A business man is not the most patient creature in the world. He cannot wait to hear any long-drawn-out story of the cause of this ailment. He doesn't care two straws about a fine spun theory of how he could treat himself. He may be predisposed to scrofula, or consumption. "That," he will tell you "has nothing to do with the case." He wants to be well. If he can be cured, write out a prescription and send in your bill. So, here's the first part of the proposition. Dr. Pierce's Golden Medical Discovery is a microbe hunter and killer. Many persons of scrofulous blood, encourage the breaking out of unsightly sores, to prevent the disease going to the lungs. There is no need of this state of dread and discomfort. Purify the blood. It can be done. "Golden Medical Discovery" will cure 98 per cent, of all consumptive cases, also of other lingering bronchial, throat and lung diseases.

Considerable complaint is being heard from citizens in regard to the deplorable shape in which our city is in regard to weeds growing across the sidewalks, in the streets and in vacant lots. The city authorities should see that the sun-flowers are removed and this would probably shame the property owners so that they would probably do likewise. With the fair coming on our city will cut a fine figure on our sidewalks without soiling her apparel.

Twenty Years....

For more than twenty years we have been telling how Scott's Emulsion overcomes the excessive waste of the system, puts on flesh, nourishes and builds up the body, making it the remedy for all wasting diseases of adults and children, but it isn't possible for us to tell the story in a mere stickful of newspaper type.

We have had prepared for us by a physician a little book, telling in easy words how and why Scott's Emulsion benefits, and a postal card request will be enough to have it sent to you free. To-day would be a good time to send for it.
