No greater patriotic deeds Can ever come to pass Than pulling tho e unsightly weeds And slashing down the grass.

The council has in its wisdom seen to get than years ago when the rates were made and at that time supposed crease the use of city water at this time. The motor rates have been increased lars higher than in the years of prosperity. We can not see the justice nor the good judgment in the present raise as very few people can pay it. There seems to be a question as to the legality of the city making a special levy, and if there is such a statute it is clearly unconstitutional, from the fact that if the city is allowed to own the plant it has the same right to mantain it by taxation, for the reason that if there should be at any time no consumers, how else could the plant be used as a fire protection, except by a special tax. There should be a levy made for the mantenance of the plant and if not according to law, strictly, it should be according to good sense. Every citizen in the city has a right to help support the water works, whether a patron or not, as a fire protection, and it must be a silly law that would take away the power of a city to support such fire protection. As to the increase of the water rental at this time, we believe it injudicious to the interests of the people.

Inflammatory Rhoumatism Cure ed in 3 Days.

Morton L. Hill, of Lebanon, Ind., eays:
"My wife had Inflammatory Rheumatism
in every muscle and joint, her suffering was terrible and her body and face were swollen almost beyond recognition; had been in bed for six weeks and had eight physicians but received no benefit until she tried the MYSTIC CURE FOR RHEUMATISM. It gave immediate relief and she was able to walk about in three days. I am sure it saved her life." Pitcher's Castoria. Sold by H. E. Grice druggist, Red Cloud.
