

MRS. MATTHEW S. QUAY.

Wife of the Great Republican Leader Adds Her Testimony to that of Thousands of Others for Paine's Celery Compound.

Among the testimonials received this year by the proprietors of that greatest of all remedies, Paine's celery compound, are found many, as usual, from families of national repute.

One of these is the following sincere statement that bears the signature of Agnes B. Quay, the wife of the Hon. Matthew S. Quay, United States Senator, whom Pennsylvania so urgently named for the presidency at St. Louis: "WASHINGTON, May 15, 1896. "MRS. WELLS & RICHARDSON, Burlington, Vt.

"Dear Sirs:—My daughter and I have been using your Paine's Celery Compound this spring with most beneficial results.

"Those in an over fatigued condition will find it a gentle stimulant, and an excellent tonic, and I add my testimony to others without reluctance."

The relative merits and efficiency of Paine's celery compound in making people well is clearly shown in the character of the people who today rely on it to cure insomnia, nervous debility, persistent headaches and a run-down condition.

It is the power of rapid repair of the tissues that makes Paine's celery compound the great saver of life that it is. It brings just the needed nutriment to the distracted nerve tissues all over the body and increases the volume of healthy blood so that the breaking down of some vital part is averted. While taking Paine's celery compound there is a general building up of the deep-lying tissues all over the body, and a throwing off of the unsound elements that clog and interfere with its healthy activity.

The story of the discovery and un-

paralleled success of Paine's celery compound is the story of a high purpose, steadfastly followed; the reward for the life-long study of the nervous system in health and disease. Prof. Edward E. Phelps' discovery in the laboratory of the Dartmouth Medical School proved a monumental work in the art of dealing successfully with many diseases that were up to that time held to be obstinate of cure. Today rheumatism and neuralgia, heart palpitation and nervous dyspepsia are taken in hand by Paine celery compound with the absolute assurance of freeing the system of them entirely.

In this greatest of all remedies there is hope for every person distressed by symptoms of dyspepsia, impure blood, failing vigor or low nervous condition.

The following unique letter, says the Leader, was written by a Warren man to his lady love in Galena. It's a pretty good form to keep—you can cut it out if you wish:

My Dear Miss—I hereby announce myself as a candidate for your hand and shall use all fair and honorable means to secure the nomination. I know that there are many candidates in the field, and I hesitated long before entering the race, but now I am in to stay.

My views on love and matrimony have often been expressed in your hearing and I need not repeat them here. You know I favor the gold standard of love—a 100-cent dollar love and a maintenance of that standard after marriage.

If you decide to confer upon me the honor I seek, please fix a date for a caucus with your mother. I have no objection to her acting as a temporary chairman, provided it is clearly understood that I am to be chairman of the permanent organization. Should the result of the caucus prove satisfactory we can soon hold the primaries and select the dates and place of the convention.

I never believed in long campaigns, so if you decide to honor me I will ask you to make the convention date as early as possible. Devotedly yours,

The following telegram answered it: "Caucus unnecessary. Nomination unanimous. Come at once and fix date of ratification."—Galena Gazette.

Make the Most of Yourself.
It is the duty of every man to make the most of himself. Whatever his capacities may be, he is sure to find some place where he can be useful to himself and others. But he cannot reach the highest usefulness without good health and he cannot have good health without pure blood. The blood circulates to every organ and tissue when it is pure, rich and healthy it carries health to the entire system, but if it is impure it scatters disease wherever it flows. Hood's Sarsaparilla is the one true blood purifier. It cures salt rheum, scrofula, catarrh, dyspepsia and rheumatism because these diseases have their origin in the blood.
