a retort made to the late Lord Bramwell, who, meeting him on his way back to his room to take off his robes after reading prayers in the house of lords, apologized for having been absent from the ceremony. "When I kneel down it gives me palpitation of the heart," said Lord Bramwell, "and it would not be respectful for me to sitor stand while your lordship was praying." Bishop Thorold, perhaps knowing almost as much about the old baron's sanctity as did Lord Bramwell himself, answered in measured tones.

"Pray do not mention it. Lord Bram." Said Lord Bramwell himself, answered in measured tones.

"Pray do not mention it. Lord Bram." Said leading other safferers to a cure."

Lord Bramwell's Piety.

This after I had tagen it a few days, the cancer became irritated and hegat to discharge. This after while ceased, leaving a small scab, which finally dropped of, and only a healthy looking little scar remained to mark the place where the destroyer had heid fall sway. Words are inadequate to express my gratitude to the great blood purifier, S. S. S., and I writethis hoping that it may be the means of leading other sufferers to a cure."

Cancer is not incurable, but the only means of curing it is to rid the blood of the disease. S.S.S. never fails to do this, but it is the only remedy to be relied upon. It is guaranteed purely vegetable, and cures Cancer, Scrofula, Ezzema, Catarrh, Rheumatism and any other disease often develop into such alarming conditions that the doctors think an operation necessary. Scrofula, for inself, answered in measured tones. "Pray do not mention it, Lord Branwell! I am sure your lordship can be equally devout whether you are stand- is loo! ing, kneeling, or sitting-I w'll not say | relied lying!" The playful old judge after- | disease ward inquired who had read prayers that afternoon, and, on being told remarked, with a sparkle in his eyes; "He's a sharp fellow!"-Household

SOME DAIRY DON'TS.

Don't think scrub sires can produce choice stock for any purpose, Don't keep calves in dark, filthy

places and expect them to thrive.

Don't be afraid to spend money for a sire from a first-class family. Don't make your cows drink water

that you could not drink yourself. Don't feed a calf grain before its age is sufficient so it chews a cud.

Don't try to be called a large dairyman by the number of cows you keep. Don't keep a cow a month without testing her to see if she pays her way. Don't think that strainers or separators can take soluble filth out of

Don't run or worry cows going to and from the posture or in the milking yard or stable.

Don't think to raise a calf for a milch cow and feed it up to its time of parturition for a beef animal

Don't have pastures so short that cow: must work every hour of the day and aight to get enough to eat.

Don't forget that a cow is decidedly a creature of habit and in all ways try to conform to her peculiar habits.

Don't feel that your cows are wasting time if they lie in the shade and chew their cud for a few hours each day. Don't forget to sow plenty of oats

and peas or corn for green feeding when the annual shrinkage is sure to come.

The use of the surgeon's knife is be-coming so general, resulting fatally in such a large number of cases, as to occasion general alarm. The press al-most daily aunounces the death of some unfortunate whose system could not withstand the shock of an operation, and whose life was cruelly sacrificed to the keen blade of the surgeon.

Of course, in some instances an operation is necessary, and is the only means of saving life, but such cases are exceedingly rare. So many deaths occur under these conditions, however, that the public is beginning to realize that the doctors are too hasty in resorting to the knife, and if such a state of affairs continues, there will before long be a general uprising against such measures. It is but reasonable to believe that the majority of operations are unnecessary, but when the fatal mistake is discovered too late, only the doctors ever know of their error, and though a precious life is given up, the public is assured that death would have resulted in spite of the operation, and who i

The folly of resorting to the knife in cases of cancer, is demonstrated every time it is undertaken. The disease is in the blood and the cancer or sore in but the outward manifestation of a terrible condition of the entire circulation. To cut out this sore, therefore, does not in any way effect the disease, and it can easily be seen that the only correct treatment is to get at the seat of the disease, and purify the blood; the sore will then heal up naturally. S.S.S. is the most powerful blood remedy made, and is the only cure for cancer.

To submit to an operation, is to volun-

To submit to an operation, is to voluntarily endanger one's life, without the slightest hope of being benefitted.

Mr. William Walpole, is a wealthy planter residing at Walshtown, South Dakota, and is well known all over the state. Under date of January 20th, 1896, he writes; "About three years ago, there came under my left eye a little blotch about the size of a small pea. It grew rapidly, and for the past year, shooting pains ran in every direction. I became alarmed and consulted a good doctor, alarmed and consulted a good doctor, who pronounced it cancer, and said that it must be cut out. This I would not consent to, having little faith in the indiscriminate use of the k life, though I was alarmed at my condition. Reading of the many cures made by S.S., I determined to give that medicine a trial, and after I had taken it a few days, the cancer became irritated and hegan to discharge. This after a while ceased, leaving

The Cosmopolitan Magazine,

-Thirty years ago J. B. Garrison, of Plant City, Fla., a machinist, ran a small sliver of steel into his right hand at the base of the thumb. The wound was treated and finally healed, the doctor saying that the steel had been expelled. But ever since that time Garrison has suffered with severe pains in his right arm, which he attributed to rheumatism. The other week the pains became more acute in his right shoulder. He went to a doctor, and the doctor drew from just under the skin of his shoulder the steel sliver that entered his hand in 1865.

-J. M. Stanley, his wife and young son killed four bears on their ranch near Ukiah, Cal., one morning recently. The largest of the bears weighed 700 pounds, and there was about as much risk as fun in the hunt and fight that preceded the slaughter of the quariette. The big game is being driven far down into the valleys in that region by heavy snow in the mountains. *****************************

Notice to Teachers.

Notice is hereby given that I will examine all persons who may desire to offer themselves as candidates for eachers of the public schools of this sounty, at Red Cloud on the third Saturday of each month.

Special examinations will be held n the Friday preceeding the 3d Satirday of each month.

The standing desired for 2d and 3d grade certificates is the same—no rade below 70 per cent., average 80 er cent; for first grade certificategrade below 80 per cent., average) per cent, in all branches required
