Depression of Spirits
so common in summer-time, accompanied by loss of energy, lack of thought-power, means a deficient supply of nourishment. The vital force is lost. It isn't a question of muscle and sinew, but of resistance and endurance. At any age, but especially in youth, it involves the risk of lung disease. Loss of flesh and a cough are threatening signs.

A stomach full of undigested food is about as unhealthy a mass as one can well imagine.
What can be done with it?
There it stays. It won't digest. It churns up, ferments and decays; becomes poisonous (as all putrid matter does) and causes great pain and deep-seated disorders.

In order to change all this take Shaker Digestive Cordial.
It stops fermentation and decay at once, so that no more poisons are created.
It clears the stomach of poisons already there. It helps it to turn the food that remains, into healthful nourishment. It strengthens the stomach for the next meal.
Here is the whole philosophy and cure for indigestion in a few words. And what more is all true. Try it.
Shaker Digestive Cordial is for sale by druggists, price 10 cents to \$1.00 a bottle.

The meeting adjourned till Friday evening Sept., 11th, 1896.

McKeely and it was found that there was a cut in the left eye lid and a gash in the left side of the head and also a gash in the left arm about two inches long and cut nearly to the bone.
