

# More

Medicinal value in a bottle of Hood's Sarsaparilla than in any other preparation.

**More** skill is required, more care taken, more expense incurred in its manufacture.

**More** it costs the proprietor and the dealer but it costs the consumer less, as he gets more doses for his money.

**More** curative power is secured by its peculiar combination, proportion and process, which make it peculiar to itself.

**More** people are employed and more space occupied in its laboratory than any other.

**More** wonderful cures effected and more testimonials received than by any other.

**More** sales and more increase year by year are reported by druggists.

**More** people are taking Hood's Sarsaparilla today than any other, and more are taking it today than ever before.

**More** and still more reasons might be given why you should take

# Hood's Sarsaparilla

The One True Blood Purifier. \$1 per bottle.

Hood's Pills cure all Liver Ills and Sick Headache. 25cents.

M. L. FRIESE.

### Congressional.

For Congress Fifth District,  
W. E. ANDREWS.

### A Letter From St. Paul

September 14th.—North Branch is a town on the St. Paul and Duluth R. R. and although of much later date than Sunrise is much larger, people having moved their business from the earlier to the later city, when the railroad, which they fondly expected, gave them the slip. This town has two large starch factories, one owned by a company, and the other owned and managed by the farmers themselves in which they work up about 1500 bushels. The crop of potatoes is what they bank on in this part of the state. The price is very low at present because there is not a demand for starch on account of so many cotton factories in the east being closed. But they pile up the starch (in one factory there is now 150 tons) expecting that when we get a republican administration again and manufacturing begins in the east there will be a demand for it.

September 18th.—Back to St. Paul again thence to Red Wing where we lived before the war. This city was first surveyed and platted in 1853, and has grown gradually to about 8,000 inhabitants. It is beautifully situated on the banks of the Mississippi river with well wooded bluffs in the back ground. The population is large. Scandinavian at present, and it a great educational center. I will give a description of it in my next letter. E. B. K.

### Notice to Teachers.

Notice is hereby given that I will examine all persons who may desire to offer themselves as candidates for teachers of the public schools of this county, at Red Cloud on the third Saturday of each month.

Special examinations will be held on the Friday preceeding the 2d Saturday of each month.

The standing desired for 2d and 3d grade certificate is the same—no grade below 70 per cent., average 80 per cent; for first grade certificate—no grade below 80 per cent., average 80 per cent in all branches required by law.

D. M. HUNTER, County Supt.

John Winters has purchased the corner lots south of his residence from Mrs. A. B. Brown, consideration being \$250.

### BATIN.

Peter Nelson was in Kearney county the first of this week.

O. Phillips of Otto has bought a new Deering mower.

Ira Miller from near Kansas was in this locality Saturday.

J. B. Wisecarver and family were guests of C. H. Wilson Sunday.

Several from this vicinity attended the Webster county fair last week.

Mr. Wright of Red Cloud was in this community one day last week.

Claud Duval and family were pleasant visitors at Emory Beans Sunday.

J. C. Wilson was transacting business in Campbell one day last week.

Theodore Anderson from Blair, this state, is here visiting among his relatives.

Misses Carrie and Bianch Cather are attending school at Grand Island.

Johnnie Marker sold some cattle to Chas. Hunter of Inavale on Friday of last week.

On Saturday last there occurred at the residence of Rev. Horton in Red Cloud the marriage of Mr. W. H. Wisecarver and Miss Cora Holmes from this vicinity. Only a few of the most intimate friends witnessed the tying of the nuptial knot.

### STUNNER.

In a recent letter to manufacturers Mr. W. F. Benjamin, editor of the Spectator, Ruchford, N. Y., says, "It may be a pleasure to you to know the high esteem in which Chamberlain's medicines are held by the people of your own state, where they must be best known. An aunt of mine, who resides at Dexter, Iowa, was about to visit me a few years since, and before leaving home wrote me, asking if they were sold here, stating if they were not she would bring a quantity with her, as she did not like to be without them." The medicines referred to are Chamberlain's Cough Remedy, famous for its cures of cold and croup; Chamberlain's Pain Balm for rheumatism, lame back, pains in the side and chest, and Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints. These medicines have been in constant use in Iowa for almost a quarter of a century. The people have learned that they are articles of great worth and merit, and unequalled by any other. They are for sale here by Deyo & Grice.

**Book Agents Attention.**  
Are you selling Metcalf's life of Bryan & Sewall or Halstead's life of McKinley & Hobart? We give the very largest commissions. We give you \$20 in cash besides if you sell 100 books. We pay freight to you. We give credit. We ship goods promptly. Every Halstead or Metcalf book sold in the country comes from our place. We are headquarters. Deal direct from the manufacturers. Books sold at \$1.50. Outfits free. Send six cents for postage and save expressage.—L. E. McGEAL & BRO., Philadelphia, Pa.

List of letters remaining uncalled for at the post office at Red Cloud, Nebraska, for the week ending September 24th, 1896.

Cave, A. Bennett, W. H.

These letters will be sent to the dead letter office, Sept. 28th, if not called for before.—FRANK W. COWDEN, P. M.

**Diarrhea and Dysentery**  
are dangerous, and you should not be without a bottle of Boggs' Diarrhea Balm in the house at this season of the year, as it relieves at once. No bad results follow. Sold by C. L. Cotting.

Uncle Dick Payne accompanied by Charley Hickey were pleasant callers this week.

Mrs. Readmaster Wilburn and a sister of Mr. Wilburn are visiting in Hendley this week.

## Blood Poison.

Contagious Blood Poison has been appropriately called the curse of mankind. It is the one disease that physicians cannot cure; their mercurial and potash remedies only bottle up the poison in the system, to surely break forth in a more virulent form, resulting in a total wreck of the system.

Mr. Frank B. Martin, a prominent jeweler at 926 Pennsylvania Ave., Washington, D.C., says: "I was for a long time under treatment of two of the best physicians of this city, for a severe case of blood poison, but my condition grew worse all the while, notwithstanding the fact that they charged me three hundred dollars. My mouth was filled with eating sores; my tongue was almost eaten away, so that for three months I was unable to taste any solid food. My hair was coming out rapidly, and I was in a horrible fix. I had tried various treatments, and was nearly discouraged, when a friend recommended S.S.S. After I had taken four bottles, I began to get better, and when I had finished eighteen bottles, I was cured sound and well, my skin was without a blemish, and I have had no return of the disease. S.S.S. saved me from a life of misery." S.S.S. (guaranteed purely vegetable) will cure any case of blood poison. Write for its treatment, mailed free by Swift Specific Co., Atlanta, Ga.

That was several years ago. Single-tube tires had been pushed in Europe, and were failing, and the same effort was being started in this country. The Morgan & Wright double-tube tire quickly proved its superiority—with the result stated above. The quick-repair inner tube, which is this year a standard feature of all of this firm's tires, has made the position of double-tube tires practically invincible, by making it quick and easy for the riders to secure, at the roadside, a permanent repair—a thing admittedly impossible in the majority of single-tube accidents.

**Your Hair Can Be Saved**  
from falling out or turning gray. This is a positive fact, and we guarantee Reg's Hair Restorer to do it. It cleanses the scalp, leaving the hair glossy and luxuriant. Sold by C. L. Cotting.

There are today, perhaps, thirty different styles of bicycle tires on the market, all of which vary in detail. As to their various merits, theories are of little value; actual experience is the only way to determine this question. Unless an article gives satisfaction, demand for it soon ceases. After a test of over six years, during which time double-tube and single tube tires have been marketed, at least three-fourths of all the riders in this country today demand and ride double-tube tires.

The leading firm of the United States, and in fact the entire world, in the manufacture of double-tube tires, is Morgan & Wright, Chicago. Their history is interesting. The first pneumatic tire—the rags-and-gum kind—was giving trouble, and Morgan & Wright stepped in to fill a great public want. They furnished a tire that could be easily taken from the rim to be repaired. That was the principle requirement in those days, besides the usual requirements of speed, durability and comfort.

### A NEW DYSPEPSIA CURE.

Over 6,000 People in State of Michigan Cured in 1894 by this New Preparation.

Stuart's Dyspepsia Tablets, the new discovery for stomach troubles, is claimed to have cured over 6,000 people in the state of Michigan alone in 1894. These tablets have become so popular with physicians and people who have any form of indigestion that they have the endorsement of such physicians as Dr. Harlandson and Dr. Jennison as being the safest, most reliable remedy for sour stomach, chronic dyspepsia, gas, bloating, palpitation, headache, constipation and in all cases where the appetite is poor or the food imperfectly digested.

It is safe to say that Stuart's Dyspepsia Tablets will cure any kind of stomach trouble except cancer of the stomach. They are not a secret patent medicine but composed of vegetable and fruit essences, pure pepsin, Golden Seal, ginger and the digestive acids. They are pleasant to take, can be carried in the pocket, and they cure because they digest the food promptly before it has time to ferment and poison the blood.

Druggists everywhere sell Stuart's Dyspepsia Tablets, full sized packages, at 50 cents. A book on stomach diseases and thousands of testimonials sent free by addressing The Stuart Co., Marshall Mich.

Mr. Bryan has lost his grip entirely; his speeches have descended to a basis of buffoonery and cheap appeals to prejudice; he doesn't try to argue anything any more. He is still ridiculously eager to make speeches, although he seems at a loss for something to say. A handful of railway postal clerks, on their way to Denver, telegraphed ahead to Lincoln that they would like to see Mr. Bryan at the depot, and he was there, with his volcanic jaws ready for service. He will go to the depot to make a speech to any old lady who happens to be traveling. It is the greatest wonder of the day that his campaign managers do not head him off to some extent.—Beatrice Express.

**Are You Tired.**  
All the time? This condition is a sure indication that your blood is not rich and nourishing as it ought to be and as it may be it will take a few bottles of the great blood purifier, Hood's Sarsaparilla. Thousands write that Hood's Sarsaparilla has cured them of that tired feeling by giving them rich, red blood.

Hood's Pills act easily and promptly on the liver and bowels. Cure sick-headache.

We received an obituary on the death of little Lavella Griminger of Wynore this week but too late for publication.

**Of Interest to Bicycle Riders.**  
There can be no question that one of the most important parts of a bicycle is the tire. It has to bear the brunt of the work, is constantly coming in contact with destroying elements, and generally receives the least care from the rider. The importance of the work it has to do was early recognized by makers of bicycles, however, and they have given much attention to this important adjunct of the wheel.

There are today, perhaps, thirty different styles of bicycle tires on the market, all of which vary in detail. As to their various merits, theories are of little value; actual experience is the only way to determine this question. Unless an article gives satisfaction, demand for it soon ceases. After a test of over six years, during which time double-tube and single tube tires have been marketed, at least three-fourths of all the riders in this country today demand and ride double-tube tires.

The quick-repair inner tube, which is this year a standard feature of all of this firm's tires, has made the position of double-tube tires practically invincible, by making it quick and easy for the riders to secure, at the roadside, a permanent repair—a thing admittedly impossible in the majority of single-tube accidents.

There are today, perhaps, thirty different styles of bicycle tires on the market, all of which vary in detail. As to their various merits, theories are of little value; actual experience is the only way to determine this question. Unless an article gives satisfaction, demand for it soon ceases. After a test of over six years, during which time double-tube and single tube tires have been marketed, at least three-fourths of all the riders in this country today demand and ride double-tube tires.

The leading firm of the United States, and in fact the entire world, in the manufacture of double-tube tires, is Morgan & Wright, Chicago. Their history is interesting. The first pneumatic tire—the rags-and-gum kind—was giving trouble, and Morgan & Wright stepped in to fill a great public want. They furnished a tire that could be easily taken from the rim to be repaired. That was the principle requirement in those days, besides the usual requirements of speed, durability and comfort.

That was several years ago. Single-tube tires had been pushed in Europe, and were failing, and the same effort was being started in this country. The Morgan & Wright double-tube tire quickly proved its superiority—with the result stated above.
