

HAS NEVER ONCE FAILED!

Paine's Celery Compound Gave Mrs. Porter Back Her Strength.

These sharp, raw, capricious days of February are blamed for much sickness that is simply the direct result of nervous weakness. Perfect health will keep one above any depressing influence from the weather. Pure, risher blood and better nervous tissues will make people feel well even in February. During his many years of hard and wonderful work, Prof. Edward E. Phelps, Dartmouth's great professor, had in mind the thousands who were weak and run down. His study of the many cases of nervous prostration, neuralgia, rheumatism, dyspepsia and debility led him to that most marvelous discovery of the century, Paine's celery compound. In every city, as well as the smaller villages scattered through this country, are men and women who for years have relied upon Paine's celery compound whenever they found themselves weak and out of health. About fifty were present and all report a good time. Henry Rasser will leave for Milwaukee soon. Mr. Carmony stopped with C. C. Cox last week. G. W. Baker sold a load of fat hogs last week. Charley Rasser was in Red Cloud Saturday. Alpha Saladen was out riding Sunday. One of our most popular young ladies of this place thought that she would make a catch as this is leap year, and shouldering her bamboo fish pole, hook and line, she started for the creek, using honey for bait and smiling as she tripped along and then she thought she had him sure when to a leap year party they did go to trip the light fantastic too and after things were all quite and still the two together with that old road cart wandered to that boarding house on the hill. of letters like the following from Mrs. Porter of New York City, tell how this great medicine has kept them well and strong.
NEW YORK, Jan. 3, 1896.
MESSRS WELLS & RICHARDSON CO.,
Dear Sirs:—For several years I have used your Paine's celery compound whenever I found myself running down in health. During that time I have recommended it frequently to my friends and I know of many persons who have been much benefited by it. I am never without a bottle of it in the house, and take great pleasure in expressing to you my belief that it does a great work for humanity.
MRS. M. PORTER,
282 Eighth Ave.
Mrs. Porter's experience is like thousands of others. Paine's celery compound made her well, because it fed the starved nerves and blood and regulated their functions. Try it and be convinced of its remarkable power to cure disease.

Pleasant Prairie.
Farmers are busy farming and all seem to think we will have a good crop. The school in district 41 closes this Friday. The teacher, Geo. H. Overing, has taught a very successful term. The writer thinks any district that has had a good teacher ought to try to keep him, for when the pupils and teacher meet again they understand each other, whereas it takes a new teacher a half month to get started. Mrs. Frank Lindsey of Riverton was buried in Pleasant Prairie cemetery last Saturday. Our Sunday school will open next Sunday morning at 10 a. m. Mr. Michels, the superintendent, feels well paid for going to the convention at Red Cloud. Especially do we appreciate the kindness of the people of Red Cloud. Mr. Pitneys youngest child is improving nicely.
