

Merit

What gives Hood's Sarsaparilla its great popularity, its constantly increasing sales, and enables it to accomplish its wonderful and unequalled cures. The combination, proportion and process used in preparing Hood's Sarsaparilla are unknown to other medicines, and make Hood's Sarsaparilla

Peculiar to Itself

It cures a wide range of diseases because of its power as a blood purifier. It acts directly and positively upon the blood, and the blood reaches every nook and corner of the human system. Thus all the nerves, muscles, bones and tissues come under the beneficent influence of

Hood's Sarsaparilla

The One True Blood Purifier. \$1 per bottle. Cures Liver Ills; easy to take, easy to operate. 2c.

Advertisements cannot be ordered cut for the current week later than Thursday.

Republican National Ticket.

- For President, WM. McKINLEY, of Ohio.
- For Vice-President, GARRET HOBART, of New Jersey.

Republican State Ticket.

- For Governor, J. H. MCCOLL.
- For Lieutenant Governor, ORLANDO TEFFE.
- For Secretary of State, JOELA A. PIPER.
- For Auditor, P. O. HEDLUND.
- For Treasurer, C. E. CASEY.
- For Attorney General, A. S. CHURCHILL.
- For Supt. of Public Instruction, H. R. CORBETT.
- For Commissioner, H. C. RUSSELL.
- For Supreme Judges, ROBT. RYAN, M. P. KINLAID.
- For Regent, W. G. WHITMORE.

Republican Ticket.

- For Congress—5th District, W. E. ANDREWS of Hastings.

Vote for McColl. Vote for Teffe. Vote for Piper. Vote for Hedlund. Vote for Casey. Vote for Churchill. Vote for Corbett. Vote for Russell. Vote for Ryan. Vote for Kinlaid. Vote for Whitmore. Vote for every man on the republican ticket. This is the year to stay by the party, and bring back the good old times.

The republican party is bound to win success this fall. They are the party of protection, prosperity and honest money. Billy McKinley is the honest champion of prosperity. Let's be done with monkeying with so many issues that have not been tried and that are as liable to end in disaster as otherwise, and vote the republican ticket which will restore prosperity to the millions of toilers who have been out of labor for the last four years under democratic misrule. Four years ago the people were anxious to try the disastrous effects of free trade. They have tried the democratic idea and that ought to be enough of an experiment.

It would be hard to convince a man suffering from bilious colic that his agony is due to a microbe with an unpronounceable name. But one dose of DeWitt's Colic and Cholera Cure will convince him of its power to afford instant relief. It kills pain. C. L. Cotting.

A Mystery Explained. New Clerk—Why does the boss look so nervous and anxious when he locks up the safe? Old Clerk—He is afraid somebody will see that there is nothing in it.

Sclerotic Rheumatism Cured. L. Wagner, Wholesale Druggist, Richmond, Va., says: "I had a fearful attack of Sclerotic Rheumatism, was laid up almost two months, was fortunate enough to get MYSTIC CURE FOR RHEUMATISM. This cured me after doctor's prescriptions had failed to have any effect. Sold by H. E. Griese druggist, Red Cloud."

A GREAT REMEDY For Sufferers From Piles.

Dr. Redmond, a specialist in the study and treatment of piles and rectal diseases, recently stated that the Pyramid Pile Cure, the new discovery for the cure of piles, was the most remarkable remedy he had ever seen or tried in one respect; and that was, the instant relief experienced in all cases, no matter how severe, from the moment the remedy was applied; this was the more surprising to him, because he had carefully analyzed the preparation and no trace of opium, cocaine or similar poison could be detected.

Physicians look with great favor upon the Pyramid Pile Cure, because it is rapidly taking the place of surgical operations and because it is so simple, so easily applied and contains no mineral or other poisons so commonly used in pile cures.

Dr. Esterbrook reports that the Pyramid Pile Cure not only cures the various forms of Piles, but never fails to give immediate relief on the first application, no matter how severe the pain or discomfort may be.

People who have suffered from piles for years are often astonished at the instant relief experienced from the first application. Another important advantage is the fact that anyone can use the remedy without detention from business or interference with daily occupation. Sold by druggists at 50 cents per package.

Send for free book on cause and cure of piles.

Line.

Harvesting has commenced and rye promises to be a good yield. Miss Vickie Haskins visited relatives in Red Cloud last week. The pops will transact business in a free silver store on Friday next at the Kuehn schoolhouse electing delegates to the county convention.

Mrs. Sterner, resident of this township many years ago, was canvassing this vicinity last week selling notions.

Sheriff Runcey was doing business in these parts this week. Will Galbreth is working for L. A. Haskins.

J. M. Guthrie now enjoys a new Ohio cultivator.

Mrs. Guthrie received the sad intelligence last week of the death of her brother at Tipton, Iowa.

Master Lefe Galbreth has returned from Oxford, Neb., where he was employed in a hotel.

The many friends of Miss Melva Vandyke hereabouts will be pleased to know that she has regained good health, having left Oakland and gone to Lanora, California.

John Beauchamp has returned from Missouri. He seems well pleased with the land of the big red apple and has located near Elva, Howell county. He will move to that place about the first of August. Mr. B. is a good citizen and we hate to lose him from our midst.

Heart Disease Cured

By Dr. Miles' Heart Cure.

Fainting, Weak or Hungry Spells, Irregular or Intermittent Pulse, Fluttering or Palpitation, Choking Sensation, Shortness of Breath, Swelling of Feet and Ankles, are symptoms of a diseased or Weak Heart.

MRS. N. C. MILLER.

Of Fort Wayne, Ind., writes on Nov. 29, 1894: "I was afflicted for forty years with heart trouble and suffered untold agony. I had weak, hungry spells, and my heart would palpitate so hard, the pain would be so acute and torturing, that I became so weak and nervous I could not sleep. I was treated by several physicians without relief and gave up ever being well again. About two years ago I commenced using Dr. Miles' Remedies. One bottle of the Heart Cure stopped all heart troubles and the Restorative Nervine did the rest, and now I sleep soundly and attend to my household and social duties without any trouble."

Sold by druggists. Book sent free. Address Dr. Miles Medical Co., Elkhart, Ind.

Dr. Miles' Remedies Restore Health. Dr. Miles' Nerve Phosfor for Rheumatism. Sold by H. E. Griese druggist, Red Cloud.

FARM AND HOUSEHOLD.

EASTERN LESSONS FOR WESTERN FARMERS.

Fertility of the Soil Must Be Preserved—Cream in the Kitchen—Cheapest Ration for Poultry—Notes for Beekeepers—Household Hints.

Save the Fertilizers.

It was the boast of many early settlers of Kansas that the soil was so rich that manure was an actual injury to it, making crops grow too rank, writes Professor S. C. Mason in the Industrialist. If we may judge by the case which some farmers take to keep manure from their land, that opinion must still prevail in the state. Not only do we see manure left in the yards to leach and waste, often for several years, before any attempt is made to haul it on the fields, but the location of the yard is often on the bank of some ravine or stream so that the drainage and wash from the stables and manure piles is at once carried away by rains and the land deprived of even this chance of getting back a part of what has been taken from it.

In feed lots where large numbers of cattle and hogs are fattened, manure of the most valuable quality is produced, because of the highly concentrated nature of the food consumed; yet these yards, for convenience in keeping them clean and because of the better shelter afforded, are often located on a bank where all of the valuable fertilizing material produced is swept away. If we add to such waste the burning over of stubble fields that a furrow may be turned for the next wheat crop and the burning of straw-stacks as soon as the thrasher is clear of them, we will only make a beginning at summing up the sins which the average farmer is guilty of against the soil he believes to be proof against exhaustion.

One great source of waste occurs in nearly every town in the state from the hauling of manure from public and private stables to some common "dumping ground" either on the river bank where the next high water washes it away or to some vacant tract where it either remains to become a nuisance or is occasionally burned. The sandy soil of the bottom lands near the rivers, when heavily manured, affords the very best trucker's soil, and a few market gardeners are taking advantage of such opportunities. So far there is still a great opportunity to utilize what is wasted. While the supply of vegetables is usually equal to the demand, small fruits as a rule are scarce, except in the very Eastern counties, and much greater area might be grown with profit. Large quantities of vegetables might be raised and canned to the exclusion of canned goods from other states. Canning establishments conducted on business principles and not as a "boom" have proved a success in a number of localities, and have contributed greatly to the prosperity of their communities. With the establishment of many more, the industry of vegetable and small-fruit gardening could be greatly extended, and the waste of stable manure from our towns become a thing of the past.

Seed farming, or the raising of vegetable seeds under contract with large seed houses in the East, has proved a source of profit to a number of growers, and is a business that is capable of great extension. Where land can be rented at reasonable rates and plenty of manure secured for the hauling, a business of this kind might be built up that would give a handsome return.

If farmers and gardeners alike will learn in advance the lessons which are the very elements of agriculture in the Eastern states, the fertility of Kansas soils may be preserved from exhaustion. At present much of our farming is but drawing upon the capital which should be the inheritance of future generations.

Cream in the Kitchen.

On many farms where the dairy is not made a prominent feature it is a matter of some difficulty to handle the milk and cream during the winter months. While we believe that dairying is the most profitable industry on the farm at present, and that it will continue to be so if managed in a thoroughly intelligent manner, yet we realize that thousands of our readers are so situated that they do not care to make a specialty of dairy work, although they milk enough cows to furnish milk, cream and butter for their own tables. Be-

cause a man is interested in some subject only in a small way is no reason why he should not study that subject, and the farmer who makes only a few pounds per week ought to make it according to the most improved methods. For lack of a better place much of the milk and cream is kept in the kitchen during the summer. Under such conditions it is impossible to get the greatest amount of fat out of the skim milk, and impossible to make butter of the best quality. It is well known that cream readily absorbs odors, good and bad, and if kept in such a place as the farm kitchen, it will become in odor like Joseph's coat in color. Nor is this the only trouble. In order to get all the fat out of the butter milk the cream must be ripened evenly. To ripen evenly it must be kept at an even temperature; it is impossible to secure the latter in the farm kitchen. So, whether the amount of butter is large or small, we strongly advise against keeping either the milk or cream in the kitchen. Keep it in a room where the air is pure and the temperature low. Neither milk or cream should be allowed to freeze. Freezing injures the butter. But the lower the temperature until the freezing point is reached the better. When enough cream has been selected to make a churning, remove it to some other room where the temperature is sixty to seventy—not the kitchen; better the sitting room than the kitchen. When the cream has acquired a slightly acid taste and smell and is just beginning to thicken it is ready to churn.—Homestead.

Don't think that your liver needs treating if you are bilious. It don't. It's your stomach that really causes the biliousness. It has put your liver out of order.

See what's the matter with your stomach. Sick stomach poisons liver and then there's trouble. Shaker Digestive Cordial cures stomach and then all's well. That's the case in a nutshell.

Shaker Digestive Cordial is no secret. Formula's on every bottle. But it's the simple honest way it's made, the honest Shaker herbs and other ingredients of which it's composed, that makes it so efficacious.

Any real case of indigestion and biliousness can be cured with a few bottles of Shaker Digestive Cordial. Try it. Sold by druggists, price 10 cents to \$1.00 per bottle.

Household Hints.

If through any blunder in cleaning a bowl the gall or other entrails are burst the taint which affects the meat may be easily removed by soaking for half an hour in cold water in which a little soda has been dissolved.

One can test a cake's baking by drawing it to the edge of the oven and listening for the faint, spattering sound which will continue until it is ready to take out. This is a better trial than the broom splinter thrust into the dough.

Eggs may be very simply and palatably cooked, either by steamer or boiler, after the following manner: Slightly warm a flat dish, butter it generously and then break the number of eggs desired on it. Season with salt and white pepper and add a little rich cream. Bake or steam until the whites are set. They are more dainty in appearance if cooked on an oyster plate.

A warm foot bath, with an ounce of sea salt, is almost as restful as a nap. Puddle in the water until it cools, dry with a rough towel, put on fresh stockings, have a change of shoes, and the woman who was ready to drop will feel much better in ten minutes. Another tonic for the sole is a handful of alcohol. This is a sure way to dry the feet after being out in a storm.

Last summer one of our grand children was sick with a severe bowel trouble. Our doctor's remedies had failed, then we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave very speedy relief. We regard it as the best medicine ever put on the market for bowel complaints.—Mrs. E. G. Gregory, Fredericksburg, Mo. This certainly is the best medicine ever put on the market for dysentery, summer complaint, colic and cholera infantum in children. It never fails to give prompt relief when used in reasonable time and the plain printed directions are followed. Many mothers have expressed their sincere gratitude for the cures it has effected. For sale by H. E. Griese.

Dr. Price's Cream Baking Powder—A Pure Grape Cream of Tartar Powder.

New Camp Seward.

CAMP SEWARD, Col., July 1, '96. Friend Hosmer:—As it has been some time since I wrote you, and promised I would let you know how things were moving from time to time, I will endeavor to give you a description of the new camp, Seward. It is situated about half way between Colorado Springs and Cripple Creek, two miles west of what is called the half-way house on the Cheyenne pass wagon road. The camp (or town as it will be soon) is on a beautiful mountain stream that comes down through the camp and the boys turned the course of the water so that it flows right past our houses and tents and is as cold as ice all the time, and, as for fuel to burn, it costs nothing but a little labor to prepare it for the stove; it is dry pine and of a good quality. We have plenty of grass for our horses which are turned loose when not at work. The boys have been very busy making a wagon road from the camp up into the park a distance of about a mile and a half, having to blast rock and cut trees and dig out stumps. It has been very hard work and has cost something like two thousand dollars, but they have a fine road as far as they have gone and their intention is to build on up to the Seven Lakes where there is fine fishing and nice summer houses and a large hotel. The lakes were stocked with fish about eighteen years ago by some eastern capitalists and they say there is fine fishing there now. I have not been up there yet but am going this week. You may wonder what the park is; it is heavy pine trees and large ones too. I think there are trees enough to make 2,000,000 feet of lumber besides 25,000 mining timbers. I presume you would like to know what mining prospects we have. All of the boys have two or more lode claims and one placer claim. There have been some very good assays from shallow holes the best one in our camp came from the hanging rock lode, the shaft hole is a ten foot assessment hole and on the 13th a piece of ore was sent to Victor out of that hole and it assayed \$28 00 per ton. Now you may think that not very good but we think it good and so do the owners of the mine. Lew Soderlin and Geo. Smelser and some other young men are the owners of it. On the 17th a man by the name of Gilark discovered a vein, staked the claim and had it surveyed and took a piece of ore from the surface to Cripple Creek and it assayed 87. I believe the managers of the camp have contracted for fifty feet to be put down in the Pilot lode claim about a mile and a half from our claim. There was a strike made last week that assayed \$536 00 per ton.

As for the town or camp, as it is called, there is a large hotel in construction, besides a number of houses and others just waiting for lumber which will be forthcoming next week when the saw mill gets there and located. There will be stabling for 100 head of horses. The intention I believe is to get the numerous stages to stop for dinner and supper as they pass through the camp about noon, eight four horse coaches and one six horse Tallyho that leaves Colorado Springs at 12:30 p. m. and will take supper at Camp Seward and change horses at 5 p. m., thence on to Cripple Creek. I believe I have given you as near a description of our camp as most any one could and I will refer you to Frank Tennant who left here yesterday for Red Cloud, or O. C. Bell who left here the day before. If I have omitted [any of the great features of the camp Frank will give them to you and you can add them to this and when you think of it all and the advantages we have over other camps you will think and say as we do that this is the greatest camp known in any of the mining districts. The boys are all well that you know and working very hard and are very hopeful. I hope that every Red Cloud boy who came out here and stayed will be successful and go back to Red Cloud with a good stake. Hurrah for McKinley, Hobart and Albright. Hoping they all will be elected this fall, I remain respectfully,

J. C. WARNER.

"Wake up, Jacob, day is breaking!" so said DeWitt's Little Early Risers to the man who had taken time to arouse his sluggish liver. C. L. Cotting.

Children Cry for

Pitcher's Castoria.

A Holiday Trip at Half Usual Cost.

The low rates to the north and western cities and summer resorts offered by the Burlington Route cut the cost of a summer trip right in two—they bring an outing within reach of almost every pocketbook in the state. Here they are: Half rates to Chicago, July 4, 5 and 6. Half rates to Washington, D. C., July 3, 4, 5 and 6. Half rates, plus 2c, to Buffalo, N. Y., July 4 and 5. Half rates to Hot Springs, S. D., July 3 and 21. Half rates to Denver, July 5 and 6. Ask the nearest Burlington Route agent to tell you what tickets will cost and how long they are good for. Ask him also about the

Special train to Buffalo, which will leave Omaha via the Burlington Route at 4:45 p. m., Saturday July 4th, and also about the

Special train to Chicago which will leave Omaha at 4:45 p. m., Sunday, July 5th.

The first train is for teachers and friends enroute to the annual meeting of the National Educational Association at Buffalo; the second for members of the Jacksonian Club, bound for the Democratic National Convention.

For sleeping car reservations, folder giving special information, etc., call on nearest Burlington Route agent, or write to J. Francis, Gen'l Pass. Agent, Burlington Route, Omaha, Neb.

The pain that sometimes strikes a man at the most inopportune moment is due to indigestion. It may come in the midst of a dinner and make the feast a mockery. It is a reminder that he may not eat what he chooses, nor when he chooses. He is a slave to the weakness of his stomach. A man's health depends on what he gets out of his food. This depends on his digestion. Remove the obstruction by taking Dr. Pierce's Pleasant Pellets. They are a positive cure for constipation and its attendant ills—headaches, sour stomach, flatulence, dizziness, biliousness and heartburn. The Pellets are very gentle in their action. They simply assist nature. They give no violent wrench to the system. They cause no pain, nor griping. Send 21 one cent stamps to cover cost of mailing only, and receive free a copy of Dr. Pierce's Medical Adviser. Address, World's Dispensary Medical Association, Buffalo, N. Y.

For Sale.

50 cords of dry stove wood.—Chas. H. Kaley, Red Cloud.

For Sale.

Who will be the lucky one? House and corner lot, lot 12, block 6. Twelve rooms in house, \$700. Lot 18, block 6 and barn \$300. Terms one-half cash, balance on time. For further particulars write to—L. Baum, 71 Potomac Ave., Chicago, Illa.

It is Wonderful

how quickly diarrhea or dysentery can be relieved by using Boggs' Diarrhea Balm. A purely vegetable compound. It affords instant relief and a permanent cure in a perfectly safe way. Your popular druggist C. L. Cotting has the agency for this wonderful medicine.

Strayed.

M. W. Dickerson has in his possession two miles and five horses belonging to some unknown party. Owner can have same by calling at his place and paying costs.

The Perfect Ointment.

The virtue of Boggs' Gorman Salve is its quick healing power. Ene it would not have earned its world wide reputation. Your popular druggist C. L. Cotting has it.

Bottled Up!

Whether in the form of pill powder or liquid, the doctor's prescription for blood diseases is always the same—mercury or potash. These drugs bottle up and poison and dry it up in the system, but they also dry up the marrow in the bones at the same time. The suppleness and elasticity of the joints give way to a stiffness, the racking pains of rheumatism. The form gradually bends, the bones ache, while decrepitude and helplessness prematurely take possession of the body, and it is but a short step to a pair of crutches. Then comes falling of the hair and decay of the bones,—a condition truly horrible.

POTASH MERCURY

Contagious Blood Poison—the curse of mankind—is the most horrible of all diseases, and has always baffled the doctors. Their potash and mercury bottle up the poison, but it always breaks forth again attacking some delicate organ, frequently the mouth and throat, filling them with eating sores. S.S.S., is the only known cure for this disease. It is guaranteed purely vegetable, and one thousand dollars reward is offered for proof to the contrary. It never fails to cure Contagious Blood Poison, Scrofula, Eczema, Rheumatism, Cancer, or any other disease of the blood. If you have a blood disease, take a remedy which will not injure you. Beware of mercury; don't do violence to your system. Don't get bottled up! Our health sent free to any address. Swift Specific Co., Atlanta, Ga.
