For Sale. 50 cords of dry stove wood.—Chas. H. Kaley, Red Cloud. You should use a steam cooker, because food cooked by steaming is more palatable and more nutritious than when cooked by boiling. You should buy a Beverage Automatic Steam Cooker, because it requires less time, less heat and less room on the stove than any other; because it is much simpler and more easily used and kept in order than any other, and because it is much cheaper, costing only about one half as much as any other steam cooker. A prominent lady of Riverton, Neb., says: "I have, for several years used a Peerless steam cooker for which I paid \$2.00 and consider it a good cooker but find it inconvenient and difficult to keep in order.
