Miss Grace Badine and Trixie Mizer, two of the handsomest and accomplished young ladies of Red Cloud, Nebraska, were the guests of Mr. and Mrs. F. B. Hough, a few days last week and attended the commencement exercises Saturday evening.—Smith Center Journal.

Three of the most popular young ladies in the south ward went to the cemetery Sunday and gathered the flowers from the graves of the dead, where loving hands had placed them. This seems very sad indeed, and should it happen again the names of the parties will be published, as they are well known.

On Wednesday afternoon a terribly devastating cyclone struck St. Louis and demolished everything in its course. The newspaper reports say that from 500 to 1,000 people were killed. Trains picked up and overturned on the big bridge, and many of the passengers severely bruised, while the boats in the river were all sunk. The storm is supposed to be one that passed over Red Cloud about 6 a. m. of the same day but too high to do any damage or be of any force.

Charcoal for Sick Animals. In nine cases out of ten, when an animal is sick the digestion is wrong. Charcoal is the most efficient and rapid corrective. The hired man of a farmer came in with the intelligence that one of the finest cows was very sick, and a kind neighbor proposed the usual drugs and poisons. The owner being ill and unable to examine the cow, concluded that the trouble came from over-eating, and ordered a teaspoonful of pulverized charcoal to be given in water. It was mixed, placed in a junk bottle, the head downward. In five minutes improvement was visible, and in a few hours the animal was in the pasture quietly grazing. Another instance of equal success occurred with a young heifer which had become badly bloated by eating green apples after a hard wind. The bloating was so severe that the sides were as hard as a barrel. The old remedy, saleratus, was tried for correcting the acidity; but the attempts at putting it down always raised coughing, and it did little good. Half a teaspoonful of fresh powdered charcoal was given. In six hours all the appearance of the bloating had gone and the heifer was well.—Farmer's Voice.

Farm Notes. Onions need a good cellar but they should be well dried in the sun before storing.

One advantage in applying manure on meadows is that the effects are lasting.

While a variety of grasses is best for a pasture, blue grass is the best single grass.

Make racks and feed the straw out rather than to turn the stock into the straw stack.

When manure is worked into the surface it will soon get deep enough for the plants.

If the proper course is adopted the land can be made to improve instead of running down.

Good roads are signs of an enterprising community while poor roads often indicate carelessness.

Encourage your neighbors to better farming. Often their laziness is more or less a tax upon you.

English tenant farmers are complaining of high rents as the cause of agricultural depression.

It is often the little extra gain that determines the real profit, whether with grain or with stock.

Produce, sold from the farm is gone forever; by feeding to stock a good portion may be applied back.

Good blood will tell even in the breeding of males, select a good mare and breed her to a good jack.

Nothing upon the farm pays better than so treating the colts that they will develop into valuable animals.

The American Agriculturist says that the wheat crop has been reported at 5 to 15 per cent more than was harvested.

Sound seed is the first essential for a good crop of corn. Don't neglect to select it. Choose the best ears from the best stalks. Breed up the corn.

Home Hints.

Oil-cloth will look bright and new if rubbed with a cloth saturated in coal oil.

Sprinkle tansy leaves among woolen clothing and furs to keep moths from them.

Spots of iron rust in garments may be removed by dipping in tartaric acid and hanging in the sun.

If beefsteak is fried till done on one side and turned before salting, it will retain its juices much better.

Common salt finely powdered is excellent for washing the teeth. It toughens the gums and gives them a red, healthy glow.

For every quarter in a man's pocket there are a dozen uses; and to use each one in such a way as to derive the greatest benefit is a question every one must solve for himself. We believe, however, that no better use could be made of one of these quarters than to exchange it for a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, a medicine that every family should be provided with. For sale by H. E. Grice.

Gold or silver jewelry may be cleaned by rubbing with a rag dipped in a teacup of water, to which has been added a teaspoonful of ammonia.

In dusting the contents of a room never brush the dust off onto the floor. Use a cloth that will not lint, wipe the dust up in a cloth and shake out of doors.

Soft rags soaked in sweet milk and laid on a burn are said to possess remarkable healing power if dipped at an early stage. Renew the cloth night and morning.

Beds should be dressed in clean sheets and pillow cases once a week, and aired each morning before making, otherwise they cannot be kept clean and healthful.

How to Treat a Wife. (From Pacific Health Journal.)

First, get a wife; second, be patient. You may have great trials and perplexities in your business, but do not, therefore, carry to your home a cloudy or contracted brow. Your wife may have trials which, though of less magnitude, may be hard for her to bear. A kind word, a tender look, will do wonders in chasing from her brow all clouds of gloom.—To this we would add, always keep a bottle of Chamberlain's Cough Remedy in the house. It is the best and is sure to be needed sooner or later. Your wife will then know that you really care for her and wish to protect her health. For sale by H. E. Grice.

Mr. D. P. Davis, a prominent liveryman and merchant of Goshen, Va., has this to say on the subject of rheumatism: "I take pleasure in recommending Chamberlain's Pain Balm for rheumatism, as I know from personal experience that it will do all that is claimed for it. A year ago this spring my brother was laid up in bed with inflammatory rheumatism and suffered intensely. The first application of Chamberlain's Pain Balm eased the pain and the use of one bottle completely cured him. For sale by H. E. Grice."

A cook should never comb her hair before breakfast, unless she has time to thoroughly brush and free her clothing from all falling hair, which may otherwise drop into some of the victuals.

If you wish to be free from lassitude and dull headache on arising in the morning be sure you sleep in a well ventilated room. The fresh air must come from the outside and not from the adjoining room.

A very good substitute for cream in coffee is made by heating the white of an egg and adding to it a small lump of butter. Pour the coffee into it gradually and stir while pouring to prevent from curdling.

WIENER, THE CLOTHIER.

T. DEWITT TALMAGE WILL BE IN ORLEANS, Sunday, June 7, 1896.

We expect to run a special train June 7th, for Talmage's lecture, from Superior and all intermediate points to Orleans. It may not be out of place to call the attention of the people to the fact that the Orleans Chautauqua is much nearer to them than any other assembly in the state.

This is, perhaps, the last opportunity—at any rate, the best opportunity—the people of the Republican Valley will ever have to hear Talmage. He will leave Kansas City, Saturday, June 6th, at 10:40 a. m., reaching Orleans at 10:15 p. m. On Sunday, June 7th, 1896, at the Orleans Chautauqua, he will speak twice. At 11 a. m., he will give his great defense of the bible, "The Absurdities of Evolution;" and at 8 p. m., he will deliver his unrivaled lecture, "Big Blunders." Sunday night at 10:15, he will take the train for Washington, D. C., where important business calls him, compelling him to cancel his engagements in Iowa and Minnesota for this season.

We consider ourselves indeed fortunate that he has kept Nebraska on his program, and that he will be at Orleans Sunday if he lives. In addition to the two lectures by Dr. Talmage, Sunday afternoon will be occupied by the Y. P. S. C. E. rally, Prof. J. F. Hsieh, of Chicago University, presiding. Eminent speakers and good music will mark the exercises. A signal program for the entire day.

Three dollars and fifteen cents (\$3.15) will cover the railroad fare, admission to both addresses of Dr. Talmage, Y. P. S. C. E. rally, including also dinner and supper at the Chautauqua hotel, from Red Cloud to Orleans and return. Our Jumbo tent weighs 3 1/2 tons, and has a seating capacity for 5000 people. We have good grove, good water, good tenting; we are sparing neither hard work nor expense to do the right thing by our patrons. But we cannot run the special train unless our patronage will justify us in so doing. Let those who desire to hear Dr. Talmage, via special train, report at once to the B. & M. agent at Red Cloud. They can order tickets for Talmage's lecture through him. He will give due notice regarding special train.

5000 people will hear Dr. Talmage at Orleans, Sunday, June 7. Many will drive in for forty or sixty miles, but we believe coming by rail the cheaper, after all.

J. S. MCBRIEN, Dean Orleans College.

50 cents

In some conditions the gain from the use of Scott's Emulsion of Cod-liver Oil is rapid. For this reason we put up a 50c. size, which is enough for an ordinary cough or cold, or useful as a trial for babies and children.

In other conditions gain must be slow, sometimes almost imperceptible, health can't be built up in a day. For this Scott's Emulsion must be taken as nourishment, food rather than medicine, food prepared for tired and weak digestions.

SCOTT'S EMULSION has been endorsed by the medical profession for twenty years. (Ask your doctor.) This is because it is always palatable—always uniform—always contains the purest Norwegian Cod-liver Oil and Hypophosphites. Put up in 50 cent and \$1.00 sizes. The small size may be enough to cure your cough or help your baby.
