

Woman's Work

is never done, and it is especially wearing and wearisome to those whose blood is impure and unfit properly to tone, sustain, and renew the wasting of nerve, muscle and tissue. It is more because of this condition of the blood that women are run down.

Tired, Weak, Nervous,
Than because of the work itself. Every physician says so, and that the only remedy is in building up by taking a good nerve tonic, blood purifier and vitalizer like Hood's Sarsaparilla. For the troubles peculiar to women at change of season, climate or life, or resulting from hard work, nervousness, and impure blood, thousands have found relief and cure in

A Letter From St. Paul.

This excursion that I mentioned went from St. Paul to Lake Minnetonka by railroad then on a large steamboat we went around about half of this beautiful lake which is a summer resort. The shores are dotted here and there with large hotels and summer cottages amongst the groves. It rained while we were out and the water looked beautiful. We stopped at Lake Park hotel and they gave us an elegant dinner. Six hundred sat down at the first table in that large dining room and five hundred the second time. They had students of the city schools for waiters. One of them told me they had prepared for 1500. A majority of the W. R. C. delegates did not go for they were not through with their convention.

At the Nebraska headquarters we met many notable people. Among others was Mike Sheridan brother of the famous General Sheridan. He favors his brother a little but is not so large. He is now located at Fort Snelling.

We are at this writing at the famous old town founded by those sweet singers, the Hutchinson family, and named for them. They nearly all died and were buried here. The crops about here are good; corn is not like ours, it is small. They are cutting it up now. It is amusing to see how our friends will approach us on the subject of politics knowing that we are from Bryan's state. They think we may possibly favor him so they begin to talk softly until they find our principles then they are enthusiastic. I have not yet found one in favor of Bryan but my brother says there are some in this town. Wherever we go we have to go back to St. Paul as a starting point. On going back on the 11th, the city seemed deserted. The soldiers had left; it was easy enough to get a good dinner or a ride on the electric cars, while it was almost impossible last week.

Minneapolis we went next to. I think the city of the twins. The streets are beautiful, the view and the buildings are beautiful, the residences are grand. We visited an old friend of my youth who has grown rich in that city in the fruit business. He commenced small and invested his savings in city property that has increased in value until he is independent. He lives in a fine residence on Knox avenue a very beautiful part of the city about three miles from the Union depot. Fine views of the small lakes are to be seen from his windows. Minnehaha Falls and park are within the city limits. The park is finely arranged and well kept and the falls are just as beautiful as ever, although the volume of water is much reduced. The soldier's home was built there about four years ago. There are five large buildings of red stone, even the railings of the piazzas are all of the same stone. About two hundred men are there now but no women. They intend soon to build cottages so that the old soldier can bring his old wife with him. There are between two and three hundred old veterans there now. About half of them went to St. Paul and marched in the parade, but an ambulance went close behind them and picked up a good many before they reached the stopping place. This place is an ideal home for the old veterans. North St. Paul is a little city about eight miles from where the electric car starts at St. Paul to go there. It has a fine school building. We went there and made the acquaintance of all the school ma'ams; it was easily done as my niece is one of them. From there we took a night ride on the St. Paul & Duluth R. R. to the city of Sunrise on the St. Croix river. It is forty years old and over, but is not much larger than Inavale. It is in a farming community and the great industry is raising potatoes. Minnesota potatoes are delicious. Vegetables of all kinds are splendid here, not too large but well flavored, so are chickens. About seven miles from the town a dam has been built across the St. Croix in order to hold the logs that are floated down the river from the pineries. Now this river is not like the Platte, it is very deep. We have been to see this dam which is a marvel of engineering skill. Above it the river is entirely covered with pine logs for miles and miles. At certain times they open the sluice-way of the dam and let the logs go through, then they go to Stillwater where they are sawed into lumber. There is a bridge across this dam. We drove across into Wisconsin. The roads here are fine; it is delightful driving around through little pieces of woods where the foliage was just beginning to turn into different colors and is beautiful, then out where a small farm is cleared up, there may possibly be fifty or a hundred acres, but they look very small to me, then into the woods again. The people seem to be prosperous and happy, although they complain of hard times the same as we do, but they always raise enough to eat and back as far as the memory of the oldest inhabitants can go it has always been so. The weather is pleasant and comfortable. The Captain has gone fishing today with his nephew and is happy. It is a matter of doubt about his catching any fish, but it makes no difference the St. Croix is a good place to fish. As for politics there are only the two old parties here, with the republicans greatly in the majority.

The Captain returned without any fish but gives the excuse that the water was so high that they could not get to the river.

Diarrhea and Dysentery are dangerous, and you should not be without a bottle of **Beggs' Diarrhea Balm** in the house at this season of the year, as it relieves at once. No bad results follow. Sold by C. L. Cotting.

Cancer Of the Breast.

Mr. A. H. Crausby, of 158 Kerr St., Memphis, Tenn., says that his wife paid no attention to a small lump which appeared in her breast, but it soon developed into a cancer of the worst type, and notwithstanding the treatment of the best physicians, it continued to spread and grow rapidly, eating two holes in her breast. The doctors soon pronounced her incurable. A celebrated New York specialist then treated her, but she continued to grow worse and when informed that both her aunt and grandmother had died from cancer he gave the case up as hopeless. Someone then recommended S.S.S., and though little hope remained, she began it, and an improvement was noticed. The cancer commenced to heal and when she had taken several bottles it disappeared entirely, and although several years have elapsed, not a sign of the disease has ever returned.

A Real Blood Remedy.

S.S.S. (guaranteed purely vegetable) is a real blood remedy, and never fails to cure Cancer, Eczema, Rheumatism, Scrofula, or any other blood disease.

Our bottles will be mailed free to any address. Swift Specific Co., Atlanta, Ga.

Republican County Convention.
The county convention of the republican party was held here Saturday last. Convention was called to order by Chairman Hacker promptly at 11 o'clock and the business was done up rapidly so as to accommodate the meeting which had been announced for Congressman Andrews in the afternoon at Cowles. Mr. Hacker was made temporary chairman and R. McNitt temporary secretary. The temporary organization was made permanent and the convention proceeded to nominate a candidate for representative. Irving W. Cray of Guide Rock seemed to have no opposition and was nominated unanimously. For county attorney A. M. Walters of Blue Hill, R. T. Potter of this city and R. McNitt of this city were named on the informal ballot and on the second formal ballot Mr. McNitt was named as the candidate.

Delegates to the float representative convention which meets at Blue Hill on the 26th inst., were chosen as follows: L. P. Albright, E. Gard, I. Fish, J. R. Crozier, W. W. Wright, D. F. Trunkley, A. W. Riggins, J. Saladen, G. P. Cather, A. B. Pierce, R. E. Moore.

Delegates to the senatorial convention at Superior were chosen as follows: J. A. Tuileys, H. Holdredge, A. M. Walters, C. B. Crone, W. T. Matheny, J. B. Stanser, A. G. Willis, H. Widdersheim, Geo. Motter, T. G. Wilder, L. D. Thomas, M. C. Fulton.

Hon. F. A. Sweezy was present at the hall and was called out for a speech during a lull in the proceedings and responded in his usual happy way explaining how he came to return to the old party.

All the townships were represented except Oak Creek whose committee-man was absent from the county.

Our judgment of the ticket is that it is as good as could have been named and will undoubtedly be successful.

FEED THE NERVES upon pure, rich blood and you will not be nervous. Pure blood comes by taking Hood's Sarsaparilla which is thus the greatest and best nerve tonic.

NO FAITH CURE.

ABOUT STUART'S DYSPEPSIA TABLETS.

They Cure Stomach Troubles and Indigestion Anyway, Whether You Have Faith in Them or Not.

Mere faith will not digest your food for you, will not give you an appetite, will not increase your flesh, and strengthen your nerves and heart, but Stuart's Dyspepsia Tablets will do these things, because they are composed of the elements of digestion, they contain the juices, acids and peptones necessary to the digestion and assimilation of all wholesome food.

Stuart's Dyspepsia Tablet will digest food if placed in a jar or bottle in water heated to 98 degrees, and they will do it much more effectively when taken into the stomach after meals, whether you have faith that they will or not.

They invigorate the stomach, make pure blood and strong nerves, in the only way that nature can do it, and that is, from plenty of wholesome food well digested. It is not what we eat, but what we digest that does us good.

Stuart's Dyspepsia Tablets are sold by nearly all druggists at 50 cents for full sized package, or by mail from the Stuart Co., Marshall, Mich.

Li Hung Chang says he is "impressed by the welfare and prosperity of the American people," and yet these are what we call hard times. Let him return after McKinley's election if he wants to see the country at its best.—St. Louis Globe-Democrat.

In a recent letter to manufacturers of the Spectator, Rochester, N. Y., says: "It may be a pleasure to you to know the high esteem in which Chamberlain's medicines are held by the people of your own state, where they must be best known. An aunt of mine, who resides at Dexter, Iowa, was about to visit me a few years since, and before leaving home wrote me, asking if they were not she would bring a quantity with her, as she did not like to be without them." The medicines referred to are Chamberlain's Cough Remedy, famous for its cures of cold and croup; Chamberlain's Pain Balm for rheumatism, lame back, pains in the side and chest, and Chamberlain's Colic, Cholera and Diarrhea Remedy for bowel complaints. These medicines have been in constant use in Iowa for almost a quarter of a century. The people have learned that they are articles of great worth and merit, and unequalled by any other. They are for sale here by Deyo & Grice.

Beggs' Tropical Oil
The only liniment on the market today that has a positive guarantee to do all the label calls for. Its great strength and wonderful curative powers are particularly noticeable in deep seated diseases, such as Rheumatism, Neuralgia, etc. C. L. Cotting keeps it.

The republican float representative convention of the 40th district composed of Adams and Webster counties will meet at Blue Hill on Saturday, Sept. 20th, 1896, at 11 a.m., for the purpose of nominating a candidate for float representative from such district and the transaction of such other business as may come before it. Adams county will be entitled to 17 delegates and Webster county 11 delegates in such convention.
