

MRS. SENATOR WARREN.

Why Paine's Celery Compound is Famed in Washington Families.

Many persons out of health have found an excuse in hot weather for doing nothing toward getting well. "I will wait until fall," they have promised themselves.

It is now time, if ever, in thousands of cases, to keep that promise.

Nothing should now interfere with building up the weakened nerves.

Now is the time of year when rheumatism and neuralgia must be cured, when debility and nervousness must be checked, when bad health must be mended—if one hopes to get well.

The natural, unchecked course of disease is from bad to worse as the fall and winter wear on.

It is not that rheumatism, neuralgia, insomnia, and kidney troubles are hard to cure—Paine's celery compound has made a host of sufferers well—but people make themselves chronic invalids by neglecting the first symptoms of disease.

Thousands of lives that are now fast wearing out, would be prolonged if Paine's celery compound were in each instance used to stop those ominous pains over the kidneys, to build up the rundown nervous strength, and cure permanently those more and more frequently recurring attacks of headache and indigestion.

There is absolute relief from nervous prostration, sleeplessness, poor appetite, growing thinness and loss of vigor and strength in Paine's celery compound.

This most remarkable of all known remedies has won the sincere approval of the most progressive part of the community. Here is a testimonial recently received from the wife of U. S. Senator E. F. Warren of Wyoming, whose distinguished services for the country's best farming interests are so well known.

"I was persuaded to try your Paine's celery compound in the early spring when in a very run down condition. The duties devolving upon the wife of an official in public life are naturally very exhausting and I was tired out and nervous when I commenced using the remedy. I take pleasure in testifying to the great benefit I received from its use, and can truthfully say that I am in almost perfect health again. If I ever find myself running down again I shall certainly give it another trial and will in the meantime recommend it to every one needing it."

It is a fact, verified by the practice of the best physicians, and by thousands of personal testimonials that Paine's celery compound makes new, pure blood, builds up the nervous system, and cures disease where all other remedies have failed.

In all-absolute reliance is shown by its steady employment by trained physicians and in homes made happy by its unimpairing power of making people well.

TEN EGG RECIPES.

- Showing how to make palatable breakfast dishes may be obtained.**
- Omelet with broiled Beef**—Beat six eggs light, the whites and yolks separately. Fry a tablespoonful of butter into a frying pan and pour in it for a couple of minutes two tablespoonfuls of finely chopped broiled beef. Mix the whites and the yolks of the eggs lightly together, turn them into the pan upon the beef and proceed as with a plain omelet.
- Omelet with Green Peas**—Beat up six eggs for omelet as in preceding recipe, mix whites and yolks and stir into a half cupful of cooked or cooked green peas. Season with salt and pepper, put a tablespoonful of butter into the frying pan, pour in the omelet and cook as above directed.
- Sausage Omelet**—Make a plain omelet of six eggs and fry it in a tablespoonful of butter. Just before holding the omelet, lay on it three cooked sausages, which have been sliced, minced fine and heated. Fold the omelet and serve.
- Tomato Omelet**—Beat together the whites and yolks of six eggs, season with salt and pepper. Beat two tablespoonfuls of butter in a frying pan, turn into it a cupful of sliced tomatoes from which the liquor has been drained, cook for two minutes, and then stir in the beaten eggs. Let the omelet brown on the outside, fold over and serve.
- Eggs à la Florentine**—Beat a half pint of new milk in a pudding dish on the top of the stove, melt in a tablespoonful of butter, and when the milk boils break into it six eggs. Season with salt and pepper, cook for three minutes more. Serve in the dish in which they were cooked.
- Eggs Poached in Consommé**—Heat a pint of consommé or clear beef soup to boiling. Poach six eggs in it two at a time, lay them in a dish that will stand the heat and put the soup on the hot part of the stove where it will quickly resume a boil. While it boils sprinkle a tablespoonful of green cheese over the eggs, and set them in a hot oven. Thicken the soup with a tablespoonful of brown flour, kneaded with half a cup of milk, and when it is smooth and thick pour it around the eggs.
- Eggs à la Lyonnaise**—Beat six eggs hard and cut them into slices. Fry a small onion, sliced in a tablespoonful of butter, stir in a half pint of milk, in which has been mixed a tablespoonful of flour. Cook this to a smooth sauce, add pepper and salt to taste, put in the sliced eggs, cook two minutes longer, and serve in small squares of buttered

Dr. Price's Cream Baking Powder
A Pure Grape Cream of Tartar Powder.

The semi-annual convention of the Webster county union Sunday school will be held at the Christian church in Blue Hill, September 25 and 26. Following is the program:

10:00—Song service, led by C. L. Cotting of Red Cloud.

10:30—Devotional exercises.

11:00—Prize service.

11:30—Appointment of committees and arrangement of Sunday schools.

12:00—Dinner.

FRIDAY AFTERNOON.

1:30—Song and prayer service.

2:00—Subject, Sunday school organization. Mrs. O. Williams of Blue Hill, moderator; a general discussion.

3:30—Subject, Sunday school organization. Mrs. O. Williams of Blue Hill, moderator; a general discussion.

11:15—Subject, Sunday school weekly and quarterly reviews, A. D. Ranney, Blue Hill. Discussion by all.

12:00—Dinner.

SATURDAY AFTERNOON.

1:30—Devotional exercises.

2:00—Report of township presidents.

2:30—Miscellaneous business.

The entire program will be interspersed with good music.

On Tuesday evening the startling news was brought to town that Mrs. June Bent had been found dead in her yard at her home south of the river. It seems that there was no one at home but Mrs. Bent and two small children, who having found their mother lying in the yard and being unable to arouse her and not being old enough to understand what was the matter they had covered her up as best they could and it was not until an older child came home that the neighbors were notified.

The following is the verdict of the coroner's inquest:

At an inquest held at the residence of John Bent in Blue Township, Webster county, Nebraska, on the 15th day of September, A. D. 1896, before me, J. W. Warren, coroner of said county, upon the body of Mrs. June Bent, lying dead, by the juror whose names are set out, subscribed, the said juror upon their oath do say that the probable cause of death was heart failure, in testimony whereof the said juror have set their hands, the day and year above said.

J. W. WARREN, Coroner.
Signed by the Jurors.

FOLLOWING A PRECEDENT.

OLD TIME FOLKS had found the Health-Changer Set as All Accomplished.

A good honest fellow in kidney was Bill Kelly, but he had never had an opportunity to study moral philosophy as taught in the colleges, and university, says the New York Herald.

He came from Biddford, in Devon, and very likely some of his ancestors had helped build "walton" the Spaniards. He had followed in their footsteps by following in the navy to fight for his queen and country whenever called upon to do so.

When he returned from a voyage to China he brought with him a present for a gentleman who had been very kind to his old mother during his absence. It was a curiously fashioned Chinese garment made of bits of a species of straw string together.

"These, sir, you must observe on being presented," he said, "the Chinaman wouldn't part with an easy."

He had run across a Chinaman wearing it some where in the streets of Hong Kong, and the unfortunate fellow did not understand his company except to "hand that over here" he had simply stunk it off him.

To the supposition that his conduct had hardly been consistent with strict honesty he replied:

"I beggin' your pardon, sir, I never only a beggar, but I never heard that taking things from a beggar was considered as stealing."

"Well," replied his friend, "if many Blue-ribbon Englishmen had not acted on that supposition I don't know where the British empire would now be; so I'll keep the beggar's garments."

Heating Pains Notice.

Drummers—In just back all. I'm traveling for an automobile house, and every place I've struck has been suffering from drought.

Inventor—I am traveling with a rain-producing apparatus, and every town I've struck was knee-deep in mud.

Drummers—I say, let's travel together.—N. Y. Weekly.

Of Interest to Bicycle Riders.

There can be no question that one of the most important parts of a bicycle is the tire. It has to bear the brunt of the work, is constantly coming in contact with destroying elements, and generally receives the least care from the rider. The importance of the work it has to do was early recognized by makers of bicycles, however, and they have given much attention to this important adjunct of the wheel.

There are many, perhaps, fifty different styles of bicycle tires in the market, and it is very easy to select one that will suit one's needs. It is not, however, so easy to select one that will suit one's needs in the long run. The first pneumatic tire—the rags-and-gum kind—was giving trouble, and Morgan & Wright stepped in to fill a great public want. They furnished a tire that could be easily taken from the rim to be repaired. That was the principle requirement in those days, besides the usual requirements of speed, durability and comfort.

The leading firm of the United States, and in fact the entire world, in the manufacture of double-tube tires, is Morgan & Wright, Chicago. Their history is interesting. The first pneumatic tire—the rags-and-gum kind—was giving trouble, and Morgan & Wright stepped in to fill a great public want. They furnished a tire that could be easily taken from the rim to be repaired. That was the principle requirement in those days, besides the usual requirements of speed, durability and comfort.

That was several years ago. Single-tube tires had been pushed in Europe, and were failing, and the same effort was being started in this country. The Morgan & Wright double-tube tire quickly proved its superiority—with the result stated above. The quick-repair inner tube, which is this year a standard feature of all of this firm's tires, has made the position of double-tube tires practically invincible, by making it quick and easy for the riders to secure, at the roadside, a permanent repair—a thing admittedly impossible in the majority of single-tube accidents.

Housekeeping.

If a woman is in good health there is no more healthful employment than housework. Generally speaking, there is no happier woman in the world, but how different when every breath is pain, every step torture! This state of health, in nine cases out of ten comes from derangements of the delicate, feminine organs of generation. The family doctor inquires first concerning these. He most usually insists upon an "examination." From this the modest woman naturally shrinks. She is right. Except in every unusual case of "female weakness" examinations are unnecessary. Dr. Pierce's Favorite Prescription is a simple, natural remedy for the ills. It cures safely, permanently.

After meals you should have simply a feeling of comfort and satisfaction. You should not feel any special burden if a flat digestion is going on. It will do you no good to eat, when you are indigestible. This may be the beginning of so many dangerous diseases that it is best to take it in hand at once and treat it with Sialer Digestive Compound. For you know that indigestion makes poison, which causes pain and sickness. And just Sialer Digestive Compound does this by providing the digestive materials in which the sick stomach is wanting. It stimulates up and strengthens the digestive organs and makes them perfectly healthy. This is the substance of the method of cure, as the doctors would say. Sold by druggists, price 10 cents to \$1.00 per bottle.

For Sale Cheap.

A cheap home. A bargain for some one, together with all the household goods. For price call on Mrs. A. H. Brown or see Bob Martin.

EXACT COPY OF WRAPPER.

It is the duty of every man to make the most of himself. Whatever his capacities may be, he is sure to find some place where he can be useful to himself and others. But he cannot reach the highest usefulness without good health and he cannot have good health without pure blood. The blood circulates to every organ and tissue when it is pure, rich and healthy it carries health to the entire system, but if it is impure it carries disease where ever it flows. Hood's Sarsaparilla is the one true blood purifier. It cures salt rheum, scrofula, eczema, dyspepsia and rheumatism because these diseases have their origin in the blood.

Book Agents Attention.

Are you selling Metcalf's Life of Byron & Sewall or Halsted's Life of McKim & Hobart? We give the very best consideration. We give you 25% on each volume if you sell 100 copies. We pay in full to you. We will send you our prospectus. Keep these books in stock and we will send you 100 copies from our press. We are looking for more. Don't forget the 25% discount. It was sold at \$1.50. Order 100 - send us your name, address and price per copy. E. H. GIBBY & CO., Philadelphia, Pa.
