

Fits Cured

Prof. W. H. Pecke, who makes a specialty of Epilepsy, has without doubt treated and cured more cases than any living Physician. His success is astonishing. We have heard of cases of 20 years' standing cured by him. He publishes a valuable work on this disease, which he sends with a large bottle of his absolute cure, free to any sufferers who may send their P. O. and Express address. We advise any one wishing a cure to address Prof. W. H. Pecke, Box 4 Cedar St., New York.

A great "catastrophe" occurred between J. A. Boyd and Col. C. L. Winfrey the great auctioneer, at the barn of the former on 4th avenue. It was this way: A big black feline, surnamed Thomas Cat, had taken possession of one of the stalls and in some unaccountable manner, in hunting for choice viands, had stuck his head into an oyster can. Of course Bro. Boyd and the Colonel felt great pity for his catship and immediately proceeded to liberate the "catagory." He squirmed and squalled, and whether the men profaned or not deponent sayeth not, but the evidence shows that the boys got there by several large scratches. Charley is reported as saying something about "damning Nugaria" while Bro. Boyd used an old familiar Kentucky phrase, "that's a 'hoss' on me."

dry feet

means the prevention of scores of cases of colds, coughs, bronchitis, pneumonia, and consumption. Wet feet do not directly make the germs of consumption appear in the lungs; but they do cause coughs and colds and inflammation of the throat and lungs; weaken the whole system. In this condition the germs of consumption find just the soil in which to work.
Scott's Emulsion of Cod-liver Oil, with Hypophosphites, is a most valuable remedy for restoring the system to health before these germs get the upper hand.
SCOTT'S EMULSION has been endorsed by the medical profession for twenty years. (Ask your doctor.) This is because it is always palatable—always uniform—always contains the purest Norwegian Cod-liver Oil and Hypophosphites.
